Studies In Freemasonry And The Compagnonnage:

Studies in Freemasonry and the Compagnonnage René Guénon, 2004 Ren Gu non 1886 1951 was one of the great luminaries of the twentieth century whose critique of the modern world has stood fast against the shifting sands of intellectual fashion His extensive writings now finally available in English are a providential treasure trove for the modern seeker while pointing ceaselessly to the perennial wisdom found in past cultures ranging from the Shamanistic to the Indian and Chinese the Hellenic and Judaic the Christian and Islamic and including also Alchemy Hermeticism and other esoteric currents they direct the reader also to the deepest level of religious praxis emphasizing the need for affiliation with a revealed tradition even while acknowledging the final identity of all spiritual paths as they approach the summit of spiritual realization Studies in Freemasonry and the Compagnonnage is both an attempt to rediscover the lost roots of Masonry and a fascinating look into the many controversies swirling around the subject of Masonry in serious intellectual circles during the first half of the twentieth century It must also be classed along with Symbols of Sacred Science Spiritual Authority and Temporal Power Traditional Forms and Cosmic Cycles The Esoterism of Dante Insights into Christian Esoterism and Insights into Islamic Esoterism and Taoism not to mention related sections in many of his other books as one of Ren Gu non s masterful excursions into esoteric myth symbolism and secret history Freemasonry may indeed be as Gu non ultimately concluded a largely degenerated and thus no longer strictly operative offshoot of a true initiatory lineage yet its symbolism like that of the original Rosicrucians remains profound traditional and therefore ultimately legitimate And given that the Spirit bloweth where it listeth it is always possible that symbolism of this order may awaken in a receptive soul intimations of the Truth and the Way which can be of inestimable of value in the path to the Path the quest for a living initiatory spirituality

Freemasonry Giuliano Di Bernardo, 2020-01-20 Freemasonry A Philosophical Investigation By Giuliano Di Bernardo The purpose of this investigation is to answer the following questions Is there a philosophy of Freemasonry And if there is what is the philosophy that characterizes Masonic thought Is there a Masonic anthropology What relationship can there be between it and the anthropologies that are based on other visions of life In what documents is this anthropology codified Masonic thought is not the expression of a philosophy if by philosophy we mean a complete system containing the totality of the areas traditionally contemplated by philosophical reflection However Freemasonry is upheld by a specific practical philosophy that concerns man his nature and his purposes This is why the essential core of practical Masonic philosophy is Masonic anthropology During the course of Freemasonry Masonic thought has also developed a discourse about man even defining and codifying some of his essential characteristics which can be grouped into the quintuple Of these freedom and transcendence are the two fundamental notions around which the entire Masonic anthropological system is centered These theoretical conclusions are supported by historical sources of Freemasonry formed by Anderson s Constitutions and Declarations of the United Grand Lodge of England In spite of the multiplicity of sources and the difficulties interpreting

them we can identify a stable and unitary Masonic thought This provides an initial contribution to the philosophical interpretation of Freemasonry and its image of man **Alchemically Stoned - The Psychedelic Secret of Freemasonry** P.D. Newman,2017-06-21 P D Newman s bold and daring theory provides a radical interpretation of Masonic symbolism In the tradition of Wasson Hofmann and Ruck in The Road to Eleusis Unveiling the Secret of the Mysteries 1978 and Heinrich s Strange Fruit Alchemy Religion and Magical Foods 1995 Newman suggests that practical psychoactive pharmacology rather than philosophy lies concealed in the root of some of our allegories and mysteries Admitting to being more than a mere theoretician Newman draws from his own personal experiences and a wide range of sources in presenting his theory in a logical manner which merits consideration Arturo De Hoyos 33 Grand Archivist and Grand Historian Ancient and Accepted Scottish Rite Southern Jurisdiction **Studies in Hinduism** René Guénon,2001 Ren Gu non 1886 1951 was one of the great luminaries of the twentieth century whose critique of the modern world has stood fast against the shifting sands of intellectual fashion His extensive writings now finally available in English are a providential treasure trove for the modern seeker while pointing ceaselessly to the perennial wisdom found in past cultures ranging from the Shamanistic to the Indian and Chinese the Hellenic and Judaic the Christian and Islamic and including also Alchemy Hermeticism and other esoteric currents they direct the reader also to the deepest level of religious praxis emphasizing the need for affiliation with a revealed tradition even while acknowledging the final identity of all spiritual paths as they approach the summit of spiritual realization Studies in Hinduism consists of articles published posthumously in 1966 to which has been added Gu non s separate study La Métaphysique orientale the text of a lecture delivered at the Sorbonne Here Gu non completes his presentation of Hindu metaphysics which he considered the most primordial and comprehensive body of spiritual teaching possessed by the human race one capable of illuminating the essence of every other Tradition Of special interest are three chapters on various aspects of tantra a doctrine profoundly misunderstood in the contemporary West which Hindu authorities consider the spirituality most appropriate to the Kali Yuga as well as a chapter on the sanatana dharma the Hindu concept closest to the ancient and medieval Christian idea of the philosophia perennis which led St Augustine to declare that Christianity has always existed but only came to be so called after the coming of Christ Included are extensive reviews of books on or by Sri Ramakrishna Sri Ramana Maharshi Swami Vivekananda Sri Aurobindo Ghose Rabindranath Tagore Mircea Eliade Paul Brunton and others as well as forty pages of reviews of books and articles by Ananda K Coomaraswamy Leading Indian thinkers have called Ren Gu non the most authentic expositor of Hindu metaphysics in any Western language

Prophet for a Dark Age Graham Rooth,2008-03-14 Rene Guenon is a major figure for anyone who recognises a need to rediscover the spiritual roots from which Western society has become so comprehensively alienated Immersing himself in the search for spiritual truth he chose Islam as the vehicle for his spiritual life **Symbols of Sacred Science** René Guénon,2004 In Symbols of Sacred Science Gu non a master of precise even mathematical metaphysical exposition reveals

himself as a consummate exegete of myth and symbolism as well superior in many ways to Mircea Eliade and comparable perhaps only to his respected friend Ananda K Coomaraswamy This extraordinary text unveils the cosmological meanings of root symbols organized under such general headings as The Center of the World Cyclic Manifestation Symbolic Weapons Axial Symbolism and the Symbolism of Passage The Symbolism of Building and The Symbolism of the Heart Far more than a simple catalogue of myths and symbols from many traditions Symbols of the Sacred Science lays the foundation for a universal esoteric symbology In this work Gu non demonstrates the fundamental unity across all cultures and ages of the images with which the Absolute clothes itself in its cosmic self revelation Ritual America Craig Heimbichner, Adam Parfrey, 2012-03-06 Adam Parfrey is one of the nation's most provocative publishers Seattle Weekly Secret society historian Craig Heimbichner follows the Middle Path to wisdom He works the graveyard shift in the secret lodge Joan d Arc Paranoia magazine Secret societies now a staple of bestseller novels are pictured as sinister cults that use hooded albinos to menace truth seekers Some conspiracy books claim that fraternal orders are the work of serpentine aliens and interbred humans who wish to supplant earth of its energy and later its very existence On the other side of the aisle books by high ranked Freemasons skeptical in tone but no less partisan in approach protect their organization's public image by denying the existence of its most contentious ideas Ritual America reveals the biggest secret of them all that the influence of fraternal brotherhoods on this country is vast fundamental and hidden in plain view In the early twentieth century as many as one third of America belonged to a secret society And though fezzes and tiny car parades are almost a thing of the past the Gnostic beliefs of Masonic orders are now so much a part of the American mind that the surrounding pomp and circumstance has become faintly unnecessary The authors of Ritual America contextualize hundreds of rare and many never before printed images with entertaining and far reaching commentary making an esoteric subject provocative exciting and approachable Adam Parfrey is the author of Cult Rapture Revelations of the Apocalyptic Mind and It's a Man's World Men's Adventure Magazines the Postwar Pulps He is editor of the influential Apocalypse Culture series Love Sex Fear Death The Inside Story of the Process Church of the Final Judgment Craig Heimbichner has recently appeared on a National Geographic documentary about the Bohemian Grove contributed to the Feral House compilation Secret and Suppressed II and wrote about the famous occult order the O T O in Blood and Altar *The Reign of Quantity & the Signs of the Times* René Guénon, 2001 Critique of modern Western civilization from the point of view of traditional metaphysics **The Apocalypse of the Aquarian Age** Albert Amao Soria Ph.D., 2021-02-23 Humanity has stepped at the beginning of the Water Carrier Age's threshold Its influence is gradually being felt in all areas of life This is the time for spiritual renewal and the turning point for the shifting of consciousness Contrary to the period of mental bondage prejudice and religious bigotry which was the Piscean Era characteristic we are awakening to another chapter of human history leading to the realization of the Oneness of life and the human race's interconnectedness The world is currently undergoing radical socio economic and political

upheavals because we are transitioning from one chapter of human history to another Some religious leaders and sensationalistic New Age writers have taken these dramatic changes as signs of the end of the world Contrary to that this work postulate that the challenging events indicate the close of one chapter of human history and the beginning of a new one We embrace and celebrate the coming of a new age of enlightenment the awareness of human beings brotherhood **The Reign of Quantity and the Signs of the Times** René Guénon,2001 The Reign of Quantity gives a concise but comprehensive view of the present state of affairs in the world as it appears from the point of view of the ancient wisdom formerly common both to the East and to the West but now almost entirely lost sight of The author indicates with his fabled clarity and directness the precise nature of the modern deviation and devotes special attention to the development of modern philosophy and science and to the part played by them with their accompanying notions of progress and evolution in the formation of the industrial and democratic society which we now regard as normal Gu non sees history as a descent from Form or Quality toward Matter or Quantity but after the Reign of Quantity modern materialism and the rise of the masses Gu non predicts a reign of inverted quality just before the end of the age the triumph of the counter initiation the kingdom of Antichrist This text is considered the magnum opus among Gu non s texts of civilizational criticism as is Symbols of Sacred Science among his studies on symbols and cosmology and Man and His Becoming according to the Vedanta among his more purely metaphysical works
