

The background of the cover is a painting of a large, ruined Gothic cathedral. The view is from inside the ruins, looking out through a large, broken archway. In the center, a tall, slender spire rises into a pale sky. To the right, the ornate facade of the cathedral is visible, though partially ruined. The architecture is made of reddish-brown stone. The overall mood is one of historical grandeur and decay.

Thomas Hardy's
Jude the Obscure

A Critical Study

Study Of Thomas Hardy

Michael Rajnik

Study Of Thomas Hardy:

Study of Thomas Hardy and Other Essays D. H. Lawrence, 1985-07-25 D H Lawrence's Study of Thomas Hardy written in the early months of World War I was originally intended to be a short critical work on Hardy's characters but developed into a major statement of Lawrence's philosophy of art The introduction to this work shows its relation to Lawrence's final rewriting of *The Rainbow* and its place among his continual attempts to express his philosophy in a definitive form Previously published posthumously from a corrupt typescript the Study is now more firmly based on Koteliansky's typescript Lawrence having destroyed the manuscript The other essays in this volume span virtually the whole of Lawrence's writing career from *Art and the Individual* 1908 to his last essay *John Galsworthy* written in 1927 The introduction sets these essays in the context of Lawrence's life and work The textual apparatus gives variant readings and explanatory notes identify references and quotations and offer background information

Study of Thomas Hardy D. H. Lawrence, 2019-02-20 The celebrated novelist and poet presents his philosophy of literature and art through an in depth analysis of Thomas Hardy in this restored edition Though D H Lawrence was one of the great writers of the twentieth century his works were severely corrupted by the stringent house styling of printers and the intrusive editing of timid publishers A team of scholars at Cambridge University Press has worked for more than thirty years to restore the definitive texts of D H Lawrence in The Cambridge Editions Originally intended to be a short critical work on fellow English novelist Thomas Hardy's characters D H Lawrence's Study of Thomas Hardy developed into a sweeping articulation of his views on literature and art Though Lawrence destroyed the original manuscript the work was published posthumously This restored and authoritative edition also includes essays spanning the whole of Lawrence's writing career with an introduction contextualizing them within Lawrence's life and work

Thomas Hardy's Shorter Fiction Sophie Gilmartin, 2007-12-15 This critical study of Hardy's short stories provides a thorough account of the ruling preoccupations and recurrent writing strategies of his entire corpus as well as providing detailed readings of several individual texts It relates the formal choices imposed on Hardy as contributor to *Blackwood's Magazine* and other periodicals to the methods he employed to encode in fiction his troubled attitude towards the social politics of the West Country where most of the stories are set No previous criticism has shown how the powerful challenges to the reader mounted in Hardy's later stories reveal the complexity of his motivations during a period when he was moving progressively in the direction of exchanging fiction for poetry Unique in providing a comprehensive criticism of Hardy's entire output of short stories Full detailed close readings of a number of key stories make this useful as a potential teaching resource Draws on the work of social historians to make clear the background of social and political unrest in Dorset that is partly uncovered and partly hidden in Hardy's portrayals of his fictional Wessex Offers fascinating insights into Hardy's near obsession in his mature phase with the marriage contract and with its legal binding of erratic men and women
