Studies In Literature:

The Quality of Literature Willie van Peer, 2008 Evaluation is central to literary studies and has led to an impressive list of publications on the status and history of the canon Yet it is remarkable how little attention has been given to the role of textual properties in evaluative processes Most of the chapters in *The Quality of Literature* redress this issue by dealing with texts or genres ranging from classical antiquity via Renaissance to twentieth century They provide a rich textual and historical panorama of how critical debate over literary quality has influenced our modes of thinking and feeling about literature and how they continue to shape the current literary landscape Four theoretical chapters reflect on the general state of literary evaluation while the introduction weaves the different threads together aiming at further conceptual clarification This book thus contributes to a deeper understanding of the problems that are at the heart of past and present debates over literary quality

Short Studies in Literature (Classic Reprint) Hamilton Wright Mabie, 2015-07-07 Excerpt from *Short Studies in Literature* That these brief chapters may prove helpful to readers of books who desire to become students of literature is the hope which the writer ventures to cherish in the face of defects more obvious to him than to the most unsympathetic critic These studies are not critical but interpretative they are neither exhaustive nor inclusive they are mainly hints and suggestions Each chapter might be elaborated into a volume If they serve to indicate the leading lines of literary development the fundamental divisions and distinctions the deep and vital tendencies they will accomplish the end for which they were written That they represent deep convictions concerning the significance of literature rather than a purely critical attitude will be apparent to the most indifferent reader About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The Manipulation of Literature (Routledge Revivals) Theo Hermans, 2014-08-07 First published in 1985 the essays in this edited collection offer a representative sample of the descriptive and systematic approach to the study of literary translation The book is a reflection of the theoretical thinking and practical research carried out by an international group of scholars who share a common standpoint They argue the need for a rigorous scientific approach the phenomena of translation one of the most significant branches of Comparative Literature and regard it as essential to link the study of particular translated texts with a broader methodological position Considering both broadly theoretical topics and particular cases and traditions this volume will appeal to a wide range of students and scholars across disciplines

The Anatomy of Literary Studies (Routledge Revivals) Marjorie Boulton, 2014-06-17 First published in 1980 *The Anatomy of Literary Studies* provides

students of English Literature with a clearer understanding of the significance and scope of the subject and a comprehensive background to its study It gives pointers towards intellectual integrity and advice on independent study libraries essay writing and examinations This reissue of Marjorie Boulton s classic work will be of particular value to students studying English at university or those applying to a course who would like a fuller understanding of what it might entail **Studies in English Literature** William Swinton,1887 New Studies in Literature Edward Dowden,1895 **The English Handbook** William Whitla,2010 This handbook brings together a combination of traditional and contemporary methods for literary analysis of fiction drama and poetry making it a wide ranging and accessible reference tool With a companion website providing summaries and additional resources it provides a balance of academic rigor and practical information

Literature, Culture, and Society Andrew Milner,1996-07 Amidst continuing debates about the literary canon *Literature Culture and Society* poses a revealing question if academics find it valuable and stimulating to discuss texts ranging from Genesis to Bladerunner in their leisure time why do they act as if this is sacrosanct in their formal work In this well argued and refreshing discussion of the history and importance of literary criticism Milner embraces a reality that many in the academy still fear that cultural studies is alive and it s here to stay Andrew Milner begins with an introduction to the field of cultural studies and its parent disciplines of English literature and sociology He reviews the defining terms and the theoretical traditions in a manner that is sophisticated but accessible He discusses just how and why cultural studies evolved and what it has to offer our appraisal of all texts be they old or new print or film Milner eschews both cultural populism and literary elitism in favor of a criticism that is more concerned with value than with exclusion The author concludes this significant and insightful book with a demonstration of his theories tying together a group of narratives ranging from Paradise Lost to the latest Frankenstein films *Literature Culture and Society* cogently examines the question of scholarship and forcefully demonstrates that rigorous academic inquiry need not be reserved for dust covered texts alone *The Handbook to Literary Research* Delia da Sousa Correa,W. R. Owens,2009-09-10 This unique student resource is specifically designed for those beginning an MA in Literature providing an introduction to research techniques methodologies and information sources relevant to the study of literature at postgraduate level *Index Catalog of the Scranton Public Library Authors and Subjects, June 30, 1902* Scranton Public Library,1903
