## **Taking The High Road Communities Organize For Economic Change:**

**Taking the High Road** David B. Reynolds, 2002 This work examines the continued reality of social democracy in Europe and what lessons can be learned for the US It shows how progressive economic change is already being fought for by labour and community groups throughout America in such efforts as the Living Wage Movement

**Taking the High Road** David B Reynolds, 2016-09-16 This book presents a vision for farreaching economic change in America connected to practical grassroots steps It points to an economic system in which corporate success merges with the long term welfare of the workers and the general population The author examines the continued reality of social democracy in Europe and what lessons can be learned for the U S He demonstrates how progressive economic change is already being fought for by labor and community groups throughout America in such efforts as the Living Wage Movement and the emerging battle against sprawl And he provides a wealth of concrete examples tools and ideas that everyone can use to organize for economic and social justice in their own communities

*Partnering for Change* David B Reynolds, 2021-12-16 In the past decade unions and community groups have come together around a wide range of campaigns for economic justice from fighting for living wages to electing progressive champions to questioning market oriented economic development to promoting anti sprawl smart growth efforts Partnering for Change brings together activists and intellectuals on the forefront of these organizing efforts They discuss general patterns of labor community coalitions in terms of alliances between unions and such community players as environmentalists religious groups low income organizations and local employers The contributors also offer a wealth of case studies such as the successful campaign for corporate subsidy accountability in Minnesota Vermont's Livable Wage Campaign The Wisconsin Regional Training Partnership and the model regional power building projects of the South Bay AFL CIO The volume's editor David Reynolds combines a broad overview of labor community coalitions practical examples applicable to diverse communities and an appreciation of the challenges as well as the opportunities for building the movement for economic change

*A New New Deal* Amy B. Dean, David B. Reynolds, 2011-05-15 In *A New New Deal* the labor movement leaders Amy B Dean and David B Reynolds offer a bold new plan to revitalize American labor activism and build a sense of common purpose between labor and community organizations Dean and Reynolds demonstrate how alliances organized at the regional level are the most effective tool to build a voice for working people in the workplace community and halls of government The authors draw on their own successes to offer in depth contemporary case studies of effective labor community coalitions They also outline a concrete strategy for building power at the regional level This pioneering model presents the regional building blocks for national change A diverse audience both within the labor movement and among its allies will welcome this clear detailed and inspiring presentation of regional power building tactics which include deep coalition building leadership development policy research and aggressive political action *A New New Deal* explores successful coalitions forged in Los Angeles Boston Denver San Jose New Haven and Atlanta toward goals such as universal

health insurance for children and sensible redevelopment efforts that benefit workers as well as businesses The authors view partnerships between labor and grassroots organizations as a mutually beneficial strategy based on shared goals resulting in a broadened membership base and increased organizational capacity They make the innovative argument that the labor movement can steward both industry and community and make manifest the ways in which workplace battles are not the parochial concerns of isolated workers but a fundamental struggle for America's future Drawing on historical parallels the authors illustrate how long term collaborations between labor and community organizations are sowing the seeds of a new New Deal

*The People Shall Rule* Robert Fisher, 2009-10-16 With the election of a community organizer as president of the United States the time is right to evaluate the current state of community organizing and the effectiveness of ACORN Association of Community Organizations for Reform Now Since 2002 ACORN has been dramatically expanding and raising its national profile it has also been weathering controversy over its voter registration campaigns and an internal financial scandal The twelve chapters in this volume present the perspectives of insiders like founder Wade Rathke and leading outside practitioners and academics The result is a thorough detailing of ACORN's founding and its changing strategies including vivid accounts and analyses of its campaigns on the living wage voter turnout predatory lending redlining school reform and community redevelopment as well as a critical perspective on ACORN's place in the community organizing landscape

**Workers, Power and Society** Jens Arnholtz, Bjarke Refslund, 2024-06-03 The book addresses how power and power resources remain important analytically as well as empirically dimensions for analysing contemporary capitalism It provides a theoretical framework for studying understanding and explaining changes in the world of work and how that leads to changes in contemporary capitalist societies Changes in the world of work are closely related to increasing inequality growing social unrest and societal polarisation Hence the book seeks to deepen our understanding of how developments in the sphere of work have implication far beyond the direct impact on workers The book focuses on how workers and unions utilise their various power resources to off set the power advantage of employers and capital in the sphere of labour politics which have crucial linkages with both cultural life politics and the market Although workers and unions power and influence have been declining almost universally across the world the argument in the book is that they still hold power resources that can challenge and sometimes alter outcomes in another direction than what employers and capital wants Hence the theory can help understand the possibilities that workers and unions still have and how these resources affect the outcomes of the labour capital struggle A core contribution of the book is that it develops theoretical propositions about power resource theory provides clear definitions of the core concepts as well as apply the power resource theory to a range of new or emerging topic fields like global value chains minimum wages and migrant workers

*Reforming Capitalism for the Common Good* Whalen, Charles J., 2022-08-23 In this book of carefully selected essays Charles Whalen presents constructive analyses of vital economic problems confronting the United States since the 1970s giving special attention to challenges

facing working families The analyses are grounded in Whalen's career of more than three decades during which he has gleaned insight from institutional and post Keynesian economics and contributed to national economic policy making equitable regional development and worker engagement in business decisions The result is a compelling case for reforming capitalism by addressing workers interests as an integral part of the common good and for reconstructing economics in the direction of post Keynesian institutionalism      **Urban Spaces** James Jennings, Julia Sheron Jordan-Zachery, 2010-01-01

Urban Spaces is an interdisciplinary reader focusing on community based versus corporate based political and ideological struggles over the utilization of urban land and spaces      Place Matters Peter Dreier, John Mollenkopf, Todd

Swanstrom, 2014-08-15 How can the United States create the political will to address our major urban problems poverty unemployment crime traffic congestion toxic pollution education energy consumption and housing among others That's the basic question addressed by the new edition of this award winning book Thoroughly revised and updated for its third edition Place Matters examines the major trends and problems shaping our cities and suburbs explores a range of policy solutions to address them and looks closely at the potential political coalitions needed to put the country's urban crisis back on the public agenda The problem of rising inequality is at the center of Place Matters During the past several decades the standard of living for the American middle class has stagnated the number of poor people has reached its highest level since the 1960s and the super rich have dramatically increased their share of the nation's wealth and income At the same time Americans have grown further apart in terms of where they live work and play This trend economic segregation no longer simply reflects the racial segregation between white suburbs and minority cities In cities and suburbs alike poor middle class and wealthy Americans now live in separate geographic spaces The authors have updated the case studies and examples used to illustrate the book's key themes incorporated the latest Census data and drawn on exit polls and other data to examine the voting patterns and outcomes of the 2012 elections They have expanded their discussion of how American cities are influenced by and influence global economic and social forces and how American cities compare with their counterparts in other parts of the world And they draw upon the latest research and case studies not only to examine the negative impacts of income inequality and economic segregation but also assess the efforts that civic and community groups unions business and government are making to tackle them Fully up to date and far richer and more provocative this new version surpasses its previous editions and will continue to be an essential volume for all who study urban politics and care about our cities

Labor in the New Urban Battlegrounds Lowell Turner, Daniel B. Cornfield, 2018-07-05 Labor in the New Urban Battlegrounds examines a diverse array of innovative strategies for revitalizing the labor movement by forming alliances outside the workplace with a variety of community groups social movements and faith based organizations particularly those that address civil rights immigrant rights and consumer concerns This book presents case studies of issues such as living wages community development corporations and local politics around which urban coalitions are built in union towns New

York City Boston Buffalo and Seattle frontier cities Los Angeles Miami San Jose and Nashville and European cities London Frankfurt and Hamburg Introducing the role of urban social context in the field of labor revitalization the editors have chosen cases with different outcomes cities in which strong coalitions have enabled new union influence are contrasted with those in which such coalition building has been thwarted As they survey the successes and failures of the new urban labor movement the editors and contributors conclude that actor choice strategic innovation coalition building and the urban context of labor organizing are key elements in the revitalization of the labor movement and the renewal of democracy This book will allow the labor leaders of the future to learn from the recent experiences of their peers throughout the United States and Europe     American Identities Lois P. Rudnick, Judith E. Smith, Rachel Lee Rubin, 2009-02-09 American Identities is a dazzling array of primary documents and critical essays culled from American history literature memoir and popular culture that explore major currents and trends in American history from 1945 to the present Charts the rich multiplicity of American identities through the different lenses of race class and gender and shaped by common historical social processes such as migration families work and war Includes editorial introductions for the volume and for each reading and study questions for each selection Enables students to engage in the history making process while developing the skills crucial to interpreting rich and enduring cultural texts Accompanied by an instructor's guide containing reading viewing and listening exercises interview questions bibliographies time lines and sample excerpts of students' family histories for course use

*Living Wage Movements* Deborah M. Figart, 2004-07-31 Living wage activism has spanned time and space reaching across decades and national boundaries Conditions generating living wage movements early in the twentieth century have resurfaced in the twenty first century only on a global scale sweated labour macroeconomic instability and job insecurity Upon reviewing the empirical evidence the book's contributors make strong cases both for and against living wage activism The effective blend of historical contemporary and global perspectives provides opportunities for teachers scholars and activists to evaluate how we can address low pay at the organizational and macroeconomic levels     The Political Economy of the Living Wage: A Study of Four Cities Oren M. Levin-Waldman, 2016-07-22 This book examines the movement for living wages at the local level and what it tells us about urban politics Oren M Levin Waldman studies the role that living wage campaigns may have had in recent years in altering the political landscape in four cities where they have been adopted Los Angeles Detroit Baltimore and New Orleans It is the author's belief that the living wage movements are a result of policy failure at the local level They are the by product of the failure to adequately address the changes that were occurring mainly the changing urban economic base and growing income inequality The author undertakes a scholarly analysis of the issue through the disciplinary lenses of political science while also employing some of the economists tools     Varieties of Unionism Carola Frege, John E. Kelly, 2004-08-19 As unions face an ongoing crisis all over the industrialized world they have often been portrayed as outmoded remnants of an old economic structure Varieties of Unionism presents important

comparative research and analysis of union strategy and shows why revitalization is of fundamental importance

**Foundations for Social Change** Daniel Faber, Deborah McCarthy Auriffeille, 2005-09-01 This multi disciplinary collection blends broad overviews and case studies as well as different theoretical perspectives in a critique of the relationship between United States philanthropic foundations and movements for social change Scholars and practitioners examine how these foundations support and or thwart popular social movements and address how philanthropic institutions can be more accountable and democratic in a sophisticated provocative and accessible manner Foundations for Social Change brings together the leading voices on philanthropy and social movements into a single collection and its interdisciplinary approach will appeal to scholars students foundation officials non profit advocates and social movement activists

**Economic and Political Contention in Comparative Perspective** Maria Kousis, Charles Tilly, 2015-12-03 European and American specialists in economic and political processes move beyond earlier debates to look seriously systematically and innovatively at social change and protest with particular attention to the influence of economic change and variation on contentious politics The essays take up two widely recognized but much contested questions in contentious politics how threats and opportunities faced by potential participants in joint political action affect the likelihood character and consequences of that action and how economic change and variation either a constitute significant political threats and opportunities or b shape responses to political threats and opportunities Contributors Maria Kousis Charles Tilly Marc Giugni Julie Berclaz Marc Steinberg Jeffery Broadbent Klaus Eder John K Glenn Dieter Rucht Richard Hogan Maryjane Osa Cristina Corduneanu Husi

Viable Utopian Ideas Art Shostak, 2015-06-11 Utopias whether philosophical literary or actual experiments are attempts to solve all social problems In the wake of the attack on the World Trade Center unfolding corporate scandals and other devastating shocks it is natural to search for practical lessons in utopian literature In this collection noted sociologists renew the call to develop an altruistic social order They address a wide variety of topics as they look for viable utopian ideas that can be applied to today s society Written in an engaging jargon free style and directed to introductory sociology students as well as anyone concerned with social problems the book provides both visionary ideals and insights for pragmatic decision making as we venture into an uncertain future

Strategic Corporate Social Responsibility William B. Werther, David Chandler, 2006 Strategic Corporate Social Responsibility Stakeholders in a Global Environment provides faculty and students with a comprehensive stand alone text to support traditional and innovative courses in corporate social responsibility CSR Integral to the book s unique format is the real life mini case study approach across the spectrum of CSR topics backed by Internet accessible references Adopting a stakeholder approach to CSR the content and format of this sourcebook defines CSR within the global communications environment in which multi national corporations operate today

**All You That Labor** C. Melissa Snarr, 2011-08-22 Come to me all you that labor and are heavy laden and I will give you rest Mathew 11 28 AKJV In the early 1990s a grassroots coalition of churches in Baltimore Maryland helped

launch what would become a national movement. Joining forces with labor and low wage worker organizations they passed the first municipal living wage ordinance. Since then over 144 municipalities and counties as well as numerous universities and local businesses in the United States have enacted such ordinances. Although religious persons and organizations have been important both in the origins of the living wage movement and in its continuing success they are often ignored or under analyzed. Drawing on participant observation in multiple cities *All You That Labor* analyzes and evaluates the contributions of religious activists to the movement. The book explores the ways religious organizations do this work in concert with low wage workers the challenges religious activists face and how people of faith might better nurture moral agency in relation to the political economy. Ultimately C. Melissa Snarr provides clarity on how to continue to cultivate renew and expand religious resources dedicated to the moral agency of low wage workers and their allies. *The Next Los Angeles* Robert Gottlieb, 2006-08-07 With this rich account of its community and labor struggles the city of angels and apocalypse becomes the city of hope. Barbara Ehrenreich author of *Nickel and Dimed* On Not Getting By in America This wonderful book with its evocations of LA's alternative histories and its bold templates for social and environmental justice is proof that the American Left is alive and well especially in Southern California. Mike Davis author of *Dead Cities* A rare book combining history analysis strategy and a platform and it may well be carried out in this decade. Tom Hayden former State Senator Los Angeles
