Tales From The Trenches Politics And Practice In Feminist Service Organizations:

Tales from the Trenches Diane Kravetz, 2004 *Tales from the Trenches Politics and Practice in Feminist Service Organizations* examines the political visions and experiences of women who created five feminist service organizations in the 1970s. The organizations include a shelter for battered women, a rape crisis center, a rape prevention ride service, a residential facility for female offenders, and a statewide organization for chemically dependent women. Based primarily on interviews with 57 founders, staff, volunteers, and/or board members, the book traces into the mid 1980s how women translated their understandings of radical feminist ideology into goals, social change strategies, services, and organizational structures. *Tales from the Trenches* explores how members dealt with the problems created by antifeminist resistance as well as the dilemmas that characterized many feminist efforts in the early years of the women's movement. The extensive use of direct quotations in the book, along with women's detailed accounts, provide valuable examples of feminist practice based on thoughtful applications of feminist principles to specific circumstances rather than remaining within the confines of conventional assumptions or prescriptive politics.

Feminist Organizing Across the Generations Karen Bojar, 2021-11-24 *Feminist Organizing Across the Generations* spans almost 60 years of feminist history and traces the evolution of feminist activism from the 1960s until the present. Using the Philadelphia chapter of the National Women's Organization as a starting point, Karen Bojar explores how feminist organizing was unfolding in similar ways across the country. The book examines the enormous energy put into building feminist service organizations such as women's shelters and rape crisis centers, which were to have a profound impact on major social institutions, health care delivery, and the justice system. The book also looks at the differences between the organizing strategies of second wave feminists and those of the 21st century. Much 21st century feminist organizing is taking place outside of explicitly feminist groups, with young feminists bringing a gender justice perspective to a range of racial, economic, and climate justice organizations. This book is suitable for students and scholars in women's and gender history, political history, and gender studies.

Radical Visionaries: Feminist Therapy Pioneers, 1970-1975 Claudia Pitts, Debra M. Kawahara, 2018-10-08 *Radical Visionaries* documents and honours those feminist therapy pioneers of the 1970s who moved the mental health establishment and possibly the world through radical action to begin to consider women as fully human It is remarkable today even in these difficult times to realize how far we have come and to know it was these women who galvanized this move forward toward self exploration and equality As we move into the current era of feminism and social justice it is imperative to pause to consider how these second wave feminist pioneers gave us feminist therapy and all that followed from it From the earliest stages of the movement feminists used consciousness raising which moved into the notion of the egalitarian therapy and ultimately led toward a cultural shift towards female empowerment and the groundswell of women into clinical psychology programs These founding feminist therapists impacted structures including the criminal justice system divorce proceedings domestic violence services education medicine and banking This book highlights these women's stories told by the pioneers themselves as they forged the trail for those of us who follow them This book was originally published as a special issue of *Women Therapy*

[Gender, Violence, and Human Security](#) Aili Mari Tripp, Myra Marx Ferree, Christina Ewig, 2023-11-21 The nature of human security is changing globally interstate conflict and even intrastate conflict may be diminishing worldwide yet threats to individuals and communities persist Large scale violence by formal and informal armed forces intersects with interpersonal and domestic forms of violence in mutually reinforcing ways *Gender Violence and Human Security* takes a critical look at notions of human security and violence through a feminist lens drawing on both theoretical perspectives and empirical examinations through case studies from a variety of contexts around the globe This fascinating volume goes beyond existing feminist international

relations engagements with security studies to identify not only limitations of the human security approach but also possible synergies between feminist and human security approaches. Noted scholars Aili Mari Tripp, Myra Marx Ferree, and Christina Ewig, along with their distinguished group of contributors, analyze specific case studies from around the globe ranging from post conflict security in Croatia to the relationship between state policy and gender based crime in the United States. Shifting the focus of the term human security from its defensive emphasis to a more proactive notion of peace, the book ultimately calls for addressing the structural issues that give rise to violence. A hard hitting critique of the ways in which global inequalities are often overlooked by human security theorists, *Gender Violence and Human Security* presents a much needed intervention into the study of power relations throughout the world.
