Samuel S. Kim

Studying The World And The United Nations System:

China, the United Nations and World Order Samuel S. Kim, 2015-03-08 China's role in the United Nations has been a significant one. Yet Samuel Kim contends as far as the literature on Chinese foreign policy is concerned the People's Republic of China still remains outside the heuristic framework of the global community. In a comprehensive macro analysis of Chinese global politics Professor Kim probes China's image and strategy of world order as manifested through its behavior in the UN. The author draws upon a wide range of previously untapped primary sources including China's policy pronouncements and voting record and over a hundred personal interviews with UN delegates and international civil servants. He finds that Chinese participation has made the United Nations not only more representative but also more relevant as the global political institution responding to the challenge of establishing a more humane and just world order. Originally published in 1979. Resources in Education, 1990-10 Modernizing the United Nations System John E. Trent, 2007-06-20 This book contends that civil society must mobilize its capacities to bring a new will to national and international politics and oblige governments to act. It starts by demonstrating the need for institutional change at the UN and then shows how both in the past and the present leading individuals and nongovernmental organizations using their knowledge base and their organizational networks have led the fight for international organizations. After a summary of major UN reform proposals over the years the book concludes by identifying leading global reformers and elaborating a detailed plan for a global reform movement to spearhead the modernization of the UN system.

Reforming the UN System Carlos A. Magariños, George Assaf, Sanjaya Lall, John D.- Martinussen, Rubens Ricupero, Francisco Sercovich, 2021-10-01 This volume discusses the rationale for and against multilateral development cooperation with particular attention to international industrial development during the post cold war era. It also documents how UNIDO has successfully transformed itself to contribute effectively to the global supply of international public goods within the purview of its mandate. A foreword by U.K. Secretary Clare Short illustrates the good reception that such transformation has elicited amongst the donor community as well as its demonstration and potential spillover effects on the whole of the UN system. The book which contains testimonies of ambassadors of UNIDO's stakeholder countries as well as contributions by Messrs J. D. Martinussen former Head of the Danish Mission for UNIDO's assessment and R. Ricupero Secretary General of the United Nations Conference for Trade and

Department of State. Office of Media Services,1970 **Transforming the United Nations System** Joseph E. Schwartzberg,2016-09-02 Global problems require global solutions The United Nations as presently constituted however is incapable of addressing many global problems effectively One nation one vote decisionmaking in most UN agencies fails to reflect the distribution of power in the world at large while the allocation of power in the Security Council is both unfair and anachronistic Hence nations are reluctant to endow the United Nations with the authority and the resources it needs Extensive reform is essential This analysis is rooted in the proposition that the design of decisionmaking systems greatly affects their legitimacy and effectiveness Joseph Schwartzberg proposes numerous systemic improvements to the UN system largely through weighted voting formulas that balance the needs of shareholders and stakeholders in diverse agencies It indicates ways in which the interests of regions can supplement those of nations while voices of nongovernmental organizations and ordinary citizens can also be heard In numerous contexts it promotes meritocracy and gender equity The book s aim is not to create an unrealistic utopia but rather to establish a workable world in which the force of law supplants the law of force a world committed to justice and continuous yet sustainable development The author argues that given the many existential threats now confronting our planet the time frame for decisive action is short The task is daunting and success is not guaranteed but in view of the urgency of our situation we can find ways of mustering the will imagination and resources to do the job

Department of State,1959 **A Changing United Nations** W. Knight,2000-10-19 The United Nations is at a critical juncture It is faced with two distinct choices to remain a decision frozen in time or to develop a long term adaptation agenda and strategy that would allow it to be a relevant institution of global governance for the twenty first century Reform and reflexive institutional adjustments have failed to address underlying problems facing this organization After fifty five years of existence it is still considered an inefficient and ineffective world body Worse yet its relevance is being questioned This study offers a critique of existing UN change processes and then shifts focus to considerations of institutional learning strategies that would allow the UN to maintain relevance amidst the evolution of global governance arrangements
