Studies In Russian Historical Geography V 1:

Peopling the Russian Periphery Nicholas Breyfogle,Abby Schrader,Willard Sunderland,2007-11-02 Though usually forgotten in general surveys of European colonization the Russians were among the greatest colonizers of the Old World eventually settling across most of the immense expanse of Northern Europe and Asia from the Baltic and the Pacific and from the Arctic Ocean to Central Asia This book makes a unique contribution to our understanding of the Eurasian past by examining the policies practices cultural representations and daily life experiences of Slavic settlement in non Russian regions of Eurasia from the time of Ivan the Terrible to the nuclear era The movement of tens of millions of Slavic settlers was a central component of Russian empire building and of the everyday life of numerous social and ethnic groups and remains a crucial regional security issue today yet it remains relatively understudied Peopling the Russian Periphery redresses this omission through a detailed exploration of the varied meanings and dynamics of Slavic settlement from the sixteenth century to the 1960s Providing an account of the different approaches of settlement and expansion that were adopted in different periods of history it includes detailed case studies of particular episodes of migration Written by upcoming and established experts in Russian history with exceptional geographical and chronological breadth this book provides a thorough examination of the history of Slavic settlement and migration from the Muscovite to the Soviet era It will be of great interest to students and scholars of Russian history comparative history of colonization migration interethnic contact environmental history and European Imperialism **The Petrine Revolution in Russian Architecture** James Cracraft,1988-10-26 In this highly original book James Cracraft provides a major case study of the cultural revolution in Russia initiated by Peter the Great tsar and first emperor 1682 1725 He recounts in fascinating detail how modern standards of architecture supplanted traditional norms in Russia following a massive injection of European expertise and indicates how thereby the modern Russian built world came into being The first comprehensive study of the Petrine revolution in Russian architecture to be published in any language the book includes nearly 250 illustrations many of them original photographs appearing here for the first time **The Grand Strategy of the Russian Empire, 1650-1831** John P. LeDonne,2004 At its height the Russian empire covered eleven time zones and stretched from Scandinavia to the Pacific Ocean Arguing against the traditional historical view that Russia surrounded and threatened by enemies was always on the defensive John P LeDonne contends that Russia developed a long term strategy not in response to immediate threats but in line with its own expansionist urges to control the Eurasian Heartland LeDonne narrates how the government from Moscow and Petersburg expanded the empire by deploying its army as well as by extending its patronage to frontier societies in return for their serving the interests of the empire He considers three theaters on which the Russians expanded the Western Baltic Germany Poland the Southern Ottoman and Persian Empires and the Eastern China Siberia Central Asia In his analysis of military power he weighs the role of geography and locale as well as economic issues in the evolution of a larger imperial strategy

Rather than viewing Russia as peripheral to European Great Power politics LeDonne makes a powerful case for Russia as an expansionist militaristic and authoritarian regime that challenged the great states and empires of its time **Russian Colonization and the Genesis of Kazak National Consciousness** S. Sabol,2003-03-13 This study concentrates upon the socio political and nationalist views of three influential representatives of the early twentieth century Kazak intelligentsia Alikhan Bokeilhanov Akhmet Baitursynov and Mukhamedzhan Seralin The resulting discourse on literature education and politics shaped the Kazak nationalist movement before 1920 This study draws on the published works of the Kazak intelligentsia the periodicals Ai qap 1911 1915 and Kazak 1913 1918 and archival records from the Central State Archives of the Republic of Kazakstan Law and Custom in the Steppe Virginia Martin,2012-10-12 Offers a reconstruction of the social cultural and legal history of the Middle Horde Kazakh steppe in the 19th century using largely untapped archival records from Kazakhstan and Russia and contemporary reports It explores the cross cultural encounter of laws customs and judicial practices in the process of Russian empire building at the local level **Agrarian Change and Crisis in Europe, 1200-1500** Harilaos Kitsikopoulos,2012-03-15 Agrarian Change and Crisis in Europe 1200 1500 addresses one of the classic subjects on economic history the process of aggregate economic growth and the crisis that engulfed the European continent during the late Middle Ages This was not an ordinary crisis During the period 1200 1500 Europe witnessed endemic episodes of famine and a wave of plague epidemics that amounted to one of its worst health crises rivaled only by the Justinian plague in the sixth century These challenges called into question the production of goods and services and the distribution of wealth opening the possibility of fundamental systemic change This book offers an empirical synthesis on a host of economic demographic and technological developments which characterized the period 1200 1500 It covers virtually the entire continent and places equal emphasis both on providing a solid factual framework and comparing and contrasting various theoretical interpretations The broad geographical and conceptual scope of the book renders it indispensable not only for undergraduate students who take courses relating to the economic and social life of the Middle Ages but also to more advanced scholars who often specialize in only one country or region *Bibliography of Social Science Periodicals and Monograph Series* United States. Bureau of the Census,1965 **On the Religious Frontier** Firouzeh Mostashari,2017-05-30 Modern Russia s turbulent relations with its Muslim frontiers date back centuries Indeed the nineteenth century when the Muslim Caucasus first came under Russian rule witnessed many of the historical antecedents to today s violent confrontations With this in mind On The Religious Frontier examines the history of Muslim Azerbaijan under Christian Orthodox Russian imperial rule and the attempts of the Russian administrators of the Caucasus to integrate the region into the empire Drawing on original archival research from across Azerbaijan and Russia Firouzeh Mostashari considers the formation of a Russian colonial administration in the Muslim Caucasus subsequent social political and economic developments and the local responses to conquest military rule and Russification From 1804 to the Bolshevik

Revolution of 1917 On The Religious Frontier offers a fascinating and timely insight into both the period itself and the ways in which the seeds of recent conflict were sown in tsarist Russia This is important reading for all scholars of the history and politics of the Caucasus as well as those with an interest in imperial Russia and its relationship with minority groups

Shatterzone of Empires Omer Bartov,Eric D. Weitz,2013 From the Baltic to the Black Sea four major empires with ethnically and religiously diverse populations encountered each other along often changing and contested borders Examining this geographically vast multicultural region through a variety of methodological lenses this volume offers informed and dispassionate analyses of how the many populations of these borderlands managed to coexist in a previous era and why the areas eventually descended into violence An understanding of this region will help readers grasp the preconditions of interethnic coexistence and the causes of ethnic violence and war in many of the world s other borderlands both past and present Taming the Wild Field Willard Sunderland,2016-03-10 Stretching from the tributaries of the Danube to the Urals and from the Russian forests to the Black and Caspian seas the vast European steppe has for centuries played very different roles in the Russian imagination To the Grand Princes of Kiev and Muscovy it was the wild field a region inhabited by nomadic Turko Mongolic peoples who repeatedly threatened the fragile Slavic settlements to the north For the emperors and empresses of imperial Russia it was a land of boundless economic promise and a marker of national cultural prowess By the mid nineteenth century the steppe once so alien and threatening had emerged as an essential if complicated symbol of Russia itself Traversing a thousand years of the region s history Willard Sunderland recounts the complex process of Russian expansion and colonization stressing the way outsider settlement at once created the steppe as a region of empire and was itself constantly changing The story is populated by a colorful array of administrators Cossack adventurers Orthodox missionaries geographers foreign entrepreneurs peasants and by the late nineteenth century tourists and conservationists Sunderland s approach to history is comparative throughout and his comparisons of the steppe with the North American case are especially telling Taming the Wild Field eloquently expresses concern with the fate of the world s great grasslands and the book ends at the beginning of the twentieth century with the initiation of a conservation movement in Russia by those appalled at the high environmental cost of expansion
