Wisconsin Library Bulletin, 1925 Bulletin of the New York Public Library New York Public Library, 1911 Includes its Report 1896 19 **The Book of Noodles: Stories of Simpletons** William Alexander Clouston, 1888 **The New Statesman**, 1924 **Old Tales and New Truths** James Roy King, 1992-01-01 This guidebook to the Bright Shadow World develops three closely related issues The first is the position that fairytales and folktales are of value today because they encourage the growth of capabilities important in our postmodern world Each of us like the fairytale hero sets out on his/her

own quests seeks his her own identity faces his her own dilemmas with few resources but wit imagination and a certain power of improvisation King develops the implications of this situation for such common fairytale problems as learning to read the world productively navigating various kinds of edges exploiting power sources developing highly personal moral commitments problem solving and data collecting The second concern of this book is with the development of a system for analyzing narrative structure The formula offered here involves an examination of interactions among actors physical settings lines of force and power sources as a narrative moves toward its denouement This system facilitates the classifying and contrasting of narratives and illuminates the structure of both narrative and lived experience Finally this book is concerned with myth making or world making processes It is shown that traditional narrative actually points to and delineates another dimension of existence here called the Bright Shadow World that operates by rules of its own and may be penetrated by individuals from our ordinary world Inferences about the Bright Shadow World drawn from traditional narrative are described and evaluated The Bookseller ,1923
