Social Theory After Postmodernism Rethinking Production Law And Class:

Social Theory After Post-modernism Anthony Woodiwiss, 1990 Setting out to exemplify a new approach to social theory one forged in the course of a critical dialogue between Postmodernism and Marxism this book departs from classical Marxist thought By directly engaging with issues in social and political theory the book offers a way forward for a new and revitalised Marxist tradition The book does not fit within any single disciplinary boundary but challenges the limits imposed by conventional boundaries The author breaks with the usual Postmodernism versus Marxism syndrome and defies that brand of Postmodernism that pronounces the death of social theory Through a deconstructive rethinking of the central concepts of production law and class he attempts to demonstrate ways in which a transformed Marxism can take on board and benefit from Postmodernism and deconstruction without lapsing into post Marxism

Social Theory After Postmodernism Anthony Woodiwiss, 1990 This work sets out and exemplifies a new approach to social theory While departing radically from classical Marxist thought it directly engages with many of the most important issues in contemporary social and political theory and offers a way forward for a new and revitalized Marxist tradition Social Theory After Postmodernism returns to the same concern with law that marked the work of the classical sociological theorists and which has been neglected since their passing Through a deconstructive rethinking of the central concepts of production law and class he demonstrates ways in which a transformed Marxism can take on board and benefit from postmodernism and deconstruction without lapsing into post Marxism

The Visual in Social Theory Anthony Woodiwiss, 2005-10-20 The distinction between understanding sight as a natural faculty vision and understanding it as an historical and social construct visibility has had significant impact in the visual arts Not so in social theory where notwithstanding the efforts of the classical theorists the practical scientific necessity of privileging visibility over vision has been lost The Visual in Social Theory argues that because of its uncritical use of terms like modernity postmodernity globalisation and the Third Way contemporary social theory has become a participant in rather than a critic of promotional culture In short in forgetting its past social theory has effectively forsaken its future The Visual in Social Theory aims to restore the self discipline and critical edge intrinsic to any analytical work on visibility The book will be essential reading not only for those interested in contemporary debates around vision but for a broader readership concerned for the critical relevance of contemporary social theory

Beyond the Regulation Approach Bob Jessop, Ngai-Ling Sum, 2006 Every now and then a book comes along that you positively want to be asked to read and review and this is one of them a major work of scholarship in its own right while at the same time a ground clearing exercise for what is to follow This it should be emphasized is a hugely impressive body of work an expansive statement of Jessop's contribution as a major figure within the world of regulation approaches Ray Hudson Economic Geography This book presents a detailed and critical account of the regulation approach in institutional and evolutionary economics Offering both a theoretical commentary and a range of empirical examples it identifies the successes and failures of the regulation approach as an explanatory theory and proposes new guidelines for its further development Although closely identified with heterodox French economists there are several schools of regulation theory and the approach has also been linked to many topics across the social sciences Bob Jessop and Ngai Ling Sum provide detailed criticisms of the various schools of the regulation approach and their empirical application and have developed new ways of integrating it into a more general critical exploration of contemporary capitalism The authors go on to describe how the regulation approach can be further developed as a progressive research paradigm in political economy Also presented is a detailed philosophical as well as theoretical critique of the regulation approach and its implications for the philosophy of social sciences and questions of historical analysis especially periodization Addressing the implications of the regulation approach for both the capitalist economy and the changing role of the state and governance this book will be of great interest to a wide ranging audience including institutional and evolutionary economists economic and political sociologists and social and political theorists

Qualitative Research in Criminology (1999) Fiona Brookman, Lesley Noaks, Emma Wincup, 2017-12-15 Published in 1999 this text brings together detailed reflexive accounts of authors experiences of conducting research on a variety of criminological topics The broad aim of the book is to critically review how qualitative methods can be effectively deployed in the area of criminology The conclusions reached in the text are diverse reflecting the range of qualitative methods considered and the particular criminological topics to which they are applied A common theme throughout is that whilst qualitative research can help to provide valid and meaningful information on criminological issues researchers need to carefully reflect upon both the methodological and ethical dimensions of their work The book will appeal to those who wish to understand the experience of conducting qualitative research on aspects of crime and criminal justice This will include undergraduate and postgraduate students undertaking research for the first time as well as experienced researchers and teachers This book was originally published as part of the Cardiff Papers in Qualitative Research series edited by Paul Atkinson Sara Delamont and Amanda Coffey The series publishes original sociological research that reflects the tradition of qualitative and ethnographic inquiry developed at Cardiff The series includes monographs reporting on empirical research edited collections focussing on particular themes and texts discussing

methodological developments and issues **Law, Labour and Society in Japan** Anthony Woodiwiss, 2002-09-09 As Japanese companies establish overseas production facilities at an ever more rapid pace it is increasingly important for people in the host countries to understand the preconceptions upon which the Japanese approach to industrial relations is based This book traces the development of Japanese labour law and shows how labour law has been related to the prevailing social economic and political circumstances *Foucault and Law* Peter Fitzpatrick, 2017-07-05 Few thinkers can have had a more diverse or a more contested impact on theorizing law than Michel Foucault This diversity is reflected in the wide range of Foucault's work and of the intellectual fields it has so conspicuously influenced Such diversity informs the present collection and is signalled in the headings of its four sections Epistemologies archaeology discourse Orientalism Political philosophy discipline governmentality and the genealogy of law Embodiment difference sexuality and the law The subject of rights and ethics Whilst the published work selected for this collection amply accommodates this diversity it also draws together strands in Foucault's work that coalesce in seemingly conflicting theories of law Yet the editors are also committed to showing how that very conflict goes to constitute for Foucault an integral and radical theory of law This theory ranges not just beyond the restrained and diminished conceptions of law usually derived from Foucault but also beyond the characteristic concern in Jurisprudence and Legal Philosophy to constitute law in its difference and separation from other socio-political forms

Critical Criminology in Canada Aaron Doyle, 2011-01-01 This book presents the work of a new generation of critical criminologists who explore the geographical institutional and political contexts of the discipline in Canada Breaking away from mainstream criminology and law and order discourses the authors offer a spectrum of theoretical approaches to criminal justice from governmentality to feminist criminology from critical realism to anarchism and they propose novel approaches to topics ranging from genocide to white collar crime By posing crucial questions and attempting to define what criminology should be this book will shape debates about crime policing and punishment for years to come **The**
