Shugend practitioners offering sumo bouts to the gods to soccer players of all ages praying for success at Shint shrines from the use of meditation and ritual in martial arts to gain focus or superhuman abilities to religious organizations sponsoring sporting events and teams and school sports clubs Religion and Sport in Japan brings together historians and sport and religious studies specialists from Japan the US and Europe to address sport s ties to corporate and national identity politics environmentalism ritual and sacred space Major themes discussed include the spiritual geographies of sport sport as invented tradition technologies of self material culture and civil religion The chapters are written so that sport historians with no background in the study of Japan or religious studies scholars who have never before examined the world of sport will find the material accessible To provide further grounding for non field specialists the volume begins with two background chapters that introduce sport studies in Japan and the study of religion and sport
