**Poetry in the English Language** Grosvenor Library,1902 **Tales of a Country Obstetrician** Daniel M.

Avery,2012-12-13 Daniel M Avery has been fascinated with the human body ever since he was young so it was natural that he should grow up to become a successful doctor As a funeral director he had his first opportunity to learn about anatomy disease processes and trauma He even witnessed the medical examiner performing autopsies in the morgue Once he became a doctor his adventures were more interesting although there are decisions he regrets For instance he would have never called the university to tow away an illegally parked recreation vehicle if he had known it belonged to the dean of the medical school In spite of the seriousness of the medical profession he enjoyed his share of light moments as well When a female resident delivered a baby and got blood all over her she asked if she could borrow a pair of underwear We wear different sizes and I only have one pair Dr Avery replied All physicians have at one time or another wished they had written down the highlights of their careers Dr Avery does so with no regrets examining the challenges adventures and funny moments that have defined his life as an Alabama doctor in *Tales of a Country Obstetrician* Doctor Tales Blair Beebe M. D.,2008-11

Stories about American healthcare have been told in print on film on television and radio and in every form imaginable The story of American healthcare however has never been told in quite the same way as in Dr Blair Beebe s *Doctor Tales* Through lyrical and compelling narrative Dr Beebe uses fourteen tales to tell his story of how our healthcare structure evolved to become the most advanced and problematic system in the world Beginning with the viewpoint of an impressionable twenty one year old first year medical student he continues with numerous patient encounters in hospital settings and ends with a

fictional community's response to an avian influenza epidemic transposed from a real outbreak in the Far East Doctor Tales draws from the lives of real doctors nurses and patients to show the changes that have occurred during the second half of the twentieth century that have led to spectacular new treatments and equally stunning shortfalls in healthcare **The Story of the Canadian Pacific Railway** Keith Morris,1916 **True Tales of the Paranormal** Kimberly Molto,2002-09-01 There are things in this world that we cannot explain and occurrences that make us ponder the very nature of our existence True Tales of the Paranormal is an intriguing examination of reincarnation premonitions and other spooky inexplicables from a scientific perspective exploring modern scientific theories and current research The author also provides suggestions on how to deal with paranormal experiences and where to go for help and information Even readers who have never had psychic experiences will be drawn into the lives of those who have and will be left questioning the world as we know it *True Tales of American Life* Paul Auster,2010-11-25 Chosen by Paul Auster out of the four thousand stories submitted to his radio programme on National Public Radio these 180 stories provide a wonderful portrait of America in the twentieth century The requirement for selection was that each of the stories should be true and each of the writers should not have been previously published The collection that has emerged provides a richly varied and authentic voice for the American people whose lives loves griefs regrets joys and sense of humour are vividly and honestly recounted throughout and adeptly organised by Auster into themed sections The section composed of war stories stretches as far back as the Civil War still the defining moment in American history while the sequence of Meditations conclude the volume with a true and abiding sense of transcendence The resultant anthology is both an enduring hymn to the strange everyday of contemporary American life and a masterclass in the art of storytelling **Canadian Bookman** ,1924 Extraordinary Tales from Manitoba History J. holds while also positively promoting the incredible work that nurses do The chapters within this book explore a cornucopia of different aspects of nursing including caring for dying patients dealing with bodily fluids and how patients are not very good at working out how sick they really are The book also covers how to manage the care of patients with complex mental illnesses and those contemplating suicide This book is targeted at nurses who may feel a little overwhelmed with the world that is nursing but who wish to thrive and further their career Discussion questions at the end of the book further add to the reflection and learning process of the reader
