Social Capital and Poor Communities Susan Saegert, J. Phillip Thompson, Mark R. Warren, 2002-01-10 Neighborhood support groups have always played a key role in helping the poor survive but combating poverty requires more than simply meeting the needs of day to day subsistence Social Capital and Poor Communities shows the significant achievements that can be made through collective strategies which empower the poor to become active partners in revitalizing their neighborhoods Trust and cooperation among residents and local organizations such as churches small businesses and unions form the basis of social capital which provides access to resources that would otherwise be out of reach to poor families Social Capital and Poor Communities examines civic initiatives that have built affordable housing fostered small businesses promoted neighborhood safety and increased political participation At the core of each initiative lie local institutions church congregations parent teacher groups tenant associations and community improvement alliances The contributors explore how such groups build networks of leaders and followers and how the social power they cultivate can be successfully transferred from smaller goals to broader political advocacy For example community based groups often become platforms for leaders hoping to run for local office Church based groups and interfaith organizations can lobby for affordable housing job training programs and school improvement Social Capital and Poor Communities convincingly demonstrates why building social capital is so important in enabling the poor to seek greater access to financial resources and public services As the contributors make clear this task is neither automatic nor easy The book's frank discussions of both successes and failures illustrate the pitfalls conflicts of interest resistance from power elites and racial exclusion that can threaten even the most promising initiatives The impressive evidence in this volume offers valuable insights into how goal formation leadership and cooperation can be effectively cultivated resulting in a remarkable force for change and a rich public life even for those

communities mired in seemingly hopeless poverty A Volume in the Ford Foundation Series on Asset Building Smallville Carl Milofsky, 2008 Familiar organizational theories often do not fit comfortably when applied to community level associations or small local nonprofit organizations In Smallville Carl Milofsky empirically and theoretically studies the organizational dynamics involved in this common American model Organizations functioning within a community are usually treated as separate units but when they all exist in the same place and tend to be made up of the same people who are living out different aspects of their identities in various settings a new analytical paradigm is required Milofsky's study culminates in the formulation of an innovative way of understanding this phenomenon an essential pioneering theory of transorganizations Social Capital in Hong Kong Sik Hung NG, Stephen Yan-leung CHEUNG, Brahm PRAKASH, 2011-01-01 Given the rapid pace at which the Hong Kong Special Administrative Region HKSAR and other Asian economies are growing and the global volatility that these societies are experiencing social capital and its diverse connectivities can furnish useful anchoring to communities neighbourhoods local governments and social protection networks This book provides a critical analysis of social capital its indigenous evolution and spread in HKSAR Some of the experiments and activities narrated in this book indicate the ingenious blending of the local ethos and culture with modern organisational forms and information networks BACK COVER International Encyclopedia of Civil Society Helmut K. Charitable Choices John P. Bartkowski,Helen A. Regis,2003-02-01 Congregations and faith based organizations have become key participants in America s welfare revolution Recent legislation has expanded the social welfare role of religious communities thus revealing a pervasive lack of faith in purely economic responses to poverty Charitable Choices is an ethnographic study of faith based poverty relief in 30 congregations in the rural south Drawing on in depth interviews and fieldwork in Mississippi faith communities it examines how religious conviction and racial dynamics shape congregational benevolence Mississippi has long had the nation s highest poverty rate and was the first state to implement a faith based welfare reform initiative The book provides a grounded and even handed treatment of congregational poverty relief rather than abstract theory on faith based initiatives The volume examines how congregations are coping with national developments in social welfare policy and reveals the strategies that religious communities utilize to fight poverty in their local communities By giving particular attention to the influence of theological convictions and organizational dynamics on religious service provision it identifies both the prospects and pitfalls likely to result from the expansion of charitable choice

A Gift of Belief Kathleen W. Buechel, 2021-06-01 Philanthropy has long been associated with images of industrial titans and wealthy families In Pittsburgh long a center for industry the shadows of Carnegie Mellon Frick and others loom especially large while the stories of working class citizens who uplifted their neighbors remain untold For the first time these two portraits of Pittsburgh philanthropy converge in a rich historic tapestry The Gift of Belief reveals how Pittsburghers from every strata creed and circumstance organized their private resources for the public good The industrialists and their foundations are here but stand alongside lesser known philanthropists equally involved in institution building civic reform and community empowerment Beginning with sectarian philanthropy in the nineteenth century moving to scientific philanthropy in the early twentieth century and Pittsburgh Renaissance era institution building and concluding with modern entrepreneurship twelve authors trace how Pittsburgh aligned with led or lagged behind the national philanthropic story and explore how ideals of charity and philanthropy entwined to produce distinctive forms of engagement that has defined Pittsburgh's civic life
