Social Problems In Canada Conditions Constructions And Challenges:

Social Problems in Canada Augie Fleras, Adie Nelson, 2005 Appropriate for second or third year university courses in Social Problems This revised edition of a well established and respected text looks at interpersonal inter group and institutional social problems in a Canadian context and also in the broader global context The author s approach that makes it particularly suitable for a course that focuses on conflict theory In addition to re structuring the organization and with a new chapter on Health attention has been given to making the pedagogical aids more teacher and user friendly

Social Problems in Canada, Conditions, Constructions and Challenges, 3 Augie Fleras, 2001 *Power and Resistance, 7th ed.* Jessica Antony, Wayne Antony, 2022-06-30T00:00:00Z Power and Resistance debunks the dominant neoliberal hyper individualist approach to society s problems that sees poverty as a result of laziness environmental crises as a result of market demands for products that pollute and Indigenous Peoples struggles as a result of not assimilating We argue that it is social inequality and oppression that are the underlying causes of social problems In a society like ours powerful groups make choices that benefit them and force those choices onto others creating life problems for others and society as a whole The powerful also have influence over what is and is not called a social problem Solving social problems requires changing the structures of inequality and oppression For example industrial corporate agriculture has created huge profits for a few gigantic food corporations but left much of the world hungry But farmers and their allies are pushing back through agroecology an agriculture based on local small scale ecologically sustainable farming that brings eaters and growers closer to one another The seventh edition of Power and Resistance includes new chapters on anti Black racism in schools Indigenous people and mental health food security and sovereignty and work in the gig economy

Law and Society Steven Vago, Adie Nelson, Veronica Nelson, Steven E. Barkan, 2017-09-26 Law and Society provides a balanced and comprehensive analysis of the interplay between law and society using both Canadian and international examples This clear and readable text is filled with interesting information ideas and insights All materials and supporting statistics have been carefully updated This edition includes an expanded discussion of the law and First Nations people recent developments impacting LGBTIQ2S persons and persons with disabilities and a new section on civil procedures Each chapter is structured similarly with an outline learning objectives key terms chapter summaries critical thinking questions and an array of additional resources

The African Diaspora in Canada Wisdom Tettey, Korbala P. Puplampu, 2005 This book addresses the conceptual difficulties and political contestations surrounding the applicability of the term African Canadian In the midst of this contested terrain the volume focuses on first generation Black Continental Africans who have immigrated to Canada in the last four decades and have traceable genealogical links to the continent

Truancy Prevention and Intervention Lynn Bye, Michelle E. Alvarez, Janet Haynes, Cindy E. Sweigart, 2010-05-07 This practical guide covers best practices in truancy at the community school and student family levels of interventions providing an essential everyday reference guide to research

based programs and truancy program implementation **Nursing and Globalization in the Americas** Karen Lucas Breda, Ray Elling, 2018-02-06 Nursing is vital to millions of people worldwide This book details the ebb and flow of its fascinating history and politics through case studies from Brazil Argentina Chile Colombia Mexico Canada and the United States Authors from across the Americas share findings and explore new thinking about Western hemisphere specific issues that affect nursing and health care Using economic globalization as an overarching framework these cross national case studies show the strengths and contradictions in nursing elucidating common themes and examining successes The partnership of authors shapes a collective understanding of nursing in the Americas and forms a basis for enduring hemisphere wide academic exchange Thus the book offers a new platform for understanding the struggles and obstacles of nursing in a climate of globalization as well as for understanding nursing s richness and accomplishments Because politics economics health and nursing are inextricably linked this volume critically explores the intersections among political economies and nursing and health care systems The historical and contextual background allows readers to make sense of how and why nursing in the Americas has taken on its present form **Canadian Books in Print. Author and Title Index**, 1975 *Managing Ethnic Diversity* Reza Hasmath, 2016-05-13 The management of ethnic diversity has become a topical and often controversial subject in recent times with much debate surrounding multiculturalism as a systematic and comprehensive response for dealing with ethnic diversity This book engages with these debates examining the tangible outcomes of multiculturalism as a policy and philosophy in a range of traditional and newer multi ethnic nations Exploring the questions of whether multiculturalism can promote ethnic harmony employment equity and trust between various minority and non minority groups Managing Ethnic Diversity also adopts a comparative perspective on the experiences of multiculturalism in various international contexts in order to examine whether lessons learned from some jurisdictions can be applied to others With an international team of experts presenting the latest research from the UK North America Europe China and Australasia a truly global dialogue is fostered with regard to the utility and limits of multiculturalism in local and comparative contexts As such Managing Ethnic Diversity will appeal to social scientists interested in race and ethnicity multiculturalism and migration **Racism, Eh?** Charmaine Nelson, Camille Antoinette Nelson, 2004 Racism Eh is the first publication that examines racism within the broad Canadian context This anthology brings together some of the visionaries who are seeking to illuminate the topics of race and racism in Canada through the analysis of historical and contemporary issues which address race and racism as both material and psychic phenomena Fundamentally interdisciplinary in nature this text will be an invaluable resource for undergraduate and graduate students academics studying or practicing within the Humanities and the Social Sciences and anyone seeking information on what has been a little explored and poorly understood Canadian issue pub desc Challenging Oppression and Confronting Privilege Robert P. Mullaly, 2010 First ed published under title Challenging oppression **Collective Morality and Crime in the Americas** Christopher

Birkbeck,2012-12-07 This study examines the ways in which the moral community is talked into being in relation to crime and the objects of concern that typically occupy its attention It maps the imagined moral universe of the virtuous and the criminal and charts the relations between these two groups in the history of the present It examines the calls to action which symbolically endow the moral community with power And it looks at the character and content of collective moralizing The source materials are commentaries about crime and criminal justice appearing in selected newspapers across the Americas The moral talk found there is stylized routine trivial and occasionally dramatic It looks nothing like the weightier renderings of morality that derive from the reconstruction of a particular ethic or from the systematic probing of values and moral reasoning And its fuzzy offhand unexceptional and frequently unsystematic nature makes it a difficult candidate for explaining either stability or change in crime policies But moral talk has intrinsic importance as the creator and sustainer of an imagined moral community a community that symbolizes the existence and vigor of morality itself and confers a crucially important identity on its self proclaimed members And moral talk reveals inherent intersections between normative empirical and technical discourses highlighting the relationships between morality science and social engineering Thus a prosaic instrumental model of morality is particularly strong in North America but only found in a more abstract form in Latin America where it sits alongside a stirring vision of morality more directly anchored in virtue Research on social problems moral panics and the sociology of morality has largely overlooked the type of moral discourse studied here While emphasizing the culturally contingent nature of the findings the conclusion reflects on their significance for understanding the nature of moralizing the artifacts of talk and the construction of identity **Globalizing Issues** Erik Neveu,Muriel

Surdez,2020-09-07 This book is an invitation to question conventional and often misleading visions of globalization No problem is global by nature issues are transformed by the action of claims makers to become problems debated in supra national forums triggering policy choices and policy transformations Contributions highlight how health issues environmental issues and or political issues are framed as global by a set of stakeholders scientific experts bureaucrats political parties or actors social movements social networks firms As the volume maps the social logic behind the globalization of problems it also presents an opportunity for the very cross disciplinary collaboration it calls for researchers mobilizing the agenda setting paradigm of issue globalization and those working within the social constructionist model are both represented here providing a unique opportunity to examine the dynamics of globalization from the perspectives of political media economic sociology international relations social movement studies and beyond **Forthcoming Books** Rose Arny,2000

Constructing Social Problems Malcolm Spector, There is no adequate definition of social problems within sociology and there is not and never has been a sociology of social problems That observation is the point of departure of this book The authors aim to provide such a definition and to prepare the ground for the empirical study of social problems They are aware that their objective will strike many fellow sociologists as ambitious perhaps even arrogant Their work challenges

sociologists who have over a period of fifty years written treatises on social problems produced textbooks cataloguing the nature distribution and causes of these problems and taught many sociology courses It is only natural that the authors work will be viewed as controversial in light of the large literature which has established a sociology of a wide range of social problems the sociology of race relations prostitution poverty crime mental illness and so forth In the 1970s when the authors were preparing for a seminar on the sociology of social problems their review of the literature revealed the absence of any systematic coherent statement of theory or method in the study of social problems For many years the subject was listed and offered by university departments of sociology as a service course to present undergraduates with what they should know about the various social pathologies that exist in their society This conception of social problems for several decades has been reflected in the substance and quality of the literature dominated by textbooks In *Constructing Social Problems* the authors propose that social problems be conceived as the claims making activities of individuals or groups regarding social conditions they consider unjust immoral or harmful and that should be addressed This perspective as the authors have formulated it conceives of social problems as a process of interaction that produces social problems as social facts in society The authors further propose that this process and the social facts it produces are the data to be researched for the sociology of social problems This volume will be of interest to those concerned with the discipline of sociology especially its current theoretical development and growth Malcolm Spector was professor of sociology at McGill University in Montreal Canada John I Kitsuse is professor emeritus at the University of California at Santa Cruz He is co author with Leonard Broom of *The Managed Casualty The Japanese American Family in World War II* and co editor with Theodore R Sarbin of *Constructing the Social* *Communications in Canadian Society* Craig McKie, Benjamin D. Singer, 2001 *Communications in Canadian Society* 5th Edition provides a comprehensive overview and analysis of communications institutions in Canada This edition has been thoroughly updated to take into account the changes taking place in information technology and the effects of this communications revolution in Canada and throughout the world As with previous editions this edition provides a diversity of analytical perspectives with selections by leading authorities in communication studies journalism sociology psychology political science and economics It also provides a strong mix of both classic and contemporary Canadian writing in the field Primarily intended for use at Canadian universities and colleges this book will also be useful to communications professionals and laypersons seeking a better understanding of the communications revolution *Rock Mechanics: Meeting Society's Challenges and Demands, Two Volume Set* Erik Eberhardt, Doug Stead, Tom Morrison, 2007-05-17 Ore extraction through surface and underground mining continues to involve deeper excavations in more complex rock mass conditions Communities and infrastructure are increasingly exposed to rock slope hazards as they expand further into rugged mountainous terrains Volume 1 presents papers describing new technologies ideas and insights concerning fundamental rock mechanics while the second volume comprises a collection of rock engineering case histories relevant to the major themes of the symposium rock

slope hazards geotechnical infrastructure surface and underground mining and petroleum exploitation Critical Perspectives on Social Control and Social Regulation in Canada Mitch Daschuk, 2020-08-25T00:00:00Z How does social regulation shape who is deviant and who is normal Critical Perspectives on Social Control and Social Regulation in Canada is an introduction to the sociology of what has traditionally been called deviance and conformity This book shifts the focus from individuals labelled deviant to the political and economic processes that shape marginalization power and exclusion Class gender race and sexuality are the bases for understanding deviance and it is within these relations of power that the labels deviant and normal are socially developed and the behaviours of those less powerful become regulated This textbook introduces readers to theories and critiques of traditional approaches to deviance and conformity Using vivid and timely examples of contemporary social regulation and control this textbook brings to life how forces of social control and marginalization interact with social media sex work immigration anti colonialism digital surveillance and social movements and much more Theories and critiques are clarified with summaries definitions rich illustrative examples discussion questions recommended resources and test banks for instructors Contemporary Issues in Construction in Developing Countries George Ofori, 2012-06-26 Economic growth and socio economic development are particularly important for developing countries and the construction industry plays a central role in driving both of these Traditionally the issues faced have been assumed to be merely offshoots of those encountered in industrialised nations and are usually discussed only in this context In addition research in construction management and economics has generally failed to take proper account of the unique or highly emphasised characteristics of the industries in developing countries or their economic and social environment This volume challenges underlying assumptions and focuses on the distinct characteristics of construction in developing countries In so doing it considers the issues from the perspective of the developing countries themselves to present a strong contemporary picture for researchers It forms a companion volume to New Perspectives on Construction in Developing Countries which provides an update on the generic subjects relating to the construction industry in developing countries and covers new concepts and issues Proceedings of the Canadian Society for Civil Engineering Annual Conference 2023, Volume 11 Serge Desjardins, Gérard J. Poitras, Ashraf El Damatty, Ahmed Elshaer, 2024-09-25 This book comprises the proceedings of the Annual Conference of the Canadian Society for Civil Engineering 2023 The contents of this volume focus on the specialty track in structural engineering with topics on bridge design FRP concrete structures innovation in structural engineering seismic analysis and design wind load on structures masonry structures structural optimization machine learning and AI in structural engineering and wood and timber structures among others This volume will prove a valuable resource for researchers and professionals
