

A person wearing a straw hat and a light-colored shirt is standing in a field of green plants. They are holding a tablet computer. Overlaid on the image are several digital icons: a calendar with a plant icon, a hexagon with a plant icon, a hexagon with a water drop icon, and a hexagon with a plant icon. The background is a blurred field of green plants under a bright sky.

Studies In The Transformation Of Us Agriculture:

Studies In The Transformation Of U.S. Agriculture A. Eugene Havens, Gregory Hooks, Patrick H Mooney, Max Pfeffer, 2019-09-05 In recent years the consensual view of rural society has been challenged by theorists identifying the conflict exploitation and power relations in rural society Beyond this theoretical challenge empirical studies of the sociology of agriculture have provided a fresh understanding of the dynamics of U S agriculture This book contributes to the growing literature by providing a historical perspective The contributors explore historical developments in U S agriculture within the context of the larger political economy The book opens with a review of the similarities and differences between the critical rural sociology of today with that of the 1930s and moves on to a study of the accumulation process in U S agriculture Other issues covered include the erosion of the southern class structure during and after the 1930s the landed aristocracy s reassertion in the post bellum south changes in the class structure and locus of agriculture in the midwest and historical developments in the labor process and in capitalist agriculture in California The concluding chapter provides a framework for studying both the origins and the consequences of state agriculture policies The Sociology of Food and Agriculture Michael Carolan, 2016-02-12 In this second edition of *The Sociology of Food and Agriculture* students are provided with a substantially revised and updated introductory text to this emergent field The book begins with the recent development of agriculture under capitalism and neo liberal regimes and the transformation of farming and peasant agriculture from a small scale family run way of life to a globalized system Topics such as the global hunger and obesity challenges GM foods and international trade and subsidies are assessed as part of the world food economy The final section concentrates on themes of sustainability food security and food sovereignty The book concludes on a positive note examining alternative agri food movements aimed at changing foodscapes at levels from the local to the global With increased coverage of the financialization of food food and culture gender ethnicity and justice food security and food sovereignty the book is perfect for students with little or no background in sociology and is also suitable for more advanced courses as a comprehensive primer All chapters include learning objectives suggested discussion questions and recommendations for further reading to aid student learning America and the Automobile Peter J. Ling, 1992 This interdisciplinary study of the early history of the automobile in the USA explores how the motorcar was accepted by an affluent class of society and interpreted as a means of achieving progressive middle class objectives **Report of the Commission on Agricultural Workers** United States. Commission on Agricultural Workers, 1993 Together at the Table Patricia Allen, 2004 Everywhere you look people are more aware of what they eat and where their food comes from In a cafeteria in Los Angeles children make their lunchtime food choices at fresh fruit and salad bars stocked with local foods In a community garden in New York low income residents are producing organically grown fruits and vegetables for their own use and to sell at market In Madison Wisconsin shoppers select their food from a bounty of choices at a vibrant farmers market *Together at the Table* is about people throughout the

United States who are building successful alternatives to the contemporary agrifood system and their prospects for the future At the heart of these efforts are the movements for sustainable agriculture and community food security Both movements seek to reconstruct the agrifood system the food production chain from the growing of crops to food production and distribution to become more ecologically sound economically viable and socially just Allen describes the ways in which people working in these movements view the world and how they see their place in challenging and reshaping the agrifood system She also shows how ideas and practices of sustainable agriculture and community food security have already woven their way into the dominant agrifood institutions Allen explores the possibilities this process may hold for improving social and environmental justice in the American agrifood system Together at the Table is an important reminder that much work still remains to be done Now that the ideas and priorities of alternative food movements have taken hold it is time for the next even more challenging step Alternative agrifood movements must acknowledge and address the deeper structural and cultural patterns that constrain the long term resolution of social and environmental problems in the agrifood system

Rural Restructuring Terry Marsden, Philip Lowe, Sarah Whatmore, 2023-06-08 Originally published in 1990 this volume discusses the broad theme of rural restructuring looking at the nature of rural related responses to global processes of change This book provides global viewpoints which show readers a more integral and critical analysis on rural areas based on the changing realities of the 1990s *The Sociology of Agriculture* Frederick H. Buttel, Olaf F. Larson, Gilbert W. Gillespie (Jr), 1990-02-08 Published to commemorate the 50th anniversary of the Rural Sociological Society this monograph analyzes the nearly 90 years of rural sociological research on agriculture and provides a comprehensive overview of changing research focuses and theoretical approaches As the authors note at the outset there are a good number of continuities between early 20th century rural sociology and what is now called the sociology of agriculture There are also they note very substantial differences between contemporary sociology of agriculture scholarship and that which preceded it Their aim throughout is to convey both continuities and discontinuities in theory method and approach Intended primarily as a straightforward exposition of major scholarly themes the volume is designed to be useful to readers from a variety of theoretical persuasions The authors do however point to areas of weakness in theoretical or methodological approach that should be addressed in future research The volume is organized around the three major eras of rural sociological conceptualizations of agriculture The authors begin by examining the founding of U S rural sociology shortly after the turn of the century until the early 1950s demonstrating that during this initial era the study of agriculture was largely construed as one of the many elements necessary for understanding the social fabric of rural community life In the next section they explore the social psychological behaviorist tradition which held sway from the early 1950s through the early 1970s and which conceptualized farmers as actors responding to stimuli such as new technologies and educational opportunities The three chapters devoted to recent research in the emerging tradition of the new rural sociology address such topics as the

political economy of agriculture the environment of agriculture and major theoretical trends in the sociology of agriculture In their concluding chapter the authors look toward the future of the sociology of agriculture and identify some potential problems as we move into the 1990s *Rural Development Perspectives*, 1988-02 **Family Farming In Europe And America** Boguslaw Galeski, 2020-09-23 Much has happened since agricultural economists and rural sociologists met at the University of Chicago in 1946 to discuss family farming The problems and issues related to the structure of agriculture have been intensified by current economic considerations which promote the growth of larger scale commercial farming operations and edge out many smaller farms owned operated and worked by families In this book contributors from eleven nations in Europe and North America provide a comparison of farm structure under different economic and political systems including Poland as an example of a non market economy In addition to providing information on how local state and international policies have affected the agricultural enterprise they look at the role of farmers organizations in policy formulation and take note of changes in farm patterns and policies that have had an impact on farm production off farm work and the welfare of farm families and rural communities **Bank Merger Activity in the United States, 1994-2003** Steven J. Pilloff, 2010-11 During the 1980 2003 period the number of banking org in the U S decreased from 16 000 to 8 000 and mergers of healthy institutions were by far the most important cause of that consolidation During that period the share of industry assets held by the ten largest commercial banking org rose from 22% to 46% and the share of industry deposits held by the ten largest rose from 19% to 41% The database employed in this study consists of the vast majority of mergers between separately owned banking org This study covers every transaction in which the target institution or one of its banking subsid was chartered in the U S and in which the acquirer and the target were or owned a commercial bank savings bank s l assoc or industrial bank
