Society Within:

Writers and Society in Modern Japan Irena Powell, 1983-06-18 *Decolonizing Civil Society in Mozambique* Tanja Kleibl, 2021-08-26 By demonstrating that Western conceptions of civil society have provided the framework for interpreting societies in the Global South *Decolonizing Civil Society in Mozambique* argues that it is only through a critical deconstruction of these concepts that we can start to re balance global power relationships both in academic discourse and in development practices Examining the exclusionary discourses framing the support for Western type NGOs in the development discourse often to the exclusion of local social actors this book dissects mainstream contemporary ideas about civil society and finds a new means by which to identify local forms of social action often based in traditional structures and spiritual discourses Outlining new conceptual ideas for an alternative framing of Mozambique s civil society Kleibl proposes a series of fresh theoretical issues and questions alongside empirical research moving towards a series of new policy and practice arguments for rethinking and decolonizing civil society in the Global South **Theater and Society in French Literature** French Literature Conference, 2024-10-07 **Politics and Society in the Developing World** Mehran Kamrava, 2012-10-12 This book is a welcome new edition which completely updates and revises the very popular first edition *Politics and Society in the Third World* Mehran Kamrava has brought the book in line with the major changes in global politics and the politics and social issues of the developing world The book examines key issues such as democratisation civil society organisations and NGOs political society state collapse democratic bargains and transition consolidation and problems of legitimacy elections multi party politics industrial development dependency theory and globalisation the roles of the IMF and the World Bank the GATT and other multinational institutions urbanisation social change the increasing influence of western values capital and institutions urbanisation social change the increasing influence of western values capital and institutions political culture its role and impact in newly democratic developing countries revolution and gives more examples from Africa East Asia and rural societies **State and Civil Society in Northern Europe** Lars Trägårdh, 2007-01-01 In the current neo liberal political and economic climate it is often suggested that a large and strong state stands in opposition to an autonomous and vibrant civil society However the simultaneous presence in Sweden of both a famously large public sector and an unusually vital civil society poses an interesting and important theoretical challenge to these views with serious political and policy implications Studies show that in a comparative context Sweden scores very highly when it comes to the strength and vitality of its civil society as well as social capital as measured in terms of trust lack of corruption and membership of voluntary associations The Swedish Model therefore offers important insights into the dynamics of state and civil society relations which go against current trends of undermining the importance of the welfare state and presents autonomous civic participation as the only way forward **War and Society in Medieval Cheshire, 1277-1403** Philip Morgan, 1987
English Society in the Later Middle Ages S.H. Rigby, 1995-05-10 What was the social structure of England in the period

1200 to 1500 What were the basic forms of social inequality To what extent did such divisions generate social conflict How significantly did English society change during this period and what were the causes of social change Is it useful to see medieval social structure in terms of the theories and concepts produced within the medieval period itself What does modern social theory have to offer the historian seeking to understand English society in the later middle ages These are the questions which this book seeks to answer Beginning with an analysis of class structure of medieval England Part One of this book asks to what extent class conflict was inherent within class relations and discusses the contrasting successes and outcomes of such conflict in town and country Part Two of the book examines to what extent such class divisions interacted with other forms of social inequality such as those between orders nobility and clergy between men and women and those arising from membership of a status group the Jews Dr Rigby's discussion of medieval English society is located within the context of recent historical and sociological debates about the nature of social stratification and using the work of social theorists such as Parkin and Runciman offers a synthesis of the Marxist and Weberian approaches to social structure The book should be extremely useful to those undergraduates beginning their studies of medieval England whilst in offering a new interpretative framework within which to examine social structure also interesting those historians who are more familiar with this period

Rural Society in the Age of Reason Chris J. Dalglish, 2006-04-11 My interest in the archaeology of the Scottish Highlands began long before I had any formal training in the subject Growing up on the eastern fringes of the southern Highlands close to Loch Lomond it was not hard to stumble across ruined buildings old field boundaries and other traces of everyday life in the past This is especially true if you spend much time as I have done climbing the nearby mountains and walking and driving through the various glens that give access into the Highlands At the time I had no real understanding of these remains simply accepting them as being built and old After studying archaeology for a few years at the University of Glasgow itself only a short commute from the area where I grew up I became acutely aware that I still had no real understanding of these familiar yet enigmatic buildings and fields This and a growing interest in Scotland's historical archaeology drove me to take several courses on the subject of rural settlement studies These courses allowed me to place what I now knew to be houses barns mills shieling transhumance settlements rig and furrow cultivation and other related remains in history Overwhelmingly they seemed to date from the period of the last 300 years I also began to understand how they all worked together as component parts of daily rural life in the past

Sport, Politics and Society in the Middle East Danyel Reiche, Tamir Sorek, 2019-09-15 A rigorous appraisal of the intersection of sport and politics across the region

Humor, Silence, and Civil Society in Nigeria Ebenezer Obadare, 2016 This work is an important contribution to the civil society debate in Africa and to the global literature on dissent

Cricket and Contemporary Society in Britain Russell Holden, 2021-11-29 This book investigates the declining status of cricket within contemporary British society after the high water mark of England's Ashes victory in 2005 It considers the deep roots of the game within British national life as well as

its ever changing nature and reflects upon the current significance and relevance of a sport that many still perceive as deeply traditional and conservative in outlook Adopting a socio political approach the book offers new perspectives on both the contemporary realities of modern cricket and the social cultural and political condition of modern Britain Rather than focusing on personality and the detail of match history the book looks at how the sport has coped with wider societal changes such as those in Afro Caribbean and South Asian communities and how this has demanded adaptation by cricket s governing authorities The book also considers the international context in which the game continues to develop and how the initiative with new formats such as Twenty20 has been lost to other cricketing nations and it offers insight into the continued expansion and recent professionalization of the women s game hinting at ways in which cricket as a whole could recapture the public s imagination Cricket and Contemporary Society in Britain is an invaluable resource for those studying the sociology of sport sport history cultural studies the politics of sport cultural identity sport management and sport development It is also a fascinating read for anybody with an interest in cricket or in the value of sport in an era of rapid socio economic political and cultural change

State and Society in the Early Middle Ages Matthew Innes,2000-04-24 This book first published in 2000 is a pioneering study of politics and society in the early Middle Ages Whereas it is widely believed that the source materials for early medieval Europe are too sparse to allow sustained study of the workings of social and political relationships on the ground this book focuses on a uniquely well documented area to investigate the basis of power Topics covered include the foundation of monasteries their relationship with the laity and their role as social centres the significance of urbanism the control of land the development of property rights and the organization of states community kinship and lordship justice and dispute settlement the uses of the written word violence and the feud and the development of political structures from the Roman empire to the high Middle Ages

Philippine Politics and Society in the Twentieth Century Eva-Lotta E. Hedman,John Thayer Sidel,2000 This work addresses key topics which should be of interest to the academic and non academic reader such as the national level electoral politics economic growth the Philippine Chinese law and order opposition the Left and local and ethnic politics

Architecture and Society in Normandy 1120-1270 Lindy Grant,2005-01-01 This wide ranging book explores the architecture principally ecclesiastical of Normandy from 1120 to 1270 a period of profound social cultural and political change In 1204 control of the duchy of Normandy passed from the hands of the Anglo Norman Angevin descendants of William the Conqueror to the Capetian kingdom of France The book examines the enormous cultural impact of this political change and places the architecture of the time in the context of the Normans complicated sense of their own identity It is the first book to consider the inception and development of gothic architecture in Normandy and the first to establish a reliable chronology of buildings Lindy Grant extends her investigation beyond the buildings themselves and also offers an account of those who commissioned built and used them The humanized story she tells provides sharp insights not only into Normandy s medieval architecture but also into the fascinating society from which

it emerged Style and Society in Dark Age Greece James Whitley,2003-12-04 In this innovative study James Whitley examines the relationship between the development of pot style and social changes in the Dark Age of Greece 1100 700 BC He focuses on Athens where the Protogeometric and Geometric styles first appeared He considers pot shape and painted decoration primarily in relation to the other relevant features metal artefacts grave architecture funerary rites and the age and sex of the deceased and also takes into account different contexts in which these shapes and decorations appear A computer analysis of grave assemblages supports his view that pot style is an integral part of the collective representations of Early Athenian society It is a lens through which we can focus on the changing social circumstances of Dark Age Greece Dr Whitley s approach to the study of style challenges many of the assumptions which have underpinned more traditional studies of Early Greek art

The Power of Civil Society in the Middle East and North Africa Ibrahim Natil,Chiara Pierobon,Lilian Tauber,2019-05-24 This book investigates the power of civil society in the Middle East and North Africa MENA in the context of the post Arab Spring era as well as more long standing challenges and constraints in the region In recent years local civil society actors have faced significant challenges from social conservatism conflict violence and the absence of democracy and exclusive political systems Over the course of the book the authors investigate how the sector has succeeded in achieving its own objectives despite these shifting conditions the restrictive political environment and the complexity of the socio cultural and economic context Structured around the three themes of peace building development and change the book also addresses challenges faced by civil society organizations linked to ethnic linguistic and cultural diversities as well as religious salient differences that are crucial markers of social and political identity Case studies are drawn from the Palestinian Occupied Territories Jordan Iran Nigeria Niger Egypt and Morocco and particular effort has been made to showcase original research from contributors who are from the region This book will be of particular interest to researchers working on development peace building conflict resolution civil society and politics within the MENA region

Civil Society in Europe Tymen J. van der Ploeg,Wino J. M. van Veen,Cornelia R. M. Versteegh,2017-06-01 The regulation of civil society provides the framework under which those organisations can most effectively provide services in education health social services housing development aid and so on Civil Society in Europe identifies common principles of civil society law in two ways First the approaches of the Council of Europe and the European Union are explored Next civil society regulation in twelve domestic legal systems are investigated on a broad range of substantive areas of law including internal organisation registration external supervision public benefit organisations and international activities From these the authors distill a set of minimum norms and optimal conditions under which civil society can deliver its aims most effectively This book is essential reading for policymakers and legislators across Europe and beyond **Civil Society in China** Timothy Brook,B. Michael Frolic,2015-03-04 The concept of civil society was borrowed from 18th century Europe to provide a framework for understanding the transition to post authoritarian regimes in Latin America and post communist regimes elsewhere This

book asks whether this concept is useful for analyzing China Transitional Justice and Civil Society in the Balkans Olivera Simić, Zala Volčič, 2012-11-19 Transitional Justice and Civil Society in the Balkans covers civil society engagements with transitional justice processes in the Balkans The Balkans are a region marked by the post communist and post conflict transitional turmoil through which its countries are going through This volume is intended to provide a comprehensive introduction to research in transitional justice in this part of the world mostly written by local scholars Transitional justice is ever growing field which responds to dilemmas over how successor regimes should deal with past human rights abuses of their authoritarian predecessors The editors and author emphasize the relatively unexplored and under researched role of civil society groups and social movements such as local women s groups the role of art and community media and other grass roots transitional justice mechanisms and initiatives Through specific case studies the unique contribution of this volume is not only that it covers a part of the world that is not adequately represented in transitional justice field but also that the volume is the first project originally researched and written by experts and scholars from the region or in collaboration with international scholars *Civil Society in the Middle East, Volume 2* Norton, 2021-11-15 Civil Society in the Middle East is a project of the Department of Politics and the Koverkian Center for Near Eastern Studies New York University Project director is Augustus Richard Norton Boston University While there is wide disagreement about the outcome among those who follow events in the Middle East there is little doubt that the regimes in the region are under increasing pressure from their citizens In rich and poor states alike incipient movements of men and women are demanding a voice in politics Recent political developments in Jordan Yemen Lebanon even the future state of Palestine clearly show the vitality and dynamism of civil society the melange of associations clubs guilds syndicates federations unions parties and groups which provide a buffer between state and citizen and which are now so clearly at the forefront of political liberalization in the region Civil Society in the Middle East a two volume set of papers providing an unusually detailed and rich assessment of contemporary politics within the Middle East and in this sense alone quite literally peerless is the result of a project of the Department of Politics and the Kevorkian Center for Near Eastern Studies at New York University Volume I contains contributions by Augustus Richard Norton Raymond A Hinnebusch Laurie Brand Muhammad Muslih Mustafa Kamil al Sayyid Ghanim al Najjar and Neil Hicks Eva Bellin Jill Crystal Saad al Din Ibrahim and Alan Richards
