Susan Schreiner,2011-01-27 The topic of certitude is much debated today On one side commentators such as Charles Krauthammer urge us to achieve moral clarity On the other those like George Will contend that the greatest present threat to civilization is an excess of certitude To address this uncomfortable debate Susan Schreiner turns to the intellectuals of early modern Europe a period when thought was still fluid and had not yet been reified into the form of rationality demanded by the eighteenth and nineteenth centuries Schreiner argues that Europe in the sixteenth century was preoccupied with concerns similar to ours both the desire for certainty especially religious certainty and warnings against certainty permeated the earlier era Digging beneath overt theological and philosophical problems she tackles the underlying fears of the period as she addresses questions of salvation authority the rise of skepticism the outbreak of religious violence the discernment of spirits and the ambiguous relationship between appearance and reality In her examination of the history of theological polemics and debates as well as other genres Schreiner sheds light on the repeated evaluation of certainty and the recurring fear of deception Among the texts she draws on are Montaigne s Essays the mystical writings of Teresa of Avila the works of Reformation fathers William of Occam Luther Thomas Muntzer and Thomas More and the dramas of Shakespeare The result is not a book about theology but rather about the way in which the concern with certitude determined the theology polemics and literature of an age Scottish Banking and Insurance Magazine ,1894 **Global Culture** Mike

Education in Judgment D. N. Rodowick, 2023-08-02 In An Education in Judgment philosopher D N Rodowick makes his definitive case for a philosophical humanistic education as the development of a life guided by both self reflection and interpersonal exchange Such a life is an education in judgment the moral capacity to draw conclusions alone and with others and to let one's own judgments be answerable to the potentially contrasting judgments of others Thinking for Rodowick is an art we practice with and learn from each other all the time In taking this approach Rodowick follows the lead of Hannah Arendt who made judgment the cornerstone of her conception of community Arendt was famously wary of mass culture and so community in an authentic sense must be safeguarded from its many false guises What is important for Rodowick as for Arendt is the cultivation of free relations in which we allow our judgments to be affected and transformed by those of others creating an ever widening fabric of intersubjective moral consideration This is a fragile fabric to be sure but one well worth pursuing caring for and preserving This is an original work in which the author thinks with Arendt about the importance of the humanities and what the humanities amounts to beyond the university

The Political Economy of the Irish Welfare State Fred Powell, 2017-09-13 The political economy of the Irish welfare state provides a fascinating interpretation of the evolution of social policy in modern Ireland as the product of a triangulated relationship between church state and capital Using official estimates Professor Powell demonstrates that the welfare state is vital for the cohesion of Irish society with half the population at risk of poverty without it However the reality is of a residual welfare system dominated by means tests with a two tier health service a dysfunctional housing system driven by an acquisitive dynamic of home ownership at the expense

of social housing and an education system that is socially and religiously segregated Using the evolution of the Irish welfare state as a narrative example of the incompatibility of political conservatism free market capitalism and social justice the book offers a new and challenging view on the interface between structure and agency in the formation and democratic purpose of welfare states as they increasingly come under critical review and restructuring by elites **Molding Japanese Minds**
