Shulman,2008-07-15 Psychologies of liberation are emerging on every continent in response to the collective traumas inflicted by colonialism and globalization The authors present the theoretical foundation and participatory methodologies that unite these radical interdisciplinary approaches to creating individual and community well being They move from a description of the psychological and community wounds that are common to unjust and violent contexts to engaging examples of innovative community projects from around the world that seek to heal these wounds The creation of public homeplaces and the work of liberation arts critical participatory action research public dialogue and reconciliation are highlighted as embodying the values and hopes of liberation psychology Drawing on psychoanalysis trauma studies liberation arts participatory research and contemporary cultural work this book nourishes our understanding of and imagination about the kinds of healing that are necessary to the creation of more just and peaceful communities In dialogue with cultural workers writers and visionaries from Latin America Africa Asia Europe the United States and the Pacific Islands Toward Psychologies of Liberation quickens a dialogical convergence of liberatory psychological theories and practices that will seed individual and community transformation The Life of a Pest Emily Wanderer,2020-05-12 The Life of a Pest

tracks the work practices of scientists in Mexico as they study flora and fauna at scales ranging from microscopic to ecosystemic Amid concerns about climate change infectious disease outbreaks and biotechnology scientists in Mexico have expanded the focus of biopolitics and biosecurity looking beyond threats to human life to include threats to the animal plant and microbial worlds Emily Wanderer outlines how concerns about biosecurity are leading scientists to identify populations and life forms either as worthy of saving or as pests in need of elimination Moving from high security labs where scientists study infectious diseases to offices where ecologists regulate the use of genetically modified organisms to remote islands where conservationists eradicate invasive species Wanderer explores how scientific research informs and is informed by concepts of nation **Emotions as Bio-cultural Processes** Birgitt Röttger-Rössler,Hans Jürgen Markowitsch,2009-06-12

Emotions have emerged as a topic of interest across the disciplines yet studies and findings on emotions tend to fall into two camps body versus brain nature versus nurture Emotions as Bio cultural Processes offers a unique collaboration across the biological social divide from psychology and neuroscience to cultural anthropology and sociology as 15 noted researchers develop a common language theoretical basis and methodology for examining this most sociocognitive aspect of our lives Starting with our evolutionary past and continuing into our modern world of social classes and norms these multidisciplinary perspectives reveal the complex interplay of biological social cultural and personal factors at work in emotions with particular emphasis on the nuances involved in pride and shame A sampling of the topics 1 The roles of the brain in emotional processing 2 Emotional development milestones in childhood 3 Social feeling rules and the experience of loss 4 Emotions as commodities The management of feelings and the self help industry 5 Honor and dishonor societal and gender manifestations of pride and shame 6 Emotion regulation and youth culture 7 Pride and shame in the classroom A volume of such wide and integrative scope as Emotions as Bio cultural Processes should attract a large cohort of readers on both sides of the debate among them emotion researchers social and developmental psychologists sociologists social anthropologists and others who analyze the links between humans that on the one hand differentiate us as individuals but on the other hand tie us to our socio cultural worlds

The Anthropology of Childhood David F. Lancy, 2014-12-18 How are children raised in different cultures What is the role of children in society How are families and communities structured around them Now available in a revised edition this book sets out to answer these questions and argues that our common understandings about children are narrowly culture bound Enriched with anecdotes from ethnography and the daily media the book examines family structure reproduction profiles of children s caretakers within the family or community their treatment at different ages their play work schooling and transition to adulthood The result is a nuanced and credible picture of childhood in different cultures past and present Organised developmentally moving from infancy through to adolescence and early adulthood this new edition reviews and catalogues the findings of over 100 years of anthropological scholarship dealing with childhood and adolescence drawing on over 750 newly added sources and engaging with newly emerging issues relevant to the world of childhood today

The Politics of Immunity Mark Neocleous, 2022-04-05 The violence and destruction hiding behind the obsession with immunity Our contemporary political condition is obsessed with immunity The immunity of bodies and the body politic personal immunity and herd immunity how to immunize the social system against breakdown The obsession intensifies with every new crisis and the mobilization of yet more powers of war and police from quarantine to border closures and from vaccination certificates to immunological surveillance Engaging four key concepts with enormous cultural weight Cell Self System and Sovereignty Politics of Immunity moves from philosophical biology to intellectual history and from critical theory to psychoanalysis to expose the politics underpinning the way immunity is imagined At the heart of this imagination is the way security has come to dominate the whole realm of human experience From biological cell to

political subject and from physiological system to the social body immunity folds into security just as security folds into immunity The book thus opens into a critique of the violence of security and spells out immunity's tendency towards self destruction and death immunity like security can turn its aggression inwards into the autoimmune disorder Wide ranging and polemical Politics of Immunity lays down a major challenge to the ways in which the immunity of the self and the social are imagined
