Social Change the Colonial Situation Immanuel Wallerstein, 1966 *Africa and the Modern World* Immanuel Maurice Wallerstein, 1986 Social Change in the Southwest, 1350-1880 Thomas D. Hall, 1989 Colonialism in Question Frederick Cooper, 2005-06-06 Probably the most important historian of Africa currently writing in the English language His intellectual reach and ambition have even taken influence far beyond African studies as such and he has become one of the major voices contributing to debates over empire colonialism and their aftermaths This book is a call to reinvigorate the critical way in which history can be written Cooper takes on many of the standard beliefs passing as postcolonial theory and breathes fresh air onto them Michael Watts Director of the Institute of International Studies Berkeley This is a very much needed book on Africa on intellectual artisanship and on engagement in emancipatory projects Drawing on his enormous erudition in colonial history Cooper brings together an intellectual and a moral political argument against a series of linked developments that privilege taking a stance and in favor of studying processes of struggle through engaged scholarship Jane I Guyer author of *Marginal Gains* **Explorations and Entanglements** Hartmut Berghoff, Frank Biess, Ulrike Strasser, 2018-11-16 Traditionally Germany has been considered a minor player in Pacific history its presence there was more limited than that of other European nations and whereas its European rivals established themselves as imperial forces beginning in the early modern era Germany did not seriously pursue colonialism until the nineteenth century Yet thanks to recent advances in the field emphasizing transoceanic networks and cultural encounters it is now possible to develop a more nuanced understanding of the history of Germans in the Pacific The studies gathered here offer fascinating research into German missionary commercial scientific and imperial activity against the backdrop of the Pacific s overlapping cultural circuits and complex oceanic transits Ordering Africa Helen Tilley, Robert Gordon, 2017-03-01 African research played a major role in transforming the discipline of anthropology in the twentieth century Ethnographic studies in turn had significant effects on the way imperial powers in Africa approached subject peoples Ordering Africa provides the first comparative history of these processes With essays exploring metropolitan research institutes Africans as ethnographers the transnational features of knowledge production and the relationship between anthropology and colonial administration this volume both consolidates and extends a range of new research questions focusing on the politics of imperial knowledge Specific chapters examine French West Africa the Belgian and French Congo the Anglo Egyptian Sudan Italian Northeast Africa Kenya and Equatorial Africa Gabon as well as developments in Britain France Germany Italy and Switzerland A major collection of essays that will be welcomed by scholars interested in imperial history and the history of Africa *Race and Class in the Southwest and Other Essays* Mario Barrera, 2025-09-24 In *Race and Class in the Southwest and Other Essays* Mario Barrera puts forth his seminal theory of racial inequality based on a synthesis of class and colonial analysis together with several essays and selections from Barrera s memoir that show how his thinking developed throughout his work

Reprinted here for the first time after becoming a modern classic of Chicano studies *Race and Class in the Southwest* focuses on the economic foundations of inequality as they have affected Chicanos in the Southwest from the Mexican American War to the present Barrera reviews the economic history of Chicanos their relegation to a subordinate position in the labor force segmented along racial lines their displacement from the land the effects of waves of immigration from Mexico the role of an emerging Chicano middle class and state policies designed to reproduce the subordinate status of Chicanos He reviews competing theories of racial inequality and concludes that an internal colonialism model that focuses on the institutional subordination of Chicanos offers the greatest explanatory value for understanding the political economy of Chicanos in the Southwest The editors Rodolfo D Torres and William I Robinson provide both an important historical and contextual introduction to the work as well as thorough annotation that brings the scholarship into contemporary conversation with further theoretical development and highlights Barrera's significant contribution to recent and new debates that reflect his legacy at a time of rising social inequalities political conflict and mass migration into the United States from Latin America

The Dynamics of Modern Society William Goode, 2017-09-05 Social research efforts are often more concerned with basic social processes or patterns than with the dynamic relationship between social processes and social institutions In this classic collection contributors posit generalizations drawn from contemporary sociology Their analyses go beyond elementary principles they interpret them qualify them or state them more precisely Each of the contributors focuses on the modern American social structure and they are either explicitly comparative or have made observations that clearly are meant to apply to many countries This volume both embodies and draws attention to newer developments in sociology Like most steps forward in an advancing science this orientation does not reject the older knowledge accumulated during earlier generations but incorporates and expands upon it The differences are in emphasis rather than any denial of the main body of accepted theory On the other hand the collection may be said to represent a response to the many criticisms by humanists and sociologists alike of the mainstream of contemporary sociology as it existed at the time of original publication in the late 1960s Inquiries into social changes like sociological studies of historical phenomena may be viewed as modes of a comparative sociology They permit us to test more fully sociological generalizations The emphasis in this volume on historical and comparative studies and on social change parallels the growing attention of sociology to these problems During the 1960s social science turned from a nearly exclusive preoccupation with middle class populations to a concern with social relations in other societies past as well as present In addition to enriching our knowledge this broader view has increased both the precision and generalizing power of sociological principles

Decolonization and the French of Algeria
Sung-Eun Choi, 2016-01-26 In 1962 almost one million people were evacuated from Algeria France called these citizens Repatriates to hide their French Algerian origins and to integrate them into society This book is about Repatriation and how it became central to France's postcolonial understanding of decolonization the Algerian past and French identity

Handbook of the Sociology of Racial and Ethnic Relations Hernan Vera, Joe R Feagin, 2007-08-03 The study of racial and ethnic relations has become one of the most studied aspects in sociology and sociological research In both North America and Europe many traditional cultures are feeling threatened by immigrants from Latin America Africa and Asia Sociology is at the hub of the human sciences concerned with racial and ethnic relations Since this discipline is made of multiple paradigms and methodological orientations it has been able to make relevant contributions to disciplines ranging from individual psychology social psychology and psychiatry to economics anthropology linguistics cultural studies health care delivery and education *Routledge Library Editions: World Empires* Various, 2021-07-09 The 16 volumes in this set originally published between 1919 and 1998 draw together research by leading academics in the area of World Empires and provide an examination of related key issues The books examine French Colonialism the German Empire and the Ottoman Empire as well as the effect European colonialism had in Africa and Asia This set will be of particular interest to students of world history *Colonial Situations* George W. Stocking, 1991-10-01 As European colonies in Asia and Africa became independent nations as the United States engaged in war in Southeast Asia and in covert operations in South America anthropologists questioned their interactions with their subjects and worried about the political consequences of government supported research By 1970 some spoke of anthropology as the child of Western imperialism and as scientific colonialism Ironically as the link between anthropology and colonialism became more widely accepted within the discipline serious interest in examining the history of anthropology in colonial contexts diminished This volume is an effort to initiate a critical historical consideration of the varying colonial situations in which and out of which ethnographic knowledge essential to anthropology has been produced The essays comment on ethnographic work from the middle of the nineteenth century to nearly the end of the twentieth in regions from Oceania through southeast Asia the Andaman Islands and southern Africa to North and South America The colonial situations also cover a broad range from first contact through the establishment of colonial power from District Officer administrations through white settler regimes from internal colonialism to international mandates from early pacification to wars of colonial liberation from the expropriation of land to the defense of ecology The motivations and responses of the anthropologists discussed are equally varied the romantic resistance of MacLay and the complicity of Kuper in early colonialism Malinowski's salesmanship of academic anthropology Speck's advocacy of Indian land rights Schneider's grappling with the ambiguities of rapport and Turner's facilitation of Kaiapo cinematic activism Provides fresh insights for those who care about the history of science in general and that of anthropology in particular and a valuable reference for professionals and graduate students Choice Among the most distinguished publications in anthropology as well as in the history of social sciences George Marcus *Anthropologica* **Political Awakening in the Belgian Congo** René Lemarchand, 1963 **Political Awakening in the Congo** Rene Lemarchand, 2023-04-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and

cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1964 Structure and Change in Indian Society Milton B. Singer, Bernard S. Cohn, Recent theoretical and methodological innovations in the anthropological analysis of South Asian societies have introduced distinctive modifications in the study of Indian social structure and social change This book reporting on twenty empirical studies of Indian society conducted by outstanding scholars reflects these trends not only with reference to Indian society itself but also in terms of the relevance of such trends to an understanding of social change more generally The contributors demonstrate the adaptive changes experienced by the studied groups in particular villages towns cities and regions The authors view the basic social units of joint family caste and village not as structural isolates but as intimately connected with one another and with other social units through social and cultural networks of various kinds that incorporate the social units into the complex structure of Indian civilization Within this broadened conception of social structure these studies trace the changing relations of politics economics law and language to the caste system Showing that the caste system is dynamic with upward and downward mobility characterizing it from pre British times to the present the studies suggest that the modernizing forces which entered the system since independence parliamentary democracy universal suffrage land reforms modern education urbanization and industrial technology provided new opportunities and paths to upward mobility but did not radically alter the system The chapters in this book show that the study of Indian society reveals novel forms of social structure change They introduce methods and theories that may well encourage social scientists to extend the study of change in Indian society to the study of change in other areas Milton Singer 1912 1994 was Paul Klapper Professor of Social Sciences and professor of anthropology at the University of Chicago He was a fellow of the Academy of Arts and Sciences He was also chosen as a distinguished lecturer by the American Anthropological Association and was the recipient of the Distinguished Scholar Award of the Association for Asian Studies Bernard S Cohn 1918 2003 was Professor Emeritus of Anthropology at the University of Chicago He was widely known for his work on India during the British colonial period and wrote many books on the subject of India including *India The Social Anthropology of a Civilization* 1971 *An Anthropologist among the Historians and Other Essays* 1987 and *Colonialism and its Forms of Knowledge* 1996 *The Colonial Epoch in Africa* Gregory Maddox, 2018-05-01 The articles collected in this study first published in 1993 concentrates on the transformation and continuities in African societies during the height of the colonial era and explores the struggles by Africans to find space socially politically or economically within the confines of colonial rule This title will be of interest to students of African history and Imperialism **Fanon** Jinadu, 2021-12-24 First published in 1986 Fanon In Search of the African Revolution is different from other books on Fanon in that it approaches him as both a political philosopher and political sociologist of the African experience It suggests that Fanon s political writings be viewed in terms of his concern

with how relations are structured in colonial and post colonial Africa and the implications of those structural arrangements for political conflict in Africa Fanon s attempt to explain the pathologies and contradictions of African politics in terms of class and the historical processes that influence and constrain class political behavior is provocative and insightful But the moral dimension that informs Fanon s theoretical perspectives is no less important if only because it attests to his strong advocacy of the need for revolutionary change as a condition for the restructuring of African political systems *Africa Under Colonial Domination 1880-1935* Unesco. International Scientific Committee for the Drafting of a General History of Africa,1985 Africa was partitioned and colonized by the Europeans After military conquest came the commercial exploitation of the wealth of Africa The intensity of resistance to colonization varied from one region to another but a new economic and social system linked with colonization was put in place bringing about unprecedented demographic and political change Publisher s description

Entanglements of Modernity, Colonialism and Genocide Jack Palmer,2018-05-08 This book offers a novel sociological examination of the historical trajectories of Burundi and Rwanda It challenges both the Eurocentric assumptions which have underpinned many sociological theorisations of modernity and the notion that the processes of modernisation move gradually if precariously towards more peaceable forms of cohabitation within and between societies Addressing these themes at critical historical junctures precolonial colonial and postcolonial the book argues that the recent experiences of extremely violent social conflict in Burundi and Rwanda cannot be seen as an object apart from the concerns of sociologists as it is commonly presented Instead these experiences are situated within a specific route to and through modernity one entangled with Western modernity A contribution to an emerging global historical sociology

Entanglements of Modernity Colonialism and Genocide will appeal to scholars of sociology and social theory with interests in postcolonialism historical sociology multiple modernities and genocide
