## **Tales From The Freudian Crypt:**

*Tales from the Freudian Crypt* Todd Dufresne, 2000 A fundamental reassessment of the Freud legend that aims to shake the very foundations of Freud studies      *Tales from the Freudian Crypt* Todd Dufresne, 2022 *Tales from the Freudian Crypt* is a fundamental reassessment of the Freud legend that aims to shake the very foundations of Freud studies Writing from the perspective of intellectual history the author traces the impact that Freud's essay *Beyond the Pleasure Principle* has had and continues to have on twentieth century thought Designed as both an introduction and a corrective to the vast literature on Freud the book explores the trail left by Freud's late theory of the death drive paying special attention to its ramifications in the fields of biography biology psychotherapy philosophy and literary theory The author ironically concludes that if there were such a thing as a death drive it would look like this seemingly endless and in many ways arbitrary proliferation of the literature on Freud After first undertaking to demystify the pretensions of this literature from the works of Sandor Ferenczi to those of Jacques Lacan the author proposes a theory that sheds new light on the so called cultural works of Freud's final years He argues that the death drive theory was an elaborate ruse that Freud adopted to insulate his findings against criticism directed from outside the field of psychoanalysis that Freud's troubling recourse to metapsychology was closely tied to his lifelong fear of suggestion The author delivers a carefully reasoned sustained blow to the culture of psychoanalysis theoretical therapeutic institutional which is driven by what it desires and fears most death In sum *Tales from the Freudian Crypt* is offered as a kind of bankbook audit and investment plan for future work in Freud studies      **A Politics of**

**Melancholia** George Edmondson, Klaus Mladek, 2024-03-12 Why melancholia is a vital form of social critique and a catalyst for political renewal Melancholia is wrongly condemned as a condition of withdrawal and despair that alienates its sufferer from community Countering that misconception *A Politics of Melancholia* reclaims an understanding of melancholia not as an affliction in need of a remedy but as an affirmative stance toward decay and ruination in political life and restores the melancholic figure by turns inventive and destructive outraged and inspired to their rightful place as the poet of political thought George Edmondson and Klaus Mladek identify pivotal moments of political melancholia in ancient and modern texts offering new perspectives on the death of Socrates in Plato's dialogues the fratricide in Hamlet Woyzeck's killing of Marie in Georg Büchner's *Woyzeck* the murder of Moses in Freud's thought and the betrayal of the revolutionary idea that Hannah Arendt identifies in her critique of eighteenth century revolutions Melancholia emerges here as a disposition that is mournful but also jubilant a mood of unbending disconsolation that remains faithful to a scene of downfall to events that cannot be forgotten and to things that cannot be governed Recovering a tradition of thought that is both affirmative and hopeful this eloquent book reveals how political melancholia embodies a shared condition of discontent that binds communities together and inspires change      *New Makers of Modern Culture* Wintle Justin, 2013-05-13 *New Makers of Modern Culture* is the successor to the classic reference works *Makers of Modern Culture* and *Makers of Nineteenth Century Culture* published by

Routledge in the early 1980s The set was extremely successful and continues to be used to this day due to the high quality of the writing the distinguished contributors and the cultural sensitivity shown in the selection of those individuals included New Makers of Modern Culture takes into full account the rise and fall of reputation and influence over the last twenty five years and the epochal changes that have occurred the demise of Marxism and the collapse of the Soviet Union the rise and fall of postmodernism the eruption of Islamic fundamentalism the triumph of the Internet Containing over eight hundred essay style entries and covering the period from 1850 to the present New Makers includes artists writers dramatists architects philosophers anthropologists scientists sociologists major political figures composers film makers and many other culturally significant individuals and is thoroughly international in its purview Next to Karl Marx is Bob Marley next to John Ruskin is Salman Rushdie alongside Darwin is Luigi Dallapiccola Deng Xiaoping runs shoulders with Jacques Derrida Julia Kristeva with Kropotkin Once again Wintle has enlisted the services of many distinguished writers and leading academics such as Sam Beer Bernard Crick Edward Seidensticker and Paul Preston In a few cases for example Michael Holroyd and Philip Larkin contributors are themselves the subject of entries With its global reach New Makers of Modern Culture provides a multi voiced witness of the contemporary thinking world The entries carry short bibliographies and there is thorough cross referencing There is an index of names and key terms

**A Cultural Citizen of the World S. S.**

Prawer, 2017-10-23 This book is based on the German editions of Sigmund Freud's works and letters It presents various examples from English and American literatures that suggest several questions Freud asked of literary works in general

*Hegel and Resistance* Bart Zantvoort, Rebecca Comay, 2017-12-28 The concept of resistance has always been central to the reception of Hegel's philosophy The prevalent image of Hegel's system which continues to influence the scholarship to this day is that of an absolutist monist metaphysics which overcomes all resistance subsuming or assimilating all differences into a single organic Whole For that reason the reception of Hegel has always been marked by the question of how to resist Hegel how to think that which remains outside of or other to the totalizing system of dialectics In recent years the work of scholars such as Catherine Malabou Slavoj Žižek Rebecca Comay and Frank Ruda has brought considerable nuance to this debate A new reading of Hegel has emerged which challenges the idea that there is no place for difference otherness or resistance in Hegel both by refusing to reduce Hegel's complex philosophy to a straightforward systematic narrative and by highlighting particular moments within Hegel's philosophy which seem to counteract the traditional understanding of dialectics This book brings together established and new voices in this field in order to show that the notion of resistance is central to this revaluation of Hegel

**The Anti-Oedipus Complex** Rob Weatherill, 2017-02-17

The Anti Oedipus Complex critically explores the post 68 dramatic developments in Freudian Lacanian psychoanalysis and cultural theory Beginning with the decline of patriarchy and the master exemplified by Freud's paean for the Father the revolutionary path was blown wide open by anti psychiatry schizoanalysis and radical politics the complex antimonies of which are traced here in detail with the

Davis,2007-01-11 Why do the dead return Do they remain part of the world of the living This book examines these questions as they emerge in areas as diverse as film Holocaust testimony and the works of Jacques Derrida Nicolas Abraham and Maria Torok The book suggests it may be as difficult for the living to get rid of the dead as it is to live without them

**Beyond the Pleasure Principle** Sigmund Freud,2011-03-02 *Beyond the Pleasure Principle* is Freud s most philosophical and speculative work exploring profound questions of life and death pleasure and pain In it Freud introduces the fundamental concepts of the repetition compulsion and the death drive according to which a perverse repetitive self destructive impulse opposes and even trumps the creative drive or Eros The work is one of Freud s most intensely debated and raises important questions that have been discussed by philosophers and psychoanalysts since its first publication in 1920 The text is presented here in a contemporary new translation by Gregory C Richter Appendices trace the work s

antecedents and the many responses to it including texts by Plato Friedrich Nietzsche Melanie Klein Herbert Marcuse Jacques Derrida and Judith Butler among many others

**Death and Mastery** Benjamin Y. Fong, 2016-11-08 The first philosophers of the Frankfurt School famously turned to the psychoanalytic theories of Sigmund Freud to supplement their Marxist analyses of ideological subjectification Since the collapse of their proposed marriage of Marx and Freud psychology and social theory have grown apart to the impoverishment of both Returning to this union Benjamin Y Fong reconstructs the psychoanalytic foundation stone of critical theory in an effort to once again think together the possibility of psychic and social transformation Drawing on the work of Hans Loewald and Jacques Lacan Fong complicates the famous antagonism between Eros and the death drive in reference to a third term the woefully undertheorized drive to mastery Rejuvenating Freudian metapsychology through the lens of this pivotal concept he then provides fresh perspective on Theodor Adorno Max Horkheimer and Herbert Marcuse's critiques of psychic life under the influence of modern cultural and technological change The result is a novel vision of critical theory that rearticulates the nature of subjection in late capitalism and renews an old project of resistance

**Non-Legality in International Law** Fleur Johns, 2013-01-03 Shows how international lawyers make non law extra legal illegal and other non legal phenomena and why this matters in global politics today

*The Nets of Modernism* Maud Ellmann, 2010-09-30 One of the finest literary critics of her generation Maud Ellmann synthesises her work on modernism psychoanalysis and Irish literature in this important new book In sinuous readings of Henry James James Joyce and Virginia Woolf she examines the interconnections between developing technological networks in modernity and the structures of modernist fiction linking both to Freudian psychoanalysis The Nets of Modernism examines the significance of images of bodily violation and exchange scar bite wound and their psychic equivalents showing how these images correspond to vampirism and related obsessions in early twentieth century culture Subtle original and a pleasure to read this 2010 book offers a fresh perspective on the inter implications of Freudian psychoanalysis and Anglophone modernism that will influence the field for years to come

**Otto Rank and the Creation of Modern Psychotherapy** Robert Kramer, 2025-07-04 In this book Robert Kramer argues that Otto Rank not Sigmund Freud created modern psychotherapy which focuses on the therapist client relationship Rank's relational approach to therapy can today be found in social work counseling and psychotherapy This book translates Rank's complex thought into language any reader can grasp easily

**Faces of the Freudian I** Mikkel Reher-Langberg, 2020-04-02 I would like to thank Judy Gammelgaard and Andrew Moskowitz for their encouragement critique and confidence in me without which I could not have undertaken the present study I also wish to thank Jon Frederickson for his generous editorial suggestions and for his writings which stimulated my interest in the ego in the first place Last but not least I want to thank my friend Joachim Meier for our tireless discussions on subjectivity a continual source of vitality and inspiration during the years of this book's conception

**Desire in Ashes** Simon Wortham, Chiara Alfano, 2015-12-17 The indebtedness of contemporary thinkers to Derrida's project of deconstruction is

unquestionable whether as a source of inspiration or the grounds of critical antagonism This collection considers how best to recall deconstruction Rather than reduce it to an object of historical importance or memory these essays analyze its significance in terms of complex matrices of desire provoked in this way deconstruction cannot be dismissed as dead nor unproblematically defended as alive and well Repositioned on the threshold of life death deconstruction profoundly complicates the field of critical thought which still struggles to memorialize inter or reduce the deconstructive corpus to ashes

*Gothic Metaphysics* Jodey Castricano, 2021-11-15 We live in the time of the Anthropocene which calls for a paradigm shift in our relation to this planet One of the themes of this book is to call attention to the shift This book is a challenge to Literary Gothic and Cultural Studies The case for rethinking approaches to gothic fiction is built on an extended critique of Freudian assumptions and antinomies of the occult associated with mechanism materialism and classical physics a critique informed by Jung and an engaging re evaluation of mystical animist and alchemical modes of thought linked to quantum physics new materialism along with curiously but effectively Derridean deconstruction and cryptonymy Readers will benefit from the depth and breadth of the research in this book that draws upon philosophical anthropological psychoanalytic and scientific thought to engage with a literary genre in a way that changes how we think about Gothic Studies

*Romantic Metasubjectivity Through Schelling and Jung* Gord Barentsen, 2020-04-08 Romantic Metasubjectivity Through Schelling and Jung Rethinking the Romantic Subject explores the remarkable intellectual isomorphism between the philosophy of Friedrich Schelling and Carl Jung s analytical psychology in order to offer a crucial and original corrective to the reflection theory of subjectivity Arguing that the reflection theory of the subject does not do justice to the full compass of Romantic thinking about the human being Romantic Metasubjectivity sees human identity as neither discursive aftereffect nor centred around a self transparent I but rather as constellated around the centripetal force of what Novalis calls The Self of one s self The author begins with a unique reading of Schelling s early Naturphilosophie as primal site rather than Freudian scene thinking this site through his Philosophical Inquiries Into the Nature of Human Freedom to The Ages of the World Reading Jungian metapsychology and its core concepts as therapeutic amplifications of Schelling the author articulates an intellectual counter transference in which Schelling and Jung contemporise each other The book then demonstrates how Romantic metasubjectivity operates in the libidinal matrix of Romantic poetry through readings of William Wordsworth s The Prelude and Percy Shelley s Prometheus Unbound The book concludes with a discussion of the hit TV series Breaking Bad as a case study of the challenges Romantic metasubjectivity raises for fundamental ethical dilemmas which confront us in the twenty first century Romantic Metasubjectivity is a highly original work of scholarship and will appeal to students and scholars in German Idealism Romanticism philosophy psychoanalysis theory Jung studies and those with an interest in contemporary theories of the subject

**Politics and Suicide** Nicholas Michelsen, 2015-10-08 Politics and Suicide argues that whilst the historical lineage of suicidal politics is recognised the fundamental significance of autodestruction to the political remains

under examined It contends that practices like suicide bombing do not simply embody a strange or abnormal suicidal articulation of the political but rather that the existence of suicidal politics tells us something fundamental about the political as such and thinking about political violence more broadly Recent world events have emphatically shown our need for tools with which to develop better understandings of the politics of suicide Through the exploration of several arresting case studies including the Kamikaze bombers of World War Two Jan Palach s self immolation in 1969 Cold War nuclear deterrence and the suicide terrorist attacks of 9 11 Michelsen asks how we might talk of a political suicide in any of these contexts The book charts how political processes go suicidal and asks how we might still consider them to be political in such a case It investigates how suicide can function as politics A strong contribution to the fields of philosophy and international relations theory this work will also be of interest to students and scholars of political theory and terrorism political violence
