

Lepcha Social Life and Language: an introspection: a case from Dzongu, Upper Sikkim

ANUPAM DATTA

Abstract:

Lepcha is the oldest and the first tribe reported from Sikkim, India: majority of its population inhabiting in Dzongu valley, an officially demarcated reserve for Lepcha community, bordering Khangchendzonga Biosphere Reserve, in north district. Lepchas of Dzongu are known for their retention of rich cultural heritage. In view of the on-going cultural and economic changes brought in by the process of globalization, the immediate need was felt to document cultural diversisty of the Lepcha community. The recent comments on the gradual loss of influence of the Lepcha language on the Lepcha community influence the attention for an intimate look at the Lepcha speech community. According to Landweer (2008), "The indicators of ethno-linguistic vitality are a collection of factors that have been documented in socio linguistic literature ... have been useful in indicating the probable direction a speech community will go relative to the maintenance of, or shift from, its traditional language. No one factor has become a leading indicator of linguistic vitality. Whether a language appears to be "maintained" or "dying" depends on the collective impact of positive or negative indicators that place the language on a continuum of stable vitality, change in process due to other-language interference, radical shift in process, and death. As such, language maintenance and shift are long-term consequences of consistent patterns of language choice throughout the speech community." This paper examines the ethno-linguistic vitality of the speech community with special reference to the Lepchas of Dzongu valley, 'the prime Lepcha reserve' in North Sikkim. In order to explore the endangered situation of the language, the probable direction of language maintenance and shift, towards which the speech community is proceeding has been studied, keeping in view the socio - political aspects of Lepcha life and its impact on the Lepcha language and culture across time.

The Role of Language in the Wellbeing of Migrants Zi Wang, 2022-03-09 This book examines the correlations between language behaviour and happiness amongst communities of migrants and addresses the overarching question of whether language can affect wellbeing. Zi Wang takes an innovative look at migration and wellbeing by examining the crucial role language, a quintessential part of the international migration experience, plays in migrants' wellbeing. Drawing on case studies from Chinese and Japanese speaking communities in Germany as well as secondary survey data on the general migrant population, Wang shows that proficiency in both host country and heritage languages is associated with robust enhancements of migrants' subjective wellbeing. He argues that acquisition of host country language and the preservation and promotion of heritage culture should not be portrayed as a zero-sum game by stakeholders in host societies. Instead, we ought to consider the unique experiences of migrants in order to fully comprehend the ways in which they experience, evaluate and pursue happiness in a host society. Presenting a novel approach to the study of migrants' wellbeing, this book will be of interest to scholars and students of area studies, education, international migration, sociology of language and wellbeing research.

Social Lives in Language □ Sociolinguistics and multilingual speech communities Miriam Meyerhoff, Naomi Nagy, 2008-09-26 This volume offers a synthetic approach to language variation and language ideologies in multilingual communities. Although the vast majority of the world's speech communities are multilingual, much of sociolinguistics ignores this internal diversity. This volume fills this gap, investigating social and linguistic dimensions of variation and change in multilingual communities. Drawing on research in a wide range of countries (Canada, USA, South Africa, Australia, Papua New Guinea, Solomon Islands, Vanuatu), it explores connections between the fields of creolistics, language dialect contact and language acquisition. How the study of variation and change, particularly in cases of additive bilingualism, is central to understanding social and linguistic issues in multilingual communities; how changing language ideologies and changing demographics influence language choice and/or language policy; and the pivotal place of multilingualism in enacting social power and authority, and a rich array of new empirical findings on the dynamics of multilingual speech communities. The Oxford Handbook of Sociolinguistics Robert Bayley, Richard Cameron, Ceil Lucas, 2012-12-20 From its beginnings in the 1960s, sociolinguistics developed several different subfields with distinct methods and interests: the variationist tradition established

by Labov the anthropological tradition of Hymes interactional sociolinguistics as developed by Gumperz and the sociology of language represented by the work of Fishman All of these areas have seen a great deal of growth in recent decades and recent studies have led to a more broadly inclusive view of sociolinguistics Hence there is a need for a handbook that will survey the main areas of the field point out the lacunae in our existing knowledge base and provide directions for future research The Oxford Handbook of Sociolinguistics will differ from existing work in four major respects First it will emphasize new methodological developments particularly the convergence of linguistic anthropology and variationist sociolinguistics Second it will include chapters on sociolinguistic developments in areas of the world that have been relatively neglected in the major journals Third its chapters are written by contributors who have worked in a range of languages and whose work addresses sociolinguistic issues in bi and multilingual contexts i e the contexts in which a majority of the world s population lives Finally it will include substantial material on the rapidly growing study of sign language sociolinguistics **Signs of**

Difference Susan Gal, Judith T. Languages and Publics Susan Gal, Kathryn Woolard, 2014-10-14 The essays in this collection examine the public construction of languages the linguistic construction of publics and the relationship between these two processes Cultural categories such as named languages linguistic standards and genres are the products of expert knowledge as well as of linguistic ideologies more widely shared among speakers Translation grammars and dictionaries the policing of correctness folklore collections and linguistic academies are all part of the work that produces not only languages but also social groups and spheres of action such as the public Such

representational processes are the topic of inquiry in this volume. They are explored as crucial aspects of power figuring among the means for establishing inequality, imposing social hierarchy, and mobilizing political action. Contributions to this volume investigate two related questions: first, how different images of linguistic phenomena gain social credibility and political influence; and secondly, the role of linguistic ideology and practices in the making of political authority. Using both historical and ethnographic approaches, they examine empirical cases ranging from small-scale societies to multi-ethnic empires from nineteenth-century linguistic theories to contemporary mass media and from Europe to Oceania to the Americas. Contributors include Susan Gal, Kathryn Woolard, Judith Irvine, Richard Bauman, Michael Silverstein, Jane Hill, Joseph Errington, Bambi Schieffelin, Jacqueline Urla, and Ben Lee.

Critical Discourse Analysis, Critical Discourse Studies and Beyond Theresa Catalano, Linda R. Waugh, 2020-09-28. This book explores the problem-oriented interdisciplinary research movement comprised of Critical Discourse Analysis (CDA) and Critical Discourse Studies (CDS) for scholars, teachers, and students from many backgrounds. Beginning with a Preface by renowned CDA/CDS scholar Ruth Wodak, it introduces CDA/CDS through examples of what its research looks like, delineates various precursors to CDA/CDS, and important foundational concepts and theories, and traces its development from its early years until it became established. After the relationship between CDA and CDS is discussed, seven commonly cited approaches to CDA/CDS are outlined, including their connections and differences, their origins and development, major and associated scholars, research focus areas, and central concepts and distinguishing features. After a summary of critiques of CDA/CDS and responses by CDA/CDS scholars, the book provides an overview of its salient connections to other interdisciplinary areas of scholarship, such as critical applied linguistics, education, anthropology, ethnography, sociolinguistics, gender studies, queer linguistics, pragmatics, and ecolinguistics. The final chapter describes how scholars use their knowledge of CDA/CDS to make a difference in the world.

Language Shift and Cultural Reproduction Don Kulick, 1997-04-24. This book, first published in 1992, is an anthropological study of language and cultural change among the people of Gapun, a small community in the Sepik region of Papua New Guinea.

Time, Space, Matter in Translation Pamela Beattie, Simona Bertacco, Tatjana Soldat-Jaffe, 2022-09-28. *Time, Space, Matter in Translation* considers time, space, and materiality as legitimate habitats of translation. By offering a linked series of interdisciplinary case studies that show translation in action beyond languages and texts, this book provides a capacious and innovative understanding of what translation is, what it does, how, and where. The volume uses translation as a means through which to interrogate processes of knowledge transfer and creation, interpretation, and reading, communication, and relationship building, but it does so in ways that refuse to privilege one discipline over another, denying any one of them an entitled perspective. The result is a book that is grounded in the disciplines of the authors and simultaneously groundbreaking in how its contributors incorporate translation studies into their work. This is key reading for students in comparative literature and in the humanities at large, and for scholars interested in seeing how expanding intellectual conversations can
