Charles Johnson's Novels Rudolph P. Byrd, 2005-06-13 This is truly a major contribution to African American literary criticism and it promises to elevate Johnson to the place in the literary firmament he so richly deserves Henry Louis Gates Jr Harvard University Charles Johnson came of age during the Black Arts Movement of the 1960s and 1970s His fiction bears the imprint of his formal training as a philosopher and his work as a journalist and cartoonist with a well honed interest in political satire Mentored by the American writer John Gardner Johnson is preoccupied with questions of morality which are informed by his knowledge of Continental and Asian philosophical traditions In this book Rudolph Byrd examines Johnson's four novels Faith and the Good Thing Oxherding Tale Middle Passage National Book Award Winner and Dreamer under the rubric of philosophical black fiction as art that interrogates experience Byrd contends that Johnson suspends shelves and brackets all presuppositions regarding African American life This bracketing accomplished the African American experience becomes a pure field of appearances within two poles consciousness and the people or phenomena to which it is related Johnson's principal themes are identity and liberation Intent upon the liberation of perception for the reader and the writer Johnson's fiction aims at whole sight encompassing a plurality of meanings across a symbolic geography of forms texts and traditions from within the matrix of African American

life and culture And like a palimpsest Johnson's texts contain multiple layers of meaning of disparate origins imprinted over time with varying degrees of visibility and significance Charles Johnson's Novels will appeal to fans of the writer's work but it also will serve as a helpful guide for readers newly introduced to this brilliant contemporary American writer **Reports of the Library Trustees and the Librarian and a List of Accessions to the Library for the Year Ending ...** Weston Public Library (Mass.),1918 Schwann Long Playing Record Catalog ,1969 **Fiction Catalog** H.W. writers who preferred to associate Maupassant and O Henry with the trick ending story This book details the origins and consequences of this misperception The book further contributes to the study of the short story genre Through an adaptation of Aristotelian concepts Richard Fusco proposes an original approach to short story structure defining and developing seven categories of textual formulas linear ironic coda surprise inversion loop descending helical contrast and sinusoidal As a practitioner of all these forms Maupassant established his mastery of the genre By studying his use of form the book asserts a major reason for his pivotal importance in the historical development of the short story

The Short Story Charles May, 2013-10-14 The short story is one of the most difficult types of prose to write and one of the most pleasurable to read From Boccaccio's Decameron to The Collected Stories of Reynolds Price Charles May gives us an understanding of the history and structure of this demanding form of fiction Beginning with a general history of the genre he moves on to focus on the nineteenth century when the modern short story began to come into focus From there he moves on to later nineteenth century realism and early twentieth century formalism and finally to the modern renaissance of the form that shows no signs of abating A chronology of significant events works and figures from the genre's history notes and references and an extensive bibliographic essay with recommended reading round out the volume
