**Peasants' Movements in Post-Colonial India** Debal K Singharoy,2004-05-25 This is an investigation of the anatomy and internal dynamics of peasant movements in India It makes a comparative analysis of the Tebhaga Bengal 1946 47 Telengana Andhra 1948 52 and Naxalite North Bengal 1967 71 movements to study the ways in which grassroots mobilizations transform and institutionalize themselves forge new collective identities and articulate new strategies for survival and resistance The author uses empirical data and secondary research to argue that radicalism in peasant movements is in inverse proportion to institutionalization As spontaneous expressions of discontent against oppression and marginalization become institutionalized movements the space for radical challenge shrinks Therefore in Bengal the co option of the peasant movement by the ruling communist party and the state has largely killed the scope for radical action In Andhra Pradesh on the other hand the relative independence of the grassroots mobilization process along with logistic and ideological inputs from NGOs and radical social and Naxalite groups has allowed the peasantry to exercise multiple options for collective action However in both cases the grassroots mobilization has led to a transformation of the social identity of the peasant and created a social environment in which issues of dominance and resistance have an important place The study of the Indian experience is placed in the context of theories of peasant identity and resistance to oppression The first chapter of the book is devoted to the summing up of sociological perspectives on peasant societies identities and movements It includes references to the works of Marx and Lenin Redfield Chayanov Wolf and Gramsci and in the Indian context Beteille Byres and several others The book reexamines problems that have got relatively less importance in recent years It seeks to understand issues that are of enduring relevance in the Indian countryside that continues to simmer with unrest even as it comes to grips with a new economic situation The book will be of as much interest to researchers and policymakers as to the intelligent general reader

Wright, 2019-04-16 The Fourth Gospel is a political document Although it has often been interpreted primarily as a spiritual gospel it has much to offer readers engaged in the difficult task of negotiating life lived under the dominion of empire whether in the first or twenty first century This book gives careful attention to the political dimensions of the Gospel s Passion Narrative including the arrest scene 18 1 12 the Roman show trial 18 28 19 16 and the crucifixion and burial of Jesus 19 16 40 It employs James C Scott s model of hidden transcripts and examines the Fourth Gospel s use of irony as it seeks to understand the political dimensions of the Fourth Gospel and its relationship to the Roman Empire In this book Wright argues that the Passion Narrative displays part of a Johannine hidden transcript that resists contests and at times mimics elements of Roman imperial power The Gospel mocks the representatives of Rome including Pilate the Roman soldiers and the Jewish authorities eroding confidence in the empire and its agents It also subverts Roman imperial claims of dominance authority and power As such the Fourth Gospel fosters an alternative worldview and community one centered on faith in the sovereignty of Jesus and Israel s God **Global Capitalism and the Future of Agrarian Society** Arif Dirlik, Alexander Woodside, Roxann Prazniak, 2015-11-17 This book offers historical and comparative analyses of changes in agrarian society forced by the globalization of capitalism and the implications of these changes for human welfare globally The book gives special attention to recent economic development and urbanization in the People s Republic of China which have had a major impact on contemporary transformations globally Case studies from South and Southeast Asia Africa and Latin America in turn place these transformations in a comparative global perspective The contributors include distinguished scholars from the UN PRC India Zimbabwe and Latin America who are also active in policy issues **Macrosociology** Frank W. Elwell, 2015-12-03 Social theorists dwell on the canonical works of Marx Weber and Durkheim but little on the theories of the major contemporary macrotheorists This book fills this gap with a focus on the work of four modern theorists who have taken on the larger questions spawned by classical social theory C Wright Mills Marvin Harris Immanuel Wallerstein and Gerhard Lenski have examined such phenomena and processes as the rise and impact of capitalism the centralization and enlargement of authority inequality and the historical intensification of production

and populations Borrowing what is useful from the classics as well as relying on contemporary practitioners and empirical evidence each theorist adds his own insights and interpretations in constructing a comprehensive perspective of sociocultural stability and change This book fully synthesizes and documents each perspective using language and examples that resonate with the general reader A short biography on each theorist is also provided
