Studies In Comparative Genocide:

Studies in Comparative Genocide Levon Chorbajian, George Shirinian, 2016-07-27 Many of the world's leading authorities in history sociology political science and psychology shed new light on the major genocides of the twentieth century Featured authors include Irving Louis Horowitz Helen Fein Vahakn Dadrian Roger W Smith Henry Huttenbach Ervin Staub and Turkish historian Taner Ak The volume covers the genocides of the Armenians Ukrainians Jews Gypsies Rwandans and Bosnians and also topics of genocide denial and prevention *Comparative genocide studies*, 2005 **Genocide**

Studies Jeffrey S. Bachman, 2024-10-11 In recent years the world has been shaken by numerous events that have caused and continue to cause massive human suffering from the COVID 19 pandemic to intrastate and interstate armed conflicts Moreover climate change continues to plow ahead contributing to growing tensions population movements and resource scarcity Meanwhile the methods by which groups and group life are threatened and the means by which violence is incited and perpetrated continue to evolve Such divergent crises even when they overlap or intersect confound definition and label This book seeks not to answer the question What is genocide but rather What is genocide studies When Raphael Lemkin coined the term genocide in 1944 he could not have foreseen what the world would look like today Now is the time to think about current manifestations of genocide and those likely to emerge in the future **The Oxford Handbook of Holocaust**

Studies Peter Hayes, John K. Roth, 2012-11-22 Few scholarly fields have developed in recent decades as rapidly and vigorously as Holocaust Studies At the start of the twenty first century the persecution and murder perpetrated by the Nazi regime have become the subjects of an enormous literature in multiple academic disciplines and a touchstone of public and intellectual discourse in such diverse fields as politics ethics and religion Forward looking and multi disciplinary this handbook draws on the work of an international team of forty seven outstanding scholars The handbook is thematically divided into five broad sections Part One Enablers concentrates on the broad and necessary contextual conditions for the Holocaust Part Two Protagonists concentrates on the principal persons and groups involved in the Holocaust and attempts to disaggregate the conventional interpretive categories of perpetrator victim and bystander It examines the agency of the Nazi leaders and killers and of those involved in resisting and surviving the assault Part Three Settings concentrates on the particular places sites and physical circumstances where the actions of the Holocaust's protagonists and the forms of persecution were literally grounded Part Four Representations engages complex questions about how the Holocaust can and should be grasped and what meaning or lack of meaning might be attributed to events through historical analysis interpretation of texts artistic creation and criticism and philosophical and religious reflection Part Five Aftereffects explores the Holocaust's impact on politics and ethics education and religion national identities and international relations the prospects for genocide prevention and the defense of human rights *The Memorialization of Genocide* Simone Gigliotti, 2017-10-02 Divided societies tormented pasts and unrepentant perpetrators Why are some countries more intent on

vanquishing uncomfortable pasts than others How do public and often unsightly attempts at memorialisation both fail the victims and valorize their oppressors This book offers fresh and original perspectives on dictatorship fascism and victimization from the bloodiest decades in Europe s Australia s and Central America s colonial and modern history Chapters include analyses of Francoist memorials in Spain assessments of the El Mozote massacre in El Salvador the forgetting of frontier colonial violence in Tasmania Romania s treatment of its Roma populations in the midst of Holocaust memorialisation in Bucharest s urban development and whether or not the Holocaust continues to serve as an instructional model or impossible aspiration for cross cultural genocide memorialisation strategies In an era of ongoing political ethnic and religious conflict and unrepentant insurgent activity around the world this collection reminds readers that genocidal actions wherever and whenever they occurred must be held to account by more than rhetoric and concrete memory This book was originally published as a special issue of the Journal of Genocide Research

Genocide Adam Jones,2006-09-27 An invaluable introduction to the subject of genocide explaining its history from pre modern times to the present day with a wide variety of case studies Recent events in the former Yugoslavia Rwanda East Timor and Iraq have demonstrated with appalling clarity that the threat of genocide is still a major issue within world politics The book examines the differing interpretations of genocide from psychology sociology anthropology and political science and analyzes the influence of race ethnicity nationalism and gender on genocides In the final section the author examines how we punish those responsible for waging genocide and how the international community can prevent further bloodshed

Constructing Genocide and Mass Violence Maureen S. Hiebert,2017-03-16 This book addresses two closely related questions what is the process by which the relatively short and violent genocides of the twentieth century and beyond have occurred Why have these instances of mass violence been genocidal and not some other form of state violence repression or conflict Hiebert answers these questions by exploring the structures and processes that underpin the decision by political elites to commit genocide focusing on a sustained comparison of two cases the Nazi Final Solution and the Cambodian genocide The book clearly differentiates the structures and processes contained within a larger overall process that leads to genocidal violence Uncovering the mechanisms by which societies at least in the contemporary era come to experience genocide as a distinct form of destruction and not some other form of mass or political violence Hiebert is able to highlight a set of key process that lead to specifically genocidal violence Providing an insightful contribution to the burgeoning literature in this area this book will be of interest to students and scholars of genocide international relations and political violence

African American History Reconsidered Pero Gaglio Dagbovie,2010 This volume establishes new perspectives on African American history The author discusses a wide range of issues and themes for understanding and analyzing African American history the 20th century African American historical enterprise and the teaching of African American history for the 21st century

Advancing Genocide Studies Samuel Totten,2015-10-27 Advancing Genocide Studies follows in the footsteps of the editor s earlier volume Pioneers of
