Tales Of The Gun German Small Arms Of Wwii:

The Redwood Stumper 2001-2009 Paul Feist, *The Encyclopedia of Weapons of World War II* Chris Bishop, 2002
The encyclopedia of weapons of world war II is the most detailed and authoritative compendium of the weapons of mankind's greatest conflict ever published. It is a must for the military enthusiast and all those interested in World War II. *Gun Trader's Guide to Handguns* Robert A. Sadowski, 2018-01-16 Gun Trader's Guide is the bestselling collectible firearms reference having sold over two million copies in thirty-eight editions. The guide includes prices for all types of firearms but what if you are only interested in buying, selling, and collecting handguns? Then Gun Trader's Guide to Handguns is the book for you. Featuring all your favorite handguns from the original Gun Trader's Guide plus hundreds more, this is the only reference you'll ever need. Veteran editor and firearms enthusiast Robert A. Sadowski has compiled and cataloged discontinued and collectible handguns from your favorite manufacturers. Complete with specs and price gradients based on the condition of the handgun, collecting and selling your firearms will be easier than ever. Sadowski also provides valuable tips on how to use the guide as well as articles on various collectible handguns and the art of handgun trading. Also step behind the scenes to learn what dealers are looking for, what they want in your handgun, and what's required to become a dealer, which should help you when buying, trading, or selling your handguns. Whether you are a first-time handgun owner or a longtime handgun enthusiast, Gun Trader's Guide to Handguns is an invaluable tool to read before stepping foot in the dealer's store or attending a gun show. *The Rifle* Andrew Biggio, 2021-06 It all started because of a rifle. The Rifle is an inspirational story and hero's journey of a 28-year-old U.S. Marine, Andrew Biggio, who returned home from combat in Afghanistan and Iraq full of questions about the price of war. He found answers from those who survived the costliest war of all: WWII. It began when Biggio bought a 1945 M1 Garand Rifle, the most common rifle used in WWII, to honor his great uncle, a U.S. Army soldier who died on the hills of the Italian countryside. When Biggio showed the gun to his neighbor, WWII veteran Corporal Joseph Drago, it unlocked memories Drago had kept unspoken for 50 years. On the spur of the moment, Biggio asked Drago to sign the rifle. Thus began this Marine's mission to find as many WWII veterans as he could, get their signatures on the rifle, and document their stories. For two years, Biggio traveled across the country to interview America's last living WWII veterans. Each time he put the M1 Garand Rifle in their hands, their eyes lit up with memories triggered by holding the weapon that had been with them every step of the war. With each visit and every story told to Biggio, the veterans signed their names to the rifle. 96 signatures now cover that rifle, each a reminder of the price of war and the courage of our soldiers. **Shelldrake** Harold A. Skaarup, 2012-02 Shelldrake is an informative and detailed synopsis of the carefully preserved and restored guns and artillery on display in Canada. The Royal Regiment of Canadian Artillery is represented by a long and distinguished line of gunners with historical ties back to the days before Canada's Confederation. The honour of defending Canada while standing steady to support operations overseas in peace and war continues to this day. In doing so it

is necessary to remember that the weapons of war are an integral part of what keeps this nation safe although the examples that have been used to make it so are few and far between The descriptions of Canadian artillery and the places of honour where they can be viewed highlights the importance of the equipment that brought our nation forward at key turning points in history when our guns were in use as tools of war at home and overseas This guide book will show the interested reader where to find examples of the historical guns preserved in Canada and perhaps serve as a window on how Canada s military contribution to security in the world has evolved Page 4 of cover *The Story of World War II* Henry Steele Commager, Donald L. Miller, 2010-05-11 Drawing on previously unpublished eyewitness accounts prizewinning historian Donald L Miller has written what critics are calling one of the most powerful accounts of warfare ever published Here are the horror and heroism of World War II in the words of the men who fought it the journalists who covered it and the civilians who were caught in its fury Miller gives us an up close deeply personal view of a war that was more savagely fought and whose outcome was in greater doubt than readers might imagine This is the war that Americans at the home front would have read about had they had access to the previously censored testimony of the soldiers on which Miller builds his gripping narrative Miller covers the entire war on land at sea and in the air and provides new coverage of the brutal island fighting in the Pacific the bomber war over Europe the liberation of the death camps and the contributions of African Americans and other minorities He concludes with a suspenseful never before told story of the atomic bombing of Nagasaki based on interviews with the men who flew the mission that ended the war **Gun Digest 2004** Ken Ramage, 2003 An illustrated catalog of current firearms and accessories *My Journey Down the Reincarnation Highway* Frank Mares, 2012-11 In this personal account one man details how he discovered the fact of reincarnation and explores what he did in his prior lives More people than you would believe have prior life memories In his new spiritual memoir *My Journey down the Reincarnation Highway The True Story of a Man who found nine of His Past Lives* author and businessman Frank Mares tells how he acquired psychic ability in his middle age With this new gift he recovered facts about nine of his prior lives most of which involved violent bloody deaths The most recent life was that of a young German Wehrmacht sergeant who was ambushed and killed by Russians during the night of May 1 1944 in a dark Estonian farmhouse Not being satisfied with just discovering his past lives Mares goes on a spiritual mission to find out why he kept dying violently The answers do not come easily but by using a team of three world class psychics he eventually tracks down the shocking reason for all his brutal deaths The psychic team finds that within the soul of this normal small businessman resides a brutal stone cold killer from the 1600 s who surprisingly was the revered founder of a gentile noble family As part of his soul s continuing quest for redemption Mares hopes to salvage the dark time in his soul s past into something that could help others today His experiences show that death is only a transition phase and that it should not be feared His book also reveals that reincarnation is actually a well designed organized system that allows souls to learn personalized life lessons over a surprising number of lives If you read this book you will never look

at life and death in the same way again **The Battalion** Col. Robert W. Black, 2013-08-00 false 18 pt 18 pt 0 0 false false

given the exact same orders The clash of the two determined forces was one of the bloodiest and most costly encounters of World War II Castle Hill the imposing 1320 foot mini mountain the American Rangers simply called Hill 400 was the gateway to a desperate Nazi Germany Several entire American divisions had already been repulsed by the last hill's dug in defenders as unknown to the Allies the height was the key to Adolf Hitler's last minute plans for a massive counterattack to smash through the American lines in what would become known to history as the Battle of the Bulge Thus the stalemate surrounding Hill 400 could not continue For Supreme Allied Commander Gen Dwight Eisenhower there was only one solution Call in Rudder's Rangers Of the 130 special operators who stormed captured and held the hill that December day only 16 remained to stagger back down its frozen slopes The Last Hill is replete with unforgettable action and characters a rich and detailed saga of what the survivors of the 2nd Ranger Battalion would remember as our longest day **United States Army Combat Forces Journal**, 1951 **The Book of Morgan** Tony Morgan, 2015-04-16 The original title of this collection was The Many Realities of Ynot Nagrom this because some of the people who may have read my novels and or a few of the short stories contained in this volume have asked me if I consider myself a science fiction writer As you will see many of these thirty stories and essays are far from that genre therefore I do not consider myself to be such a writer Rather I see myself at times consumed with the possibilities of alternative realities For instance what if there was a way the South would have been able to win the battle of Gettysburg and with it the Civil War the Titanic had missed the iceberg we were able to build a Super Hadron Collider the circumference of the moon which then opened a parallel universe to ours and George Custer had not chosen to leave his two Gatling guns behind on his way to the Little Bighorn As the cover proclaims I have also included my literary essays short stories and personal tales for all of you And as the Koran begins Not a word of this book should you doubt Tony Morgan *The Gun Digest Book of Modern Gun Values* Dan Shideler, 2005-11-01 Provides values and details on over 12 000 guns manufactured from 1900 to the present All Roads Lead to Rome Bill Thorness, 2024-12 What happens when a seasoned journalist and travel writer takes on his most challenging assignment yet crossing not just continents but also history by retracing his father's steps on the battlefields of Italy in World War II When a slim packet of his father's letters came to light after his mother's death Bill Thorness began a quest to rediscover his father Thorness traveled to the World War II battlefields where America's first team of commandos fought The youngest son of one of those commandos Thorness gained a sense of the horror his father had kept from his family while standing on the mountain where the First Special Service Force fought Then standing on a bridge in Rome he reflected on the loss his father must have felt in not making it to the end of the campaign to liberate the Eternal City In All Roads Lead to Rome Thorness considers his father's decisive moments in battle and beyond and how he soldiered on as a disabled veteran through his life raising a family and succumbing to an early death Alternating between reimagined battle scenes and present day travels Thorness explores World War II and family history the value and limits of memory the attitudes of war and our society's inadequate understanding and

support of combat veterans who may return with physical and emotional scars that change them deeply Thorness steps into his father's shoes to revisit his story and finish that walk into Rome weaving an account that is part travelogue part history and part memoir about the ravages of war **Army of None: Autonomous Weapons and the Future of War** Paul

Scharre, 2018-04-24 Winner of the 2019 William E Colby Award The book I had been waiting for I can't recommend it highly enough Bill Gates The era of autonomous weapons has arrived Today around the globe at least thirty nations have weapons that can search for and destroy enemy targets all on their own Paul Scharre a leading expert in next generation warfare describes these and other high tech weapons systems from Israel's Harpy drone to the American submarine hunting robot ship Sea Hunter and examines the legal and ethical issues surrounding their use A smart primer to what's to come in warfare Bruce Schneier **Army of None** engages military history global policy and cutting edge science to explore the implications of giving weapons the freedom to make life and death decisions A former soldier himself Scharre argues that we must embrace technology where it can make war more precise and humane but when the choice is life or death there is no replacement for the human heart **Brothers in Arms** Kareem Abdul-Jabbar, Anthony Walton, 2005-05-10 A powerful wartime saga

recounting the extraordinary story of the 761st Tank Battalion the first all black armored unit to see combat in World War II More than a combat story it's also the story of how black soldiers had to fight literally and figuratively for the right to fight the Germans USA Today Kareem Abdul Jabbar first became immersed in the history of the 761st Battalion through family friend Leonard Smitty Smith a veteran of the unit Working with acclaimed writer Anthony Walton Abdul Jabbar interviewed surviving members of the battalion to weave together a page turning narrative based on their memories stories and historical accounts from basic training through the horrors of the battlefield to their postwar experiences Trained essentially as a public relations gesture to maintain the support of the black community for the war the battalion was never intended to see battle In fact General Patton originally opposed their deployment claiming African Americans couldn't think quickly enough to operate tanks in combat conditions But in the summer of 1944 following heavy casualties in the fields of France the Allies desperate for trained tank personnel called the battalion up anyway While most combat troops fought on the front for a week or two before being rotated back the men of the 761st served for more than six months fighting heroically under Patton's Third Army at the Battle of the Bulge and in the Allies final drive across France and Germany Despite a casualty rate that approached 50 percent and an extreme shortage of personnel and equipment the 761st would ultimately help liberate some thirty towns and villages as well as several branch concentration camps The racism that shadowed them during the war and the prejudice they faced upon their return home are an indelible part of their story Shining through most of all however are the lasting bonds that united them as soldiers and brothers the bravery they exhibited on the battlefield and the quiet dignity and patriotism that defined their lives **World War II in Literature for Youth** Patricia Hachten Wee, Robert James
