begins all green and bland grows to be a colorful spot in the scenery But after a while their yellow petals vanish and when the dandelions open themselves again they emerge wearing a crown of their seeds One by one it flies off with every gust of wind until at last nothing is left but the stem and flower head In a way she found that her love had been like this One beautiful cycle of life much like the transformation of a dandelion And it all began with a stranger she met on her commute on a normal day Because dandelions grow in the most unusual places they persevere only to live through their bloom and into their end For a while she could accept that this very beautiful thing had ended with no way to reverse the things said and done No way back to yellow
