Body/Self/Other Luna Dolezal, Danielle Petherbridge, 2017-07-25 Examines the lived experience of social encounters drawing on phenomenological insights *Body Self Other* brings together a variety of phenomenological perspectives to examine the complexity of social encounters across a range of social political and ethical issues It investigates the materiality of social encounters and the habitual attitudes that structure lived experience In particular the contributors examine how constructions of race gender sexuality criminality and medicalized forms of subjectivity affect perception and social interaction Grounded in practical everyday experiences this book provides a theoretical framework that considers the extent to which fundamental ethical obligations arise from the fact of individuals intercorporeality and sociality

The ^AMismeasure of Desire David E. Stannard, 1993-11-18 For four hundred years from the first Spanish assaults against the Arawak people of Hispaniola in the 1490s to the U S Army s massacre of Sioux Indians at Wounded Knee in the 1890s the indigenous inhabitants of North and South America endured an unending firestorm of violence During that time the native population of the Western Hemisphere declined by as many as 100 million people Indeed as historian David E Stannard argues in this stunning new book the European and white American destruction of the native peoples of the Americas was the most massive act of genocide in the history of the world Stannard begins with a portrait of the enormous richness and diversity of life in the Americas prior to Columbus s fateful voyage in 1492 He then follows the path of genocide from the Indies to Mexico and Central and South America then north to Florida Virginia and New England and finally out across the Great Plains and Southwest to California and the North Pacific Coast

Stannard reveals that wherever Europeans or white Americans went the native people were caught between imported plagues and barbarous atrocities typically resulting in the annihilation of 95 percent of their populations What kind of people he asks do such horrendous things to others His highly provocative answer Christians Digging deeply into ancient European and Christian attitudes toward sex race and war he finds the cultural ground well prepared by the end of the Middle Ages for the centuries long genocide campaign that Europeans and their descendants launched and in places continue to wage against the New World s original inhabitants Advancing a thesis that is sure to create much controversy Stannard contends that the perpetrators of the American Holocaust drew on the same ideological wellspring as did the later architects of the Nazi Holocaust It is an ideology that remains dangerously alive today he adds and one that in recent years has surfaced in American justifications for large scale military intervention in Southeast Asia and the Middle East At once sweeping in scope and meticulously detailed American Holocaust is a work of impassioned scholarship that is certain to ignite intense historical and moral debate *A Handbook of Pathological Anatomy and Histology* Francis Delafield, Theophil Mitchell Prudden, 1889

The Second Birth Tilo Schabert, 2015-11-20 Most scholars link the origin of politics to the formation of human societies but in this innovative work Tilo Schabert takes it even further back to our very births Drawing on mythical philosophical religious and political thought from around the globe including America Europe the Middle East and China *The Second Birth* proposes a transhistorical and transcultural theory of politics rooted in political cosmology With impressive erudition Schabert explores the physical fundamentals of political life unveiling a profound new insight our bodies actually teach us politics Schabert traces different figurations of power inherent to our singular existence things such as numbers time thought and desire showing how they render our lives political ones and thus how politics exists in us individually long before it plays a role in the establishment of societies and institutions Through these figurations of power Schabert argues we learn how to institute our own government within the political forces that already surround us to create our own world within the one into which we have been born In a stunning vision of human agency this book ultimately sketches a political cosmos in which we are all builders in which we can be at once political and free **Son of the Morning Star** Evan S. Connell, 1984

Stunning photographs of the famed battle at Little Bighorn highlight this impressive volume containing a vivid non fiction narrative of General Custer s last battle **Bodies Out of Bounds** Jana Evans Braziel, Kathleen LeBesco, 2001-09-13 This is an exceptional collection the subject is of obvious importance yet terribly undertheorized and unexamined I know of no other work that offers what this collection provides Marcia Millman author of *Such a Pretty Face Being Fat in America* A valuable contribution to scholarly debates on the place of excessive bodies in contemporary culture This book promises to enrich all areas of inquiry related to the politics of bodies Carole Spitzack author of *Confessing Excess Women and the Politics of Body Reduction* This anthology includes a wide range of perceptive and original essays which explore and analyze the underlying ideologies that have made fat incorrect Echoing the spirit of the nineteenth century adage about children who should be

neither seen nor heard some of the authors powerfully remind us that we keep bodies out of bound silenced and unseen unless of course we need to peek at the comic or grotesque Raquel Salgado Scherr co author of Face Value The Politics of Beauty Through textual analyses video film analyses television theory and literary theory this collection demonstrates the various ways in which dominant representations of fat and corpulence have been both demonized and rendered invisible This volume will be a crucial corollary to work on the tyranny of slenderness a collection of different perspectives on the fat body is sorely missing in women s studies communication and media studies Sarah Banet Weiser author of The Most Beautiful Girl in the World Beauty Pageants and National Identity *Roscoe's Digest of the Law of Evidence in Criminal Cases* Henry Roscoe, Horace Smith, 1874 **Compiled Statutes of New Jersey: clams and oysters - interstate park** New Jersey, 1925

Authentic Movement: Moving the Body, Moving the Self, Being Moved Patrizia Pallaro, 2007-01-15 This second volume on Authentic Movement a new discipline aiding the creative process in the expressive arts is an engaging and dynamic collection of scholarly essays personal stories practical suggestions and resources It reflects cutting edge work on creative expression meditative discipline and psychotherapeutic endeavour Beyond Monotheism Laurel Schneider, 2007-11-13 Laurel Schneider takes the reader on a vivid journey from the origins of the logic of the One only recently dubbed monotheism through to the modern day where monotheism has increasingly failed to adequately address spiritual scientific and ethical experiences in the changing world In Part I Schneider traces a trajectory from the ancient history of monotheism and multiplicity in Greece Israel and Africa through the Constantinian valorization of the logic of the One to medieval and modern challenges to that logic in poetry and science She pursues an alternative and constructive approach in Part II a logic of multiplicity already resident in Christian traditions in which the complexity of life and the presence of God may be better articulated Part III takes up the open ended question of ethics from within that multiplicity exploring the implications of this radical and realistic new theology for the questions that lie underneath theological construction questions of belonging and nationalism of the possibility of love and of unity In this groundbreaking work of contemporary theology Schneider shows that the One is not lost in divine multiplicity and that in spite of its abstractions divine multiplicity is realistic and worldly impossible ultimately to abstract *The Human Body* H.
