Stevens, 2020-06-15 In *History of the Pauline Corpus in Texts, Transmissions and Trajectories* Chris S Stevens examines the Greek manuscripts of the Pauline texts from P46 to Claromontanus Previous research is often hindered by the lack of a systematic analysis and an indelicate linguistic methodology This book offers an entirely new analysis of the early life of the Pauline corpus Departing from traditional approaches this text critical work is the first to use Systemic Functional Linguistics which enables both the comparison and ranking of textual differences across multiple manuscripts Furthermore the analysis is synchronically oriented so it is non evaluative The results indicate a highly uniform textual transmission during the early centuries The systematic analysis challenges previous research regarding text types Christological scribal alterations and textual trajectories *Orality, Textuality, and the Homeric Epics* Jonathan L. Ready, 2019-07-30 Written texts of the Iliad and the Odyssey achieved an unprecedented degree of standardization after 150 BCE but what about Homeric texts prior to the emergence of standardized written texts *Orality Textuality and the Homeric Epics* sheds light on that earlier history by drawing on scholarship from outside the discipline of classical studies to query from three different angles what it means to speak of Homeric poetry together with the word text Part I utilizes work in linguistic anthropology on oral texts and oral intertextuality to illuminate both the verbal and oratorical landscapes our Homeric poets fashion in their epics and what the poets were striving to do when they performed Looking to folkloristics part II examines modern instances of the textualization of an oral traditional work in order to reconstruct the creation of written versions of the Homeric poems through a process that began with a poet dictating to a scribe Combining research into scribal activity in other cultures especially in the fields of religious studies and medieval studies with research into performance in the field of linguistic anthropology part III investigates some of the earliest extant texts of the Homeric epics the so called wild papyri By looking at oral texts dictated texts and wild texts this volume traces the intricate history of Homeric texts from the Archaic to the Hellenistic period long before the emergence of standardized written texts in a comparative and interdisciplinary study that will benefit researchers in a number of disciplines across the humanities *The Cambridge Guide to Homer* Corinne Ondine Pache, Casey Dué, Susan Lupack, Robert Lamberton, 2020-03-05 From its ancient incarnation as a song to recent translations in modern languages Homeric epic remains an abiding source of inspiration for both scholars and artists that transcends temporal and linguistic boundaries *The Cambridge Guide to Homer* examines the influence and meaning of Homeric poetry from its earliest form as ancient Greek song to its current status in world literature presenting the information in a synthetic manner that allows the reader to gain an understanding of the different strands of Homeric studies The volume is structured

around three main themes Homeric Song and Text the Homeric World and Homer in the World Each section starts with a series of macropedia essays arranged thematically that are accompanied by shorter complementary micropedia articles The Cambridge Guide to Homer thus traces the many routes taken by Homeric epic in the ancient world and its continuing relevance in different periods and cultures *Pesher and Hypomnema: A Comparison of Two Commentary Traditions from the Hellenistic-Roman Period* Pieter B. Hartog, 2017-11-06 In *Pesher and Hypomnema* Pieter B Hartog compares ancient Jewish commentaries on the Hebrew Bible with papyrus commentaries on the Iliad Hartog shows that members of the Qumran movement adopted classical commentary writing and adapted it to their own needs **Liddell and Scott** Christopher Stray, Michael J.
