Berhanu Abegaz, 2023-02-14 Understanding Economic Transitions explains the genesis operation and transformation of the centrally planned socialist economy which figured prominently in the lives of billions of people in twentieth century Europe and Asia Just as importantly the centrally planned socialist economy's demise coincided with the shift from nonindustrial to industrial economy and de industrialization in some cases and the onset of ICT driven globalization Using theory empirics and selected country case studies this book teases out the enduring lessons from the myriad and fraught pathways of transition from socialism to capitalism Understanding Economic Transitions provides a self contained comprehensive and authoritative treatment of modern economic systems This textbook has four features of particular use to students i Using the prism of comparative institutionalism it melds theory and evidence to revisit the varieties of planned and market driven systems today ii It takes economic planning seriously in theory and practice central cooperative or indicative as the most prominent marker of the ever changing boundaries between state and market iii It focuses on the dynamics of systemic transition in formerly socialist countries by contextualizing them in terms of the whence central planning the how modalities of transition and the whither illiberal or liberal capitalism of politico economic transformation and iv It examines the profound impact on these structural processes of the post 1990 phase of economic globalization With its clear comprehensive content and useful pedagogical features this textbook will prepare students to understand how economies transition and why

Globalisation, Transition and Development in China Rui Huaichuan, 2004-06-02 Based on extensive original research Globalisation Transition and Development in China explains China's development strategy and its underlying forces and the success of this strategy It examines China's gradualist approach which emphasizes development first and regards transition

and globalization as secondary enacting liberalization of domestic markets and integration into the world economy in a paced way avoiding dramatic changes which might impede or even reverse development and argues that this approach is broadly correct It considers China s failures including the failure to build large globally competitive corporations despite the intention to do this and shows how China s economic strategy has been implemented in detail with a case study of the large and important coal industry

Economic Transition In China: Long-run Growth And Short-run Fluctuations Zhigang Yuan,2014-07-03 This book provides a comprehensive overview on Chinese economy in the last three decades and an insightful view on the future reform in China The China s miracle is used to describe its rapid economic growth in the last thirty years The author aims to demystify the miracle by analyzing the past and present of economic transitions and showcases the blueprint for future economic reforms from the perspectives of institutional transformation urbanization and changes in the labor markets The book contains hottest topics on Chinese economy such as land market reform new type urbanization and financial reform It investigates both the long run growth and short run fluctuations The factor markets including labor market capital market and land market are analyzed as key determinants to long run growth and consumption while investment and net export are investigated as elements to short run fluctuations

**Globalistics and globalization studies** Leonid E. Grinin,Ilya V. Ilyin,Peter Herrmann,Andrey V. Korotayev,2016-01-01 The present volume is the fifth in the series of yearbooks with the title Globalistics and Globalization Studies The subtitle of the present volume is Global Transformations and Global Future We become more and more accustomed to think globally and to see global processes And our future can all means be global However is this statement justified Indeed in recent years many have begun to claim that globalization has stalled that we are rather dealing with the process of anti globalization Will not we find ourselves at some point again in an edifice spanning across the globe but divided into national apartments separated by walls of high tariffs and mutual suspicion Of course some setbacks are always possible because the process of globalization cannot develop smoothly It is a process which is itself emerging from contradictions and is shaped by a new contradiction They often go much further than underlying systemic changes allow They break forward as the vanguard of a victorious army and then often meet resistance of various social and political forces and may suddenly start to roll back just at the moment when everyone expects their further offensive We believe that this is what is happening with globalization at present The yearbook will be interesting to a wide range of researchers teachers students and all those who are concerned about global issues

Economics and Culture C. D. Throsby,2001 In an increasingly globalised world economic and cultural imperatives can be seen as two of the most powerful forces shaping human behaviour This book considers the relationship between economics and culture both as areas

of intellectual discourse and as systems of societal organisation Adopting a broad definition of culture it explores the economic dimensions of culture and the cultural context of economics The book is built on a foundation of value theory developing the twin notions of economic and cultural value as underlying principles for integrating the two fields Ideas of cultural capital and sustainability are discussed especially as means of analysing the particular problems of cultural heritage drawing parallels with the treatment of natural capital in ecological economics The book goes on to discuss the economics of creativity in the production of cultural goods and services culture in economic development the cultural industries and cultural policy

Human Development in the Era of Globalization J. K. Boyce, Keith B. Griffin, James K. Boyce, 2006 This volume provides a very high quality set of papers on the relationship between globalization and human development any one with interest in this wide ranging subject matter would find the volume an interesting and engaging read Global Business Review Honoring Keith Griffin s more than 40 years of fundamental contributions to the discipline of economics the papers in this volume reflect his deep commitment to advancing the well being of the world s poor majority and his unflinching willingness to question conventional wisdom as to how this should be done Four overarching themes recur in Keith Griffin s work and this book the need to both eradicate poverty and redress inequalities in the distribution of wealth within and among nations the impact of growth on inequality and conversely inequality s impact on growth the political economy of policy making and the need for openness to heterogeneity in both analytic tools and in policy recommendations The volume begins with an introduction by the editors followed by a paper by Keith Griffin In succeeding chapters the contributors explore strategies for reducing poverty and inequality and provide perspectives on issues such as human development the rural urban divide in China and biodiversity and sustainability Students researchers policymakers and NGO analysts exploring issues in development economics development studies alternative economic systems globalization environmental sustainability inequality and well being will find this book of great interest

**Global Economy in Transition: the European Union and Beyond** Linda Winkler, Harold Codrington, 2018-01-15 This volume covers various issues in global development and global economic transformation including factors affecting economies and development in the European Union EU the Ukraine select countries in Africa the Caribbean the South Pacific as well as India and the United States The global economy is in transition from the 1990s status quo to the new normal with heavy reliance on the internet rapid communications sophisticated payment systems diminishing importance of size and distance and changing notions of the market This volume discusses how this process is affecting economies across the globe and why an appreciation of it will help efforts by governmental bodies and the private sector to reassess societal relationships both economic and political This volume shows that challenges to policy making and the achievement of social consensus on development issues are often quite similar in all countries irrespective of size geographical location endowment and developmental status The chapters speak to concerns that touch on a cross section of issues which are driving transition and transformation at multiple levels As

a group they compare economic factors across transnational economic or political associations OECD European Union G20 or make comparisons across or within emerging markets or small states BRICS various African countries the Caribbean South Pacific They include the presentation of a new model for transnational agreements discussions of policies related to labor compensation and corporate governance comparisons of nations across the world using indices of economic development and governance an analysis of gender inequality in employment in the European Union comparisons of tax burdens across the European Union and the USA discussions of employee representation in corporate governance and a look at grass roots development and markets in developing economies As a whole in its breadth and cross national perspective the volume represents an important scholarly contribution to international economics
