The Flour War Cynthia Bouton, 2010-11 In the spring of 1775 a series of food riots shook the villages and countryside around Paris For decades France had been free of famine but the fall grain harvest had been meager and the government of the newly crowned King Louis XVI had issued an untimely edict allowing the free commerce of grain within the kingdom Prices skyrocketed causing riots to break out in April first in the market town of Beaumont sur Oise then sweeping through the Paris Basin for the next three weeks Known as the Flour War or the guerre des farines these riots are the subject of Cynthia Bouton's fascinating study Building upon French historian George Rud's pioneering work Bouton identifies communities of participants and victims in the Flour War analyzing them according to class occupation gender and location As typically happened crowds of common people menu people confronted those who controlled the grain bakers merchants millers cultivators and local authorities Bouton asks why women of the menu people were heavily represented in the riots often assuming crucial roles as instigators and leaders In most instances the people did not steal the provisions but forced those they cornered to sell at a price the rioters deemed just Bouton examines this phenomenon known as taxation populaire and considers the growing

sophistication of purpose of rioters by placing the Flour War within the larger context of food riots in early modern Europe
