George Washington's Leadership Lessons James Rees, Stephen J. Spignesi, 2011-01-06 From James Rees Executive Director of Mount Vernon comes an enlightening guide to the leadership wisdom of America s first great leader George

Washington was more than just an inspiring battlefield commander he was critical to the founding and success of the United States of America His leadership his vision and his courage united a war torn country and set the United States on the path to greatness Washington's historic contribution to this nation his leadership and his character are as relevant and valuable today as they have ever been This book reveals Washington's character his leadership his vision and most surprising of all his business skills and acumen Most people aren't aware that Washington while all of the above was also a successful businessman and visionary entrepreneur Exhibiting qualities sorely lacking in so many of our political and business leaders today Washington remained steadfastly honest and ethical following guiding principles that would benefit leaders around the world George Washington's Leadership Lessons reveals a man of true character worthy of emulation not just in the realm of politics and war but in all leadership positions George Washington's Religion Stephen J. Vicchio, 2019-09-17 In this book Professor Stephen Vicchio gives a comprehensive analysis of the religious beliefs of the first president of the United States George Washington After discussing Washington's early religious life in the Anglican and Episcopal churches Professor Vicchio goes on to analyze Washington's views on God the Bible religious toleration ethics and virtue prayer and whether or not America was established as a Christian nation as well as his understanding of the problem of evil and the afterlife **A Catalogue of the Entire Library of Andrew Wight, of Philadelphia** Andrew Wight (Of Philadelphia), 1864 *Library of Southern Literature* Edwin Anderson Alderman, Joel Chandler Harris, Charles W. Kent, Charles Alphonso Smith, Lucian Lamar Knight, John Calvin Metcalf, 1910 Military Law Review, 2000 The Carman, 1918 Defining America's Exceptionalism Roger Anghis, 2012-08-30 Many pastors I have spoken with have no problem with the so called separation of church and state and have even told me that it was in our Constitution Because we no longer teach our Constitution in our schools and we the pastors do not teach the importance of who we are and where we came from we have come to the point where we believe what we are told by academia concerning our Founding Fathers and the Constitution and have been led down a path of falsehoods and deception It has been long said that if we forget who we are and where we came from we will not know who we are or where we are going There are many forces out there determined to remove all vestiges of our religious history Our Founding Fathers knew that there was to be involvement by the church and allowed the influence of Christianity to be prevalent The only separation of church and state that the founders wanted was an institutional separation They designed our Constitution so that the government would have no say whatsoever in the exercise of religion by the people Today's government has turned that around 180 degrees and is now using what used to guarantee freedom of religion to the removal of religion from the public square Will we let it continue It is now the choice of We the People *Maxims of George Washington* George Washington, 1988-01-01 Life of the Soldier and the Airman, 1951 George Washington, Entrepreneur John Berlau, 2020-06-30 A business biography of George Washington focusing on his many innovations and inventions George Washington general statesman businessman Most people don't know that Washington was one of the

country's first true entrepreneurs responsible for innovations in several industries In George Washington Entrepreneur John Berlau presents a fresh surprising take on our forefather's business pursuits History has depicted Washington as a gifted general and political pragmatist not an intellectual heavyweight But he was a patron of inventors and inveterate tinkerer and just as intelligent as Jefferson or Franklin His library was filled with books on agriculture history and philosophy He was the first to breed horses with donkeys to produce the American mule On his estate he grew countless varieties of trees and built a greenhouse full of exotic fruits herbs and plants Unlike his Virginia neighbors who remained wedded to tobacco Washington planted seven types of wheat His state of the art mill produced flour which he exported to Europe in sacks stamped G Washington one of the very first branded food products Mount Vernon was also home to a distillery and became one of the largest American whiskey producers of the era Berlau's portrait of Washington drawn in large part from his journals and extensive correspondence presents a side of him we haven't seen before It is sure to delight readers of presidential biography and business history

American Political Thought Morton J. Frisch, Richard G. Stevens, The Second World War was a crisis not just for America but for the whole of Western Civilization and in the wake of that war a new crisis arose which came to be called the Cold War Just when that gave the appearance of being resolved the world reached a new juncture a new crisis which Samuel P Huntington dubbed the clash of civilizations The statesmen having political responsibility in confronting the first three crises in America's history came as close to philosophic grasp of the problems of liberal democracy as one could demand from those embroiled in the active resolution of events Their reflection of political philosophy in the full sense
