Studies In Bibliography Volume 3 1950 1951:

Bibliography of Publications by Members of the Several Faculties of the University of Michigan University of Michigan. Office of Research Administration,1923 Manuscript Miscellanies in Early Modern England Joshua Eckhardt,Daniel Starza Smith,2016-05-13 Perhaps more than any other kind of book manuscript miscellanies require a complex and material reading strategy This collection of essays engages the renewed and expanding interest in early modern English miscellanies anthologies and other compilations Manuscript Miscellanies in Early Modern England models and refines the study of these complicated collections Several of its contributors question and redefine the terms we use to describe miscellanies and anthologies Two senior scholars correct the misidentification of a scribe and in so doing uncover evidence of a Catholic probably Jesuit priest and community in a trio of manuscripts Additional contributors show compilers interpreting attributing and arranging texts as well as passively accepting others editorial decisions While manuscript verse miscellanies remain appropriately central to the collection several essays also involve print and prose ranging from letters to sermons and even political prophecies Using extensive textual and bibliographical evidence the collection offers stimulating new readings of literature politics and religion in the early modern period and promises to make important interventions in academic studies of the history of the book **Librarianship and Literature** A. T. Milne,2014-01-13 These essays are produced in honour of the seventieth birthday of Dr J H Pafford Goldsmith s Librarian of the University of London from 1945 to 1967 and reflect his interests in librarianship textual editing and local history **Human Engineering Guide for Equipment Designers** , Sources 1796-1949 Frits G.P. Jaquet,2011-10-13 No detailed description available for Sources 1796 1949 **London and the Making of Provincial Literature** Joseph Rezek,2015-08-28 In the early nineteenth century London publishers dominated the transatlantic book trade No one felt this more keenly than authors from Ireland Scotland and the United States who struggled to establish their own national literary traditions while publishing in the English metropolis Authors such as Maria Edgeworth Sydney Owenson Walter Scott Washington Irving and James Fenimore Cooper devised a range of strategies to transcend the national rivalries of the literary field By writing prefaces and footnotes addressed to a foreign audience revising texts specifically for London markets and celebrating national particularity provincial authors appealed to English readers with idealistic stories of cross cultural communion From within the messy and uneven marketplace for books Joseph Rezek argues provincial authors sought to exalt and purify literary exchange In so doing they helped shape the Romantic era belief that literature inhabits an autonomous sphere in society London and the Making of Provincial Literature tells an ambitious story about the mutual entanglement of the history of books and the history of aesthetics in the first three decades of the nineteenth century Situated between local literary scenes and a distant cultural capital enterprising provincial authors and publishers worked to maximize success in London and to burnish their reputations and build their industry at home Examining the production of books and the circulation of material texts between

London and the provincial centers of Dublin Edinburgh and Philadelphia Rezek claims that the publishing vortex of London inspired a dynamic array of economic and aesthetic practices that shaped an era in literary history **Poetry, Publishing, and Visual Culture from Late Modernism to the Twenty-first Century** Natalie Pollard,2020 Exploring works by Djuna Barnes David Jones F T Prince Denise Riley Paul Muldoon and Ted Hughes this volume traces the relationship between twentieth century poetry and art to question the role of art in society **Bibliographical Analysis** G. Thomas Tanselle,2009-07-02 Studying printed books as physical objects can reveal not only how books were produced but also how their design and layout features emerged and came to convey meanings This concise and accessible introduction to analytical bibliography in its historical context explains in clear non specialist language how to find and analyze clues about a book s manufacture and how to examine the significance of a book s design Written by one of the most eminent bibliographical and textual scholars working today the book is both a practical guide to bibliographical research and a history of bibliography as a developing field of study For all who use books this is an ideal starting point for learning how to read the object along with the words **Publications and Research** University of Virginia,1948 **Industrial Uses of Radioactive Fission Products** Stanford Research Institute, Stanford University,Stanford Research Institute,1951
