Tales By A Few Good Marines:

Tales by "a Few Good Marines". G. W. Howe, 1993-01-01 *A Few Good Memories* Bob Taylor, 2007-02-26 Stories mostly humorous some nostalgic about Marine Corps Boot Camp What wasn't funny then can be humorous now Marines relatives and friends submitted over 400 first hand stories The best of these are in this book As one new Marine said to the author Nothing's funny in Boot Camp But it is years later **Chesty** Jon T. Hoffman, 2007-12-18 Featured on the Commandant of the Marine Corps Reading List and the Chief of Naval Operations Naval Power Reading List The Marine Corps is known for its heroes and Lieutenant General Lewis B Puller has long been considered the greatest of them all His assignments and activities covered an extraordinary spectrum of warfare Puller mastered small unit guerrilla warfare as a lieutenant in Haiti in the 1920s and at the end of his career commanded a division in Korea In between he chased Sandino in Nicaragua and fought at Guadalcanal Cape Gloucester and Peleliu With his bulldog face barrel chest which earned him the nickname Chesty gruff voice and common touch Puller became and has remained the epitome of the Marine combat officer At times Puller's actions have been called into question at Peleliu for instance where against a heavily fortified position he lost more than half of his regiment And then there is the saga of his son who followed in Chesty's footsteps as a Marine officer only to suffer horrible wounds in Vietnam his book *Fortunate Son* won the Pulitzer Prize Jon Hoffman has been given special access to Puller's personal papers as well as his personnel record The result will unquestionably stand as the last word about Chesty Puller *The Leatherneck*, 1924 What About Us? Edgar D. Johnson, 2010-12-01 Over the past three decades the standards based reform movement has transformed K 12 education in the United States culminating with passage of the No Child Left Behind Act in 2002 Beyond making reasonable accommodations for special needs students standards based education pays little attention to other areas of student difference relying instead on a rational actor model of student experience and ignoring how differences in students backgrounds and orientations impact their particular experiences of schooling This book examines the development of standards based education with particular scrutiny of the roles of the National Governors Association and its National Education Summit events Examination of important documents emerging from those events provides an illustration of the conceptually impoverished understanding of student subjectivity motivation and agency inherent in standards based education In order to understand both problems with and alternatives to standards based education the author examines the roles of ideology rhetoric and audience in school policy In three case studies the author analyzes several non school models of education including Marine Corps bootcamp Ving Tsun kung fu training and an online school resistance community Johnson argues that examination of these learning contexts provides a better understanding of the shortcomings and dangers of the standards based model of student subjectivity and suggests a set of fourteen principles to inform the development of more student centered alternatives **A Sea Monster's Tale** Colin Speedie, 2021-06-08 There are few marine creatures as spectacular as the Basking Shark At up to 11 metres in length and

seven tonnes in weight this colossal plankton feeding fish is one of the largest in the world second only to the whale shark. Historically Basking Sharks were a familiar sight in the northern hemisphere off the coasts of Norway, Scotland, Ireland, Canada and the USA for example. In an 18th Century world without electricity they became the focus of active hunting for their huge livers containing large amounts of valuable oil primarily used in lamps. Catch numbers were small enough to leave populations largely intact but during the 20th Century a new breed of hunter joined the fray, some driven as much by a need for adventure as for financial gain. With improved equipment and experience they exploited the shark on an industrial scale that drastically reduced numbers leading to localised near extinction in some areas. From the 1970s onward a new generation took to the seas this time with conservation in mind to identify where the shark might still be found in the waters around the British Isles, employing new technologies to solve long standing mysteries about the behaviour of this elusive creature. Using the best of both old and new research techniques the case was built to justify the species becoming one of the most protected sharks in the oceans. Today the Basking Shark is a much loved cornerstone of our natural heritage. There are positive signs that the population has stabilised and may even be slowly recovering from the damage of the past, proving that timely conservation measures can be effective. Join us on a journey amidst wild seas, places, people and conservation history in the battle to protect this iconic creature, a true sea monster's tale.

Barriers and Opportunities Related to the Transfer of Technology, 1998 The First Battle Otto J. Lehrack, 2006-01-31 A Marine Corps veteran of the Vietnam War brings together interviews with fellow Marines and with men who fought with the 1st Viet Cong Regiment to provide a firsthand chronicle of Operation Starlite which in 1965 became the first major clash during America's involvement in Vietnam. Reprint The Morenci Marines Kyle Longley, 2015-06-15 In 1966 nine young men left the Arizona desert mining camp of Morenci to serve their country in the far flung jungles of Vietnam in danger zones from Hue to Khe Sanh. Ultimately only three survived. Each battled survivor's guilt, difficult re-entries into civilian life and traumas from personally experiencing war and losing close friends along the way. Such stories recurred throughout America but the Morenci Marines stood out. ABC News and Time magazine recounted their moving tale during the war and in 2007 the Arizona Republic selected the Morenci Nine as the most important veterans story in state history. Returning to the soldiers' Morenci roots, Kyle Longley's account presents their story as unique by setting and circumstance yet typical of the sacrifices borne by small towns all across America. His narrative spotlights a generation of young people who joined the military during the tumultuous 1960s and informs a later generation of the hard choices made, many with long term consequences. The story of the Morenci Marines also reflects that of their hometown, a company town dominated by the Phelps Dodge Mining Corporation where the company controlled lives and the labor strife was legendary. The town's patriotic citizens saw Vietnam as a just cause, moving Clive Garcia's mother to say 'He died for this cause of freedom'. Yet while their sons fought and sent home their paychecks, Phelps Dodge sought to destroy the union that kept families afloat, pushing the government to end a strike that it said undermined

the war effort Morenci was also a place where cultures intermingled and the nine friends included three Mexican Americans and one Native American Longley reveals how their backgrounds affected their decisions to join and also helped the survivors cope with Mike Cranford racing his Harley on back roads at high speeds while Joe Sorrelman tried to deal with demons of war through Navajo rituals Drawing on personal interviews and correspondence that sheds new light on the Morenci Nine Longley has written a book as much about loss grief and guilt as about the battlefield It makes compelling reading for anyone who lived in that era and for anyone still seeing family members go off to fight in controversial wars
