STUDENTS WITHOUT TEACHERS Harold Taylor, 1969 **National House Staff Conference, Proceedings and Recommendations** United States. Health Services and Mental Health Administration, 1971 *Students as Real People* Robert T. Anderson, 2020-02-13 A teacher of communication expresses his concern for thousands of students who are cheating themselves out of a worthwhile education by falling into the accepted role of nonperson uninvolved in the education process In this book the author fosters a belief that success or failure in college depends on communication interdependent efforts of people in a relationship to generate common meaning He proposes to get students to realize that their education is something other students can help them develop as much as teachers The author uses a personal style of writing to talk with the students He uses examples from the students immediate campus environment in challenging them to question their roles in the educational process Written for and tested in interpersonal communication courses the book is also appropriate for teacher education courses orientation to college life courses and for college counseling centers **Beyond the Ivory Tower** Derek Curtis Bok, Derek Curtis Bok, 2009-06-30 Derek Bok examines the complex ethical and social issues facing modern universities today and suggests approaches that will allow the academic institution both to serve society and to continue its primary mission of teaching and research **University Problems in the United States** Daniel Coit Gilman, 1941

Teachers, Discourses, and Authority in the Postmodern Composition Classroom Xin Liu Gale, 1996-01-04 This book is a sophisticated analysis of the teacher s role and authority in postmodern academic settings Xin Liu Gale argues that the teacher s authority is inevitable and indispensable in effective teaching and that furthermore it is necessary for symbolic imposition The author insists that teachers and scholars should explore how the teacher s authority functions in the pedagogic context and how it can help students develop critical literacy Influenced by the works of Mikhail Bakhtin Pierre Bourdieu Jean Claude Passeron Paulo Freire Richard Rorty and various poststructuralist theorists Gale investigates the complex relationships among the teacher s and the institution s authority the teacher s discourse s and social and pedagogic roles and students discourse s and diverse backgrounds She then proposes a two level interactional model of teaching that is based on a new discourse relationship characterized by the edifying role of the teacher **Harold Taylor and Sarah Lawrence College** Craig Kridel, 2022-11-01 Winner of the 2023 Outstanding Book Award presented by the Society of Professors of Education Harold Taylor and Sarah Lawrence College is the posthumous memoir of Harold Taylor 1914 1993 told through thoughtful and entertaining accounts of his many interactions with leading cultural and political figures of his time Taylor distinguished himself as a spokesperson for progressive education and educational experimentation during the 1950s and would emerge in the 1960s as one of the country s leading public intellectuals and campus speakers addressing issues related to student activism peace education and international studies Written with insight and wit and carefully edited and reconstructed Harold Taylor and Sarah Lawrence College will inspire college students professors and administrators to

reconsider the most fundamental purposes of higher education and social and educational change Improving Student Achievement Through Technology United States. Congress. House. Committee on Education and the Workforce.

Subcommittee on 21st Century Competitiveness,2001 **College and Student** Kenneth A. Feldman,2013-10-22 College and Student Selected Readings in the Social Psychology of Higher Education is a collection of papers that provides a sociological analysis of higher education The title empathizes on in depth analysis of topics rather than covering a wide variety of higher education topics The text first covers the structure and process in higher education and then proceeds to tackling the transition from high school to college Next the selection deals with the change and stability during college years The fourth part talks about the assessment of the influence on different college environments Part Five discusses the students and college substructures while Part Six tackles the students student culture and teachers The text talks about recommendations innovations experimentations and reform The book will be of great use to educators sociologists and behavioral scientists **Hearings, Reports and Prints of the House Committee on Education and Labor** United States. Congress. House. Committee on Education and Labor,1972
