Studios Architecture Selected Current:

STUDIOS Architecture STUDIOS Architecture, 2002 STUDIOS Architecture has many years of experience in making communities for corporations. In the early years much of STUDIOS work was concerned with the design of corporate campuses. The firm's aim was to humanise the workplace and provide a face to these little villages it designed. STUDIOS architectural language is now more varied to fit a diverse practice where the boundaries between work culture, technology and society have been blurred yet is grounded in a sense of humanity. Featured projects in this publication include a selection of the firm's corporate works as well as civic and institutional buildings. **Architecture Studio** Architecture studio (Group : Paris, France), 1996 Established in Paris in 1973 Architecture Studio today integrates the work of associate architects, architects, city planners, engineers and interior designers from many countries. A highlight of their work is shown here.

development *Architectural Possibilities in the Work of Eisenman* Michael Jasper, 2022-11-11 This book examines the central decades of Peter Eisenman's work through a formal and thematic analysis of key architectural projects and writings revealing underlying characteristics and arguing for their productive continuity and transformative role. The book explores Eisenman's approach to architectural form generation and thinking. It does this through a thematic and formal analysis of projects and writings from the mid 1970s to the mid 1990s. Following an introductory chapter addressing the theme of potentialities, the book is organised in two parts. The first part focuses on key period writings of Eisenman framing the close reading around a practice of resistance, the architect's approach to history as analysis and the transformative conceptualisation of time. In the second part, the book undertakes an analysis of select projects from the 1980s and 1990s. Three formal preoccupations and conceptual orientations ground manipulations, figuration and spatial events organise this part of the book. Previously unpublished material from the Peter Eisenman fonds, Canadian Centre for Architecture, Montréal provides primary source material. A concluding chapter addresses Eisenman's teaching, its relation to his larger project and possible legacies for educators, practitioners, scholars and theorists.

Architect's Drawings A Selection of Sketches by World Famous Architects through History, 2025-08-31 Architect's Drawings: A Selection of Sketches by Architects Through History is a fascinating journey into the role of sketches in the design process. From the Renaissance to contemporary practice, this book explores how architects have used drawings not just as technical tools but as instruments of imagination, inspiration and communication.

The American Architect, 1909 **Transformative Pedagogy in Architecture and Urbanism** Ashraf M. Salama, 2021-03-04 First published in 2009, *Transformative Pedagogy in Architecture and Urbanism* is a detailed round of pedagogical dialogue on architecture and urbanism that resets the stage for debating future visions of transformative pedagogy and its impact on design education. Structured in five chapters, the book presents a wide range of innovative concepts and practical methodologies for teaching architectural and urban design. It traces the roots of architectural education and offers several contrasting ideas and strategies of design teaching practices. *Transformative Pedagogy in Architecture and Urbanism* will appeal to those with an interest in architectural and urban design and architectural and design education.
