Studies In The Economics Of Aging:

Studies in the Economics of Aging David A. Wise, 2007-12-01 Studies in the Economics of Aging is the fourth book in a series from the National Bureau of Economic Research that addresses economic issues in aging and retirement Building on the research in The Economics of Aging 1989 Issues in the Economics of Aging 1990 and Topics in the Economics of Aging 1992 this volume examines elderly population growth and government spending life expectancy and health saving for retirement and housing values aging in Germany and Taiwan and the utilization of nursing home and other long term care

The Economics of Aging David A. Wise, 2009-05-15 The Economics of Aging presents results from an ongoing National Bureau of Economic Research project Contributors consider the housing mobility and living arrangements of the elderly their labor force participation and retirement the economics of their health care and their financial status The goal of the research is to further our understanding both of the factors that determine the well being of the elderly and of the consequences that follow from an increasingly older population with longer individual life spans Each paper is accompanied by critical commentary

Research Findings in the Economics of Aging David A. Wise, 2010-04-15 The baby boom generation's entry into old age has led to an unprecedented increase in the elderly population The social and economic effects of this shift are significant and in Research Findings in the Economics of Aging a group of leading researchers takes an eclectic view of the subject Among the broad topics discussed are work and retirement behavior disability and their relationship to the structure of retirement and disability policies While choices about when to retire are made by individuals these decisions are influenced by a set of incentives including retirement benefits and health care and this volume includes cross national analyses of the effects of such programs on these decisions Furthermore the volume also offers in depth analysis of the effects of retirement plans employer contributions and housing prices on retirement It explores well established relationships among economic circumstances health and mortality as well as the effects of poverty and lower levels of economic development on health and life satisfaction By combining micro and macro evidence this volume continues a tradition of expanding the research agenda on the economics of aging

Discoveries in the Economics of Aging David A. Wise, 2014-08-29 The oldest members of the Baby Boomer generation are now crossing the threshold of eligibility for Social Security and Medicare with extensive and significant implications for these programs overall spending and fiscal sustainability Yet the aging of the Baby Boomers is just one part of the rapidly changing landscape of aging in the United States and around the world The latest volume in the NBER's Economics of Aging series Discoveries in the Economics of Aging assembles incisive analyses of the most recent research in this expanding field of study A substantive focus of the volume is the well documented relationship between health and financial well being especially as people age The contributors explore this issue from a variety of perspectives within the context of the changing demographic landscape The first part of the volume explores recent trends in health measurement including the use of alternative measurement indices

Later contributions explore among other topics alternate determinants of health including retirement marital status and cohabitation with family and the potential for innovations interventions and public policy to improve health and financial well being

Analyses in the Economics of Aging David A. Wise, *Analyses in the Economics of Aging* summarizes a massive amount of new research on several popular and less examined topics pertaining to the relationship between economics and aging Among the many themes explored in this volume considerable attention is given to new research on retirement savings the cost and efficiency of medical resources and the predictors of health events The volume begins with a discussion of the risks and merits of 401 k plans Subsequent chapters present recent analysis of the growth of Medicare costs the different aspects of disability and the evolution of health wealth and living arrangements over the life course Keeping with the global tradition of previous volumes *Analyses in the Economics of Aging* also includes comparative studies on savings behavior in Italy the Netherlands and the United States an examination of household savings among different age groups in Germany and a chapter devoted to population aging and the plight of widows in India Carefully compiled and containing some of the most cutting edge research and analysis available this volume should be of interest to any specialist or policymaker concerned with ongoing changes in savings and retirement behaviors

The Economics of Individual and Population Aging Robert L. Clark, Joseph J. Spengler, 1980-04-30 This study aims to identify and describe the principle economic issues associated with individual and population ageing In addition the study surveys and assess the existing knowledge including research by scholars of many countries and different fields in the social sciences of the economic and social problems associated with ageing Although the study covers a wide range of issues it focuses primarily on the economic complexities of individual ageing and the macro economic problems that arise from age structure changes in the population The authors giving examples from many countries trace the development of concern for population ageing and examine theoretical concepts and changing demographic conditions Cross national econometric studies are cited along with time series and cross sectional research on individual countries In assessing the state of the literature on the economic problems of ageing the authors have attempted to indicate fruitful avenues for further research

The Economics of Aging, 2003 **Inquiries in the Economics of Aging** David A. Wise, 2008-04-15 For over a decade the National Bureau of Economic Research has sponsored the Economics of Aging Program under the direction of David A Wise The program addresses issues that affect the well being of individuals as they age and a society that is composed increasingly of older people Within the next twenty years an unprecedented proportion of Americans will be over sixty five New research in the economics of aging is an essential element of understanding what the future holds for this aging population *Inquiries in the Economics of Aging* presents both empirical papers that consider questions that are fundamental to public policy and more theoretical contributions that lay new groundwork for future research in the economics of aging *Inquiries in the Economics of Aging* provides a timely overview of some of the most important questions facing researchers on aging and outlines new techniques and models that may help to
