The Dance of the Islands Christy Constantakopoulou, 2010-07-29 Christy Constantakopoulou examines the history of the Aegean islands and changing concepts of insularity with particular emphasis on the fifth century BC Islands are a prominent feature of the Aegean landscape and this inevitably created a variety of different and sometimes contradictory perceptions of insularity in classical Greek thought Geographic analysis of insularity emphasizes the interplay between island isolation and island interaction but the predominance of islands in the Aegean sea made island isolation almost impossible Rather island connectivity was an important feature of the history of the Aegean and was expressed on many levels Constantakopoulou investigates island interaction in two prominent areas religion and imperial politics examining both the religious networks

located on islands in the ancient Greek world and the impact of imperial politics on the Aegean islands during the fifth century

Heritage and Memory of War Gilly Carr, Keir Reeves, 2015-04-17 Every large nation in the world was directly or indirectly affected by the impact of war during the course of the twentieth century and while the historical narratives of war of these nations are well known far less is understood about how small islands coped These islands often not nations in their own right but small outposts of other kingdoms countries and nations have been relegated to mere footnotes in history and heritage studies as interesting case studies or unimportant curiosities Yet for many of these small islands war had an enduring impact on their history memory intangible heritage and future cultural practices leaving a legacy that demanded some form of local response This is the first comprehensive volume dedicated to what the memories legacies and heritage of war in small islands can teach those who live outside them through closely related historical and contemporary case studies covering 20th and 21st century conflict across the globe The volume investigates a number of important questions Why and how is war memory so enduring in small islands Do factors such as population size island size isolation or geography have any impact Do close ties of kinship and group identity enable collective memories to shape identity and its resulting war related heritage This book contributes to heritage and memory studies and to conflict and historical archaeology by providing a globally wide ranging comparative assessment of small islands and their experiences of war *Heritage of War in Small Island Territories* is of relevance to students researchers heritage and tourism professionals local governments and NGOs

The Usable Past K. S. Brown, Yannis Hamilakis, 2002-11-27 In this volume K S Brown and Yannis Hamilakis bring together scholars of history archaeology and anthropology to explore the located and contextual nature of historical narratives The contributors analyze contested historic rituals building styles and traditions looking through the unique lens of twentieth century Greek identity paying particular attention to the ways these social phenomena and cultural artifacts manifest tension between official and unofficial narratives of the past Though focused on the changing historical basis of Greek culture and identity this work further serves as an important theoretical contemplation of how our view of the past is shaped by our relationship with the present

Vindictory Justice Raúl Márquez Porras, Riccardo Mazzola, Ignasi Terradas Saborit, 2021-11-16 This volume offers a new theoretical approach to the analysis of the law revenge binary and attempts to dismantle the common idea of revenge as lacking any legal moral or rational dimension In contrast the book puts forward a model of a complex system of justice which it terms vindictory wherein vendetta constitutes an authorized action the core of which does not just lie in vengeance but also in settlement procedures for peace or composition The first part of the book *Vindictory Justice Conceptual Analyses and Forerunners* seeks to identify the nature of vindictory justice and to shed light on the structure of so called vindictory systems In turn the second part *Mapping Vindictory Justice* illustrates using examples gathered from a range of sociolegal contexts the dynamic relationship between composition and authorized revenge in vindictory systems Taken as a whole the volume shows that applying a longue dur e historical perspective to the

study of revenge systems allows us to clearly recognize composition and authorized revenge as features of the same legal system even though one of them may seem predominant or more eye catching than the other in certain cultural settings

Rebels and Radicals Anthony J. Papalas, 2005 Icaria a long craggy and destitute isle in the Aegean Sea is visible from Turkey The toil and travail of its people symbolizes the journey all Greek People made to achieve a modern society But unlike other Greeks the Icarians often chose a dead end path Never in agreement with those around them the story of the Icaraians shows the best and the worst of Greek society The Icarians were loyal subjects of the Ottoman Empire who because of poverty and lack of resources were not expected to pay heavy taxes while most Ottoman Greeks were dissatisfied with Turkish rule and dreamed of independence But just before World War I when the Greek government did not want to annex the island because of international complications the Icarians expelled the Turks and demanded inclusion in the Greek State At that time the bulk of the young men were escaping the grinding poverty of the island by immigrating to the United States Although the majority of these men stayed in America and brought wives from the island to the New World they maintained local ties Their influence both positive and negative affected many qualities of Icarian life The Icarians did not find their expectations fulfilled as part of Greece and remained disenchanted with their conditions through the twenties and thirties of the 20th century The forties brought first the Italians then the Germans and finally the British After the turmoil many Icarians supported radical political solutions to their problems sympathizing with a native guerrilla movement and rejecting efforts to improve their island seeing only the great Capitalistic conspiracy at work In the last decades of the 20th century the Icarians finally entered the modern but at a too rapid rate leaving the people unable to cope with some aspects of modernity Anthony J Papalas has assembled a true peoples history by bringing together unusual documents such as dowry agreements and Ottoman court records memoirs and accounts of Icaria by people who were involved in the events he describes all interwoven with informative and perceptive descriptions from forty years of interviews with Icarians from all areas and conditions Here is a history on the social level not grand politics or great battles but rather the everyday existence and immediate choices which once made shape succeeding events **Modern Greece** Thomas W. Photographs, Narratives, Materialities Philip Carabott, Yannis Hamilakis, Eleni Papargyriou, 2016-03-09 While written sources on the history of Greece have been studied extensively no systematic attempt has been made to examine photography as an important cultural and material process This is surprising given that Modern Greece and photography are almost peers both are cultural products of the 1830s and both actively converse with modernity Camera Graeca Photographs Narratives Materialities fills this lacuna It is the first inter disciplinary volume to examine critically and in a theorised manner the entanglement of Greece with photography The book argues that photographs and the photographic process as a whole have been instrumental in the reproduction of national imagination in the consolidation of the nation building process and in the generation and dissemination of state propaganda At the same time it is argued that the photographic field constitutes a site of memory and counter memory where various social actors intervene actively and stake their discursive material and practical claims As such the volume will be of relevance to scholars and photographers worldwide The book is divided into four tightly integrated parts The first Imag in ing Greece shows that the consolidation of Greek national identity constituted a material cum representational process the projection of an imagery although some photographic production sits uneasily within the national canon and may even undermine it The second part Photographic narratives alternative histories demonstrates the narrative function of photographs in diary keeping and in photobooks It also examines the constitution of spectatorship through the combination of text and image and the role of photography as a process of materializing counter hegemonic discourses and practices The third part Photographic matter realities foregrounds the role of photography in materializing state propaganda national memory and war The final part Photographic ethnographies **Famine and Death**

Greece Roderick Beaton,2019-03-07 We think we know ancient Greece the civilisation that shares the same name and gave us just about everything that defines western culture today in the arts sciences social sciences and politics Yet as Greece has been brought under repeated scrutiny during the financial crises that have convulsed the country since 2010 worldwide coverage has revealed just how poorly we grasp the modern nation This book sets out to understand the modern Greeks on their own terms How did Greece come to be so powerfully attached to the legacy of the ancients in the first place and then define an identity for themselves that is at once Greek and modern This book reveals the remarkable achievement during the last 300 years of building a modern nation on sometimes literally the ruins of a vanished civilisation This is the story of the Greek nation state but also and perhaps more fundamentally of the collective identity that goes with it It is not only a history of events and high politics it is also a history of culture of the arts of people and of ideas

and Cyprus This book was previously published as a special issue of South European Society and Politics
