**The Relevance of Education** Jerome Bruner, 1973

Education is in a state of crisis It has failed to respond to changing social needs lagging behind rather than leading The crisis that Jerome Bruner identifies in this volume admits of no easy solutions But the noted American psychologist makes clear that educational reform must begin with the understanding of how a child acquires information and converts knowledge into action Drawing on his current work on infant development Bruner underscores the importance of formulating educational strategies that expand rather than constrict the skills of the young learner Since education takes place under conditions imposed by a technological society Professor Bruner maintains that it is not enough to attempt reform through minor curriculum revisions The program that fails to set knowledge within the context of action must be replaced And to be truly relevant to our social needs the scope of education must be extended toward overcoming the severe handicaps faced by children from impoverished areas

Perspectives on Social Psychology Clyde Hendrick, 2015-06-19 Originally published in 1977 this volume was intended to provide a relatively elementary and clear overview of some of the more important approaches to social psychology at the time There are a number of perspectives on this discipline but here instead of traditional theoretical approaches e g field theory role theory or S R the point of view is from the general perspective The first chapter approaches social psychology as an experimental science with the history and philosophic traditions discussed as well as the current state of the field Other chapters approach the discipline from the perspectives of symbolic interaction social development and ethology The final chapter is devoted to the uses of mathematical models in social psychology This volume was intended to serve as a helpful integration of the field and will still be useful as a text in its historical context
