Studies In Early Modern English:

Studies in Early Modern English Dieter Kastovsky, 2011-12-07 The future of English linguistics as envisaged by the editors of *Topics in English Linguistics* lies in empirical studies which integrate work in English linguistics into general and theoretical linguistics on the one hand and comparative linguistics on the other The *TiEL* series features volumes that present interesting new data and analyses and above all fresh approaches that contribute to the overall aim of the series which is to further outstanding research in English linguistics

Working Subjects in Early Modern English Drama

Natasha Korda, 2016-02-11 *Working Subjects in Early Modern English Drama* investigates the ways in which work became a subject of inquiry on the early modern stage and the processes by which the drama began to forge new connections between labor and subjectivity in the period The essays assembled here address fascinating and hitherto unexplored questions raised by the subject of labor as it was taken up in the drama of the period How were laboring bodies and the goods they produced marketed and consumed represented onstage through speech action gesture costumes and properties How did plays participate in shaping the identities that situated laboring subjects within the social hierarchy In what ways did the drama engage with contemporary discourses social political economic religious etc that defined the cultural meanings of work How did players and playwrights define their own status with respect to the shifting boundaries between high status low status legitimate illegitimate profitable unprofitable skilled unskilled formal informal male female free bound paid unpaid forms of work Merchants usurers clothworkers cooks confectioners shopkeepers shoemakers sheepshearers shipbuilders sailors perfumers players magicians servants and slaves are among the many workers examined in this collection Offering compelling new readings of both canonical and lesser known plays in a broad range of genres including history plays comedies tragedies tragicomedies travel plays and civic pageants this collection considers how early modern drama actively participated in a burgeoning proto capitalist economy by staging England's newly diverse workforce and exploring the subject of work itself

Early Modern Communitations Kinga Földváy, Erzsébet Stróbl, 2013-02-14 As suggested by the title *Early Modern Communitations* the volume demonstrates that the connections and common points of reference within early modern studies bind Elizabethan and Jacobean cultural studies and Shakespearean investigations together in an unexpected number of ways and this diversity of ties has been used as the main theme around which the thirteen essays have been organised While the first group of essays deals with early modern culture presenting the socio historical context necessary for any in depth literary investigation as exemplified through analyses of outstanding literary achievements from the period the second part of the volume focuses on the oeuvre of the most famous representative of the age William Shakespeare with individual chapters creating a tangible continuum moving from the cultural and literary context that informs his works to their interpretation in present day performances and their theoretical backgrounds In the same way as the volume comprises writings on a diverse but still coherent range of topics the authorial team is equally representative of

diversity and continuity at the same time The authors include several senior scholars working in the Hungarian academic community representing all significant research centres in the field from all over the country A number of essays have been contributed by promising young talents as well Introduction to Early Modern English Terttu Nevalainen,2006-01-19 An introduction to Early Modern English this book helps students of English and linguistics to place the language of the period 1500 1700 in its historical context as a language with a common core but also as one which varies across time regionally and socially and according to register The volume focuses on the structure of what contemporaries called the General Dialect its spelling vocabulary grammar and pronunciation and on its dialectal origins The book also discusses the language situation and linguistic anxieties in England at a time when Latin exerted a strong influence on the rising standard language The volume includes The major changes in English from the 15th to the 18th century Emphasis on long term linguistic developments Sources for the study of Early Modern English Illustrations ranging from drama and personal letters to trials and early science Exercises encouraging further exploration of the changing English language **Early Modern English** Alexander Bergs,Laurel Brinton,2017-10-23 This volume provides a comprehensive account of Early Modern English organized by linguistic level The volume not only presents detailed outlines of the traditional language levels it also explores key questions and debates such as do periphrasis the Great Vowel Shift pronouns and relativization literary language including the language of Shakespeare and sociolinguistics including contact and standardization **Ecological Approaches to Early Modern English Texts** Jennifer Munroe,Edward J. Geisweidt,2016-03-09 Ecocriticism has steadily gained footing within the larger arena of early modern scholarship and with the publication of well over a dozen monographs essay collections and special journal issues literary studies looks increasingly green yet the field lacks a straightforward easy to use guide to do with reading and teaching early modern texts ecocritically Accessible yet comprehensive the cutting edge collection Ecological Approaches to Early Modern English Texts fills this gap Organized around the notion of contact zones or points of intersection that have often been constructed asymmetrically especially with regard to the human nonhuman dichotomy the volume reassesses current trends in ecocriticism and the Renaissance introduces analyses of neglected texts and authors brings ecocriticism into conversation with cognate fields and approaches e g queer theory feminism post coloniality food studies and offers a significant section on pedagogy ecocriticism and early modern literature Engaging points of tension and central interest in the field the collection is largely situated in the and or that resides between presentism historicism materiality literary somatic semiotic nature culture and most importantly human nonhuman Ecological Approaches to Early Modern English Texts balances coverage and methodology its primary goal is to provide useful yet nuanced discussions of ecological approaches to reading and teaching a range of representative early modern texts As a whole the volume includes a diverse selection of chapters that engage the complex issues that arise when reading and teaching early modern texts from a green perspective Water and Cognition in Early Modern English Literature Nicholas

Helms, Steve Mentz, 2025-10-01 Water and cognition seem unrelated things the one a physical environment and the other an intellectual process The essays in this book show how bringing these two modes together revitalizes our understanding of both Water and especially oceanic spaces have been central to recent trends in the environmental humanities and premodern ecocriticism Cognition including ideas about the extended mind and distributed cognition has also been important in early modern literary and cultural studies over the past few decades This book aims to think water and cognition as distinct critical modes and also to combine them in what we term watery thinking Water and Cognition brings together cognitive science and ecocriticism to ask how the environment influences how humans think and how they think about thinking The collection explores how water as element as environment and as part of our bodies affects the way early modern and contemporary discourses understand cognition *Studies in Early Modern English* Dieter Kastovsky, 2011 *Ecocriticism and Early Modern English Literature* Todd A. Borlik, 2011-05-11 In this timely new study Borlik reveals the surprisingly rich potential for the emergent green criticism to yield fresh insights into early modern English literature Deftly avoiding the anachronistic casting of sixteenth and seventeenth century authors as modern environmentalists he argues that environmental issues such as nature's personhood deforestation energy use air quality climate change and animal sentience are formative concerns in many early modern texts The readings infuse a new urgency in familiar works by Shakespeare Sidney Spenser Marlowe Raleigh Jonson Donne and Milton At the same time the book forecasts how ecocriticism will bolster the reputation of less canonical authors like Drayton Wroth Bruno Gascoigne and Cavendish Its chapters trace provocative affinities between topics such as Pythagorean ecology and the Gaia hypothesis Ovidian tropes and green phenomenology the disenchantment of Nature and the Little Ice Age and early modern pastoral poetry and modern environmental ethics It also examines the ecological onus of Renaissance poetics while showcasing how the Elizabethans sense of a sophisticated interplay between nature and art can provide a precedent for ecocriticism's current understanding of the relationship between nature and culture as mutually constructive Situating plays and poems alongside an eclectic array of secondary sources including herbals forestry laws husbandry manuals almanacs and philosophical treatises on politics and ethics Borlik demonstrates that Elizabethan and Jacobean authors were very much aware of and concerned about the impact of human beings on their natural surroundings *The Return of Theory in Early Modern English Studies* E. Aston, B. Reynolds, Paul Cefalu, 2016-04-30 This collection looks at the growing rapprochement between contemporary theory and early modern English literary cultural studies With sections on posthumanism and cognitive science political theology and rematerialism and performance the essays incorporate recent theoretical inquiries into new readings of early modern texts
