**Building Envelopes** Jenny Lovel, 2013-07-02 Few parts of a building work harder than its envelope also known as its facade The envelope is the part of the building most visible from the outside so it should be visually appealing but it can also have the biggest effect on the well being and safety of its occupants so the envelope should be help heat and cool the building allow light into it and provide necessary structure Too often a building s envelope is more aesthetically striking than functional or vice versa A great building envelope though architecturally integrates all of its elements      **Hearings, Reports and Prints of the Senate Committee on the District of Columbia** United States. Congress. Senate. Committee on the District of Columbia, 1967      *Interior Department Appropriation Bill for 1943* United States. Congress. House.
