Geiger, 2013-04 A good humored fast read about the history of Florida from the time of Columbus through the Steamboat era on the St Johns River at the end of the 19th century The history is confined to the area around the St Johns River and Drayton Island in particular For centuries before the European s arrived the native people lived along the river and on Drayton Island As the area near St Augustine and along the coast of the Atlantic Ocean became settled the Indians moved inland The Island was on the frontier between the settlers and the Indians South of Drayton Island the settlers were on the east side of the river and the Indians were on the west side The book touches on the French Spanish and English control of the Florida peninsula the Florida Territory of the United States Statehood and Secession the Civil War Trail of Tears and the plight of the freed African American slaves There are hundreds of books about the history of Florida that do not have interviews and stories about the people This book has several It is fiction based upon the Florida history soap opera **A Pioneer Son at Sea** Gilbert L. Voss, 2016-03-06 Florida Historical Society Charlton Tebeau Award An outstanding piece of Florida fishing history by one of the most famous marine biologists in Florida Gene Shinn author of Bootstrap Geologist My Life in Science A perfect blend of history science and adventure Allowing his natural storytelling talent to shine through Voss tells of the waters inlets coves and colorful characters that comprised South Florida in the early twentieth century Janet DeVries author of Pioneering Palm Beach The Deweys and the South Florida Frontier A vivid picture of Voss s early years as a fisherman and outdoorsman prior to his illustrious career as a marine scientist and educator who passed along volumes of knowledge about the marine environment and its inhabitants to the scientific community Tommy Thompson author of The Saltwater Angler s Guide to Tampa Bay and

Southwest Florida A priceless memoir and a spectacular adventure Terry Howard author of High Seas Wranglers The Lives of Atlantic Fishing Captains Long before tourism dominated Florida s coastline the state was home to dozens of commercial fisheries and ethnically diverse communities of rugged individuals who made their living from the sea In A Pioneer Son at Sea Gilbert Voss a celebrated marine biologist recounts his early days of fishing on both coasts of the peninsula during the Great Depression and World War II Here are vanished scenes from old Florida almost unimaginable to modern residents of the state gill netting for mackerel off Jupiter the early days of charterboat fishing for sailfish out of Stuart and Boynton the snapper fleet at Carrabelle sponge diving at Tarpon Springs the oyster fishery at Crystal River and mullet fishing from airboats at Flamingo Oversized personalities inhabit these pages including Voss s brothers who were themselves seminal figures in the early days of Florida big game fishing Voss s anecdotes feature Crackers rum runners murderers Conchs wealthy industrialists now legendary charterboatmen Greek spongers and Cuban vivero captains These stories are not just spirited portraits of fishermen from a bygone era they are also remarkable tales of the formative years in the life of a scientist and conservationist who later worked tirelessly to preserve our dwindling marine resources Gold Bars Conrad

Brown Jr.,2011-03 We finally have a business book for boaters It covers all of the steps to begin chartering He discusses the pros as well as the cons The captain obviously has time on the water and is genuinely interested in helping his readers get started His enthusiasm and sense of humor are obvious in this informative book I reference it often Want to charter Get this book *As It Should Be* Lance Edwards,2019-02-18 Comprised of vignettes from his own experiences of growing up in Central Florida this native Floridian reveals Old Florida through its land its people and their relationship to the times This is not the Florida of the travel brochures or the concrete and glass glitz of the developers but rather the real Florida as known only by those who are proud to call themselves or declare themselves native Floridians Laugh and cry with the exploits of these tough and proud people The Kindle has color photos The paperback has black white photos **Lee County Islands**

Mary Kaye Stevens,2009 When Ponce de Leon visited Southwest Florida in 1513 he discovered some of North America s most pristine tropical islands Yet it was here where the explorer met his death at the hands of Calusa Indians who had made their home on the islands since 500 bc Remaining relatively isolated from mainland society until the mid 1900s the islands were home to a few hardscrabble pioneers who endured stifling heat swarming mosquitoes and deadly storms Famous anglers such as Thomas Edison Zane Grey and Teddy Roosevelt enjoyed stalking the elusive tarpon in this sports fishing paradise Likewise the pervasive solitude inspired writers including Edna St Vincent Millay Mary Roberts Rinehart and Richard Powell Home to some of the world s best beaches it is not surprising visitors and residents find the lifestyles and histories of Lee County s quaint islands worth preserving **Florida Crackerlections** Edward S. Clark,1996

Kissimmee Jim Robison,Osceola County Historical Society,2003-10-15 Kissimmee Florida traces its name to the Jororo tribe among the first to settle along the river valley Riverboat captains entrepreneurs and speculators found Kissimmee and

River of Lakes Bill Belleville, 2011-07-01 First explored by naturalist William Bartram in the 1760s the St Johns River stretches 310 miles along Florida's east coast making it the longest river in the state. The first highway through the once wild interior of Florida the St Johns may appear ordinary but within its banks are some of the most fascinating natural phenomena and historic mysteries in the state. The river no longer the commercial resource it once was is now largely ignored by Florida's residents and visitors alike. In the first contemporary book about this American Heritage River Bill Belleville describes his journey down the length of the St Johns kayaking boating hiking its riverbanks diving its springs and exploring its underwater caves. He rediscovers the natural Florida and establishes his connection with a place once loved for its untamed beauty. Belleville involves scientists environmentalists fishermen cave divers and folk historians in his journey soliciting their companionship and their expertise. River of Lakes weaves together the biological cultural anthropological archaeological and ecological aspects of the St Johns capturing the essence of its remarkable history and intrinsic value as a natural wonder.

Storm of the Century Willie Drye, 2019-08-01 In 1934 hundreds of jobless World War I veterans were sent to the remote Florida Keys to build a highway from Miami to Key West. The Roosevelt Administration was making a genuine effort to help these down and out vets many of whom suffered from what is known today as post traumatic stress disorder. But the attempt to help them turned into a tragedy. The supervisors in charge of the veterans misunderstood the danger posed by hurricanes in the low lying Florida Keys. In late August 1935 a small stealthy tropical storm crossed the Bahamas causing little damage. When it entered the Straits of Florida however it exploded into one of the most powerful hurricanes on record. But US Weather Bureau forecasters could only guess at its exact position and their calculations were well off the mark. The hurricane that struck the Upper Florida Keys on the evening of September 2 1935 is still the most powerful hurricane to make landfall in the US. Supervisors waited too long to call for an evacuation train from Miami to move the vets out of harm's way. The train was slammed by the storm surge soon after it reached Islamorada. Only the 160 ton locomotive was left upright on the tracks. About 400 veterans were left unprotected in flimsy work camps. Around 260 of them were killed. This is their story with newly discovered photos and stories of some of the heroes of the Labor Day 1935 calamity. *Biology and Management of the World Tarpon and Bonefish Fisheries* Jerald S. Ault, 2007-10-01 The core of a multibillion dollar sport fishing industry tarpon and bonefish two of the earth's oldest creatures are experiencing obvious and precipitous population decline. Experienced

anglers in the Florida Keys suggest a drop of approximately 90-95 percent for the bonefish population over the last 65 years. Despite the economic value of the industry, the Cedar Keys Hurricane of 1896 was a disaster at dawn. Alvin F. Oickle, 2009-03-30. Families watched in horror as walls of water swept away homes and businesses and men held onto saplings for their lives while the winds howled. The destruction was beyond belief. Buildings on Atsena Otie were swept away so completely that only cracked stone foundations remained and the forests of red cedar that gave the islands their name and livelihood were flattened. Resulting in dozens of deaths and millions of dollars in damage, Hurricane Number 4 in 1896 changed the Cedar Keys forever and set the city on a path to the present. Historian Alvin F. Oickle, drawing on firsthand accounts and extensive archival research, tells the story of ordinary Floridians who were faced like so many before and so many since with nature's fury. *The Role of Fire in Nongame Wildlife Management and Community Restoration*, 2002.
