masterfully edited a book that comparatively examines families from 25 nations located around the world. The chapter contributors have both theoretical and research knowledge as well as lived experiences of respective nation's families. The result is a well-written, highly informed and authoritative handbook that investigates an extensive range of family issues from local, national and global perspectives. Mark Hutter Rowan, University of North Carolina. What defines a family? The term family is very complex with a vast range of meanings. It can mean a married couple with children, a single parent and child, a married couple with no children, even pets and close friends can be considered to some people as family. The variety is enormous and this family diversity is present not just in the United States but around the world. The Handbook of World Families provides a cross-cultural perspective on the family by examining family life in 25 countries worldwide. The countries included in this volume are organized by six world regions including Africa, Asia, South Pacific, Europe, Latin America, the Middle East and North America, offering readers the most thorough and balanced cross-cultural examination of world families available. Editors Bert N. Adams and Jan Trost, along with contributions by top family studies experts from around the world, ensure reliable, cutting-edge research and perspectives. While other books may provide a cross-cultural perspective on the family, this book offers a unique comparative view. In doing so, each chapter of the Handbook is organized in a parallel format, beginning with an introduction to the region, followed by coverage of mate selection, fertility and socialization, gender roles, marriage, stresses and violence, divorce and remarriage, kinship, aging and death, family and other institutions, and special topics specific to the region. The Handbook of World Families is an excellent addition to any academic library and an important resource for scholars and academics in the fields of Family Studies and Sociology. It can also be used in graduate-level courses on the family in cross-cultural perspective, comparative family organization and world families.

*Sexual Identity and Lesbian Family Life* Iris Erh-Ya Pai, 2017-07-11. This new book illustrates how Taiwanese lesbians negotiate their lives outside patriarchal families while seeking varying ways to maintain working relationships with their families of origin as their notion of family distinguishes them from same-sex couples in other countries. This ambivalence has a strong influence on their relational decisions as they deal with contradictions between family ties, filial piety and lesbianism. Based on individual and couple interviews with self-identified lesbian couples in stable relationships, the book offers vivid narratives of different ways in which Taiwanese lesbians have been able to make sense of their families without recognition by legislation or their families of origin. Specific issues in Taiwan raised in the book challenge the taken-for-granted understandings of same-sex relationships and review the dramatic transformations that have profoundly changed women's position. It also offers a sensitive analysis of GLBT issues and heteronormativity, arguing that Chinese familialism can cohabite with lesbianism in the context of contemporary Taiwan.

*Gender and Family in East Asia* Siumi Maria Tam, Wai Ching Angela Wong, Danning Wang, 2014-02-18. The on-going reconfiguration of geo-political and economic forces across the globe has created a new institutional and moral environment for East Asian family life and gender dynamics. Indeed, modernisation in East Asia has

brought about increases in women's education levels and participation in the labour force a delay in marriage age lower birth rates and smaller family size And yet despite the process of modernization traditional systems such as Confucianism and patriarchal rules continue to shape gender politics and family relationships in East Asia This book examines gender politics and family culture in East Asia in light of both the overwhelming changes that modernization and globalization have brought to the region and the structural restrictions that women in East Asian societies continue to face in their daily lives Across three sections the contributors to this volume focus on marriage and motherhood religion and family and migration In doing so they reveal how actions and decisions implemented by the state trigger changes in gender and family at the local level the impact of increasing internal and transnational migration on East Asian culture and how religion interweaves with the state in shaping gender dynamics and daily life within the family With case studies from across the region including South Korea Japan mainland China Taiwan and Hong Kong this book will be of great interest to students and scholars of Asian studies gender studies anthropology sociology and social policy

*Framing the Bride* Bonnie Adrian, 2003-12-08 Do not be misled by the title of this book It is a study of Taiwan's bridal industry but it is also a fine ethnography of marriage in contemporary urban Taipei With great subtlety Bonnie Adrian shows us how much marriage in Taiwan has changed and how many of the old ways it has retained She does so with wit and humor Margery Wolf author of *A Thrice Told Tale* Feminism Postmodernism and Ethnographic Responsibility Faced with the puzzle of the ubiquitous bridal photography in Taipei Bonnie Adrian has produced a model ethnography of media saturated contemporary life Ethnographically adventurous analytically smart and warmly human this book cleverly unpacks the ways women's canny choices in Taiwan are forged at the intersection of everyday worlds of inter generational tension

fantasies fed by a keenly competitive local culture industry and global imagery tied to the transnational beauty industry Unlike many who work on globalization Adrian has not lost sight of the ways that gender and family are still at the heart of people's social worlds and women are not victims Lila Abu Lughod author of *Veiled Sentiments* and *Writing Women's Worlds*

China's Revolutions and Intergenerational Relations Martin Whyte, 2020-08-06 China's Revolutions and Intergenerational Relations counters the widely accepted notion that traditional family patterns are weakened by forces such as economic development and social revolutions China has experienced wrenching changes on both the economic and the political fronts yet from the evidence presented here the tradition of filial respect and support for aging parents remains alive and well Using collaborative surveys carried out in 1994 in the middle sized industrial city of Baoding and comparative data from urban Taiwan the authors examine issues shaping the relationships between adult Chinese children and their elderly parents The continued vitality of intergenerational support and filial obligations in these samples is not simply an instance of strong Confucian tradition trumping powerful forces of change Instead and somewhat paradoxically the continued strength of filial obligations can be attributed largely to the institutions of Chinese socialism forged in the era of Mao Zedong With socialist institutions now under assault in the People's Republic of China the future of intergenerational relations in the twenty first century is once again uncertain *Fertility, Family Planning and Population Policy in China* Chiung-Fang Chang, Che-Fu Lee, Sherry L. McKibben, Dudley L. Poston, Carol S. Walther, 2005-12-16 China's one child population policy first initiated in 1979 has had an enormous effect on the country's development By reducing its fertility in the past two decades to less than two children per woman and developing a family planning program focused heavily on sterilization and abortion China has undergone a significant transition in status to a demographically developed country Bringing together contributions from leading academics this book looks at the impact of the government's strict control over planning and population growth on the family the wider society and the country's demography The contributors examine developments such as family planning policy and contraceptive use biological and social determinants of fertility patterns of family and marriage and China's future population trends As such it will be essential reading for academics researchers policy makers and government officials with an interest in China's population policy **Family Lineage Organization and Social Change in Ming and Qing Fujian** Zhenman Zheng, 2001-01-01 This work is the result of more than a decade of research on the Chinese household and lineage in the southeastern province of Fujian during the Ming and Qing period 1368-1911 It offers new interpretations of the Chinese domestic cycle the relationship between household and larger kinship groups and the development of lineage society in south China Using hundreds of previously unknown lineage genealogies stone inscriptions and land deeds Zheng Zhenman provides a candid view of how individuals and families confronted the crucial issues of daily life how to minimize taxes or military conscription how to balance the ideological imperatives of ancestor worship with practical concerns how to deal with the problems of dividing the household estate His research leads to an exploration of issues such as the relation of state to

society and the compatibility of Chinese culture and capitalism This complete translation allows access to some of the most exciting new research being done in Chinese social history Zheng's book draws on important materials largely unknown to Western scholars comes to novel conclusions about society in late imperial China and illustrates the importance of the non Western perspective in studying the history of the world outside the West      *Routledge Handbook of East Asian Gender Studies* Jieyu Liu, Junko Yamashita, 2019-11-26 The Routledge Handbook of East Asian Gender Studies presents up to date theoretical and conceptual developments in key areas of the field taking a multi disciplinary and comparative approach Featuring contributions by leading scholars of Gender Studies to provide a cutting edge overview of the field this handbook includes examples from China Japan South Korea Taiwan and Hong Kong and covers the following themes theorising gender relations women's and feminist movements work care and migration family and intergenerational relationships cultural representation masculinity and state militarism and gender This handbook is essential reading for scholars and students of Gender and Women's Studies as well as East Asian societies social policy and culture      *Intelligent Technologies for Bridging the Grey Digital Divide* Soar, Jeffrey, Swindell, Rick, Tsang, Philip, 2010-09-30 Intelligent Technologies for Bridging the Grey Digital Divide offers high quality research with both industry and practice related articles in the broad area of intelligent technologies for seniors The main focus of the book is to provide insights into current innovation issues to be resolved and approaches for widespread adoption so that seniors their families and their caregivers are able to enjoy their promised benefits      *Legal Protection of Children Against Sexual Exploitation in Taiwan* Amy H.L. Shee, 2019-05-23 First published in 1998 this volume responds to child prostitution being recognised as a major social problem in modern capitalist Taiwan It is defined both legally and socially as a problem of sexual transactions involving children and juveniles thus the issue of child maltreatment is submerged under other concerns However the main concern of this book is the protection of children from maltreatment so related socio legal measures will be examined by this parameter During the social campaigns against child prostitution structural problems such as police corruption male sexual perversion socio economic inequality and the maladjustment of aboriginal people in the modern Taiwanese society are subjugated to increasing criticism Nevertheless efforts to encounter any of them have had very limited accomplishment This book intends to show that the functions of law in the prevention and treatment of the social problem of child prostitution cannot work as intended if those structural problems are not properly tackled Suggestions are also made to address the need to reconceptualise the problem in the analytical framework of child maltreatment and to recommend the direction for reformation of policy and practice      *Successful Aging* Sheung-Tak Cheng, Iris Chi, Helene H. Fung, Lydia W. Li, Jean Woo, 2015-01-26 This book brings together state of the art research on successful aging in Asian populations and highlights how the factors that contribute to successful aging differ from those in the West It examines the differences between the Asian and Western contexts in which the aging process unfolds including cultural values lifestyles physical environments and family structures In addition it examines the question

of how to add quality to longer years of life Specifically it looks at ways to promote health preserve cognition maximize functioning with social support and maintain emotional well being despite inevitable declines and losses Compared to other parts of the world Asia will age more quickly as a result of the rapid socioeconomic developments leading to rising longevity and historically low fertility rates in some countries These demographic forces in vast populations such as China are expected to make Asia the main driver of global aging in the coming decades As a result researchers professionals policymakers as well as the commercial sector in both East and West are increasingly interested in gaining a deeper understanding of aging in Asia
