

SOCIAL IDENTITY THEORY

Social Identity theory explains how people develop their identities. Its main argument is that people develop their identity through interaction with society.

KEY CONCEPTS

Tajfel and Turner proposed that an individual's identity, or sense of the self is influenced both through:

1. **Interpersonal Interaction** – One-to-one interactions with other individuals
2. **Intergroup Interaction** – Identification with a large grouping of people, and the interaction of their grouping in turn with other groups.

EXAMPLES

We can see examples of social identity theory in nationalism, religion, race and ethnicity, and fraternities and sororities.

By studying these social groups, we can see how people use in-groups and out-groups to develop their social identities.
