Richard Ratay, 2019-05-14 A lighthearted entertaining trip down Memory Lane Kirkus

Reviews Don't Make Me Pull Over offers a nostalgic look at the golden age of family road trips before portable DVD players smartphones and Google Maps The birth of America's first interstate highways in the 1950s hit the gas pedal on the road trip phenomenon and families were soon streaming sans seatbelts to a range of sometimes stirring sometimes wacky locations In the days before cheap air travel families didn't so much take vacations as survive them Between home and destination lay thousands of miles and dozens of annoyances and with his family Richard Ratay experienced all of them from being crowded into the backseat with noogie happy older brothers to picking out a souvenir only to find that a better one might have been had at the next attraction to dealing with a dad who didn't believe in bathroom breaks Now decades later Ratay offers an amiable guide fun and informative New York Newsday that goes down like a cold lemonade on a hot summer's day The Wall Street Journal In hundreds of amusing ways he reminds us of what once made the Great American Family Road Trip so great including twenty foot land yachts oasis like Holiday Inn Holidomes Smokey spotting Fuzzbusters twenty eight glorious flavors of Howard Johnson's ice cream and the thrill of finding a good buddy on the CB radio An informative often hilarious family narrative that perfectly captures the love hate relationship many have with road trips Publishers Weekly Don't Make Me Pull Over reveals how the family road trip came to be how its evolution mirrored the country's and why those magical journeys that once brought families together for better and worse have largely disappeared **Growing Point**, 1971 *An Informal History of Virginia-Kentucky Pattersons in Illinois* Ethel Marion Smith, 1948 Journal of Glass Studies, 1986 **The Jazz Scene** W. Royal Stokes, 1991-06-06 No one can tell us more about jazz than the musicians themselves Unfortunately most oral histories have limited scope focusing on a particular era or style and fail to capture the full rich story of jazz Now in this vivid oral history W Royal Stokes presents nearly a century of jazz its people places periods and styles as it was seen by the artists who created America's most distinctive music Here along with the author's enlightening commentary are the words of musicians famous and little known veterans of the early years and pathbreakers of the present telling us about their origins and adventures about the places and performers they have known We read of young artists learning their skills surrounded by poverty going on to win fame around the world We feel the excitement of jazz before the war The music was all over the place recalled Wild Bill Davison It's just unbelievable how many bands there were in Chicago You could go anywhere and there'd be a band And we glimpse the gritty hard life hidden beneath the beauty of the notes they played I remember not eating practically a month several times said Mary Lou Williams During the depression we played engagements and we knew we weren't going to get any money because Andy would scratch his face when he was walking toward the band and the trumpet player would pull out his horn and play the Weary Blues And we'd laugh about it We hadn't eaten in a couple of days and nothing was said because the music was our survival Stokes not only uncovers the history of jazz in the major cities and regions New Orleans for instance Chicago in the 20s and 30s Kansas City and California from the 50s to the present but he goes on to bring us the story of the big bands post bebop developments vocalists jazz around the globe and the contemporary

scene I was about eleven and my brother Mike started to bring home a lot of Miles Davis records from school and that did it for me remembers Pat Metheny First time I heard Miles playing My Funny Valentine that whole record just destroyed me And he takes a close look at the rising place of women as instrumentalists in the last decade Jazz is America's most original contribution to music and as the late Dexter Gordon lamented America is the one country where it is little known But W Royal Stokes uncovers a scene that is as alive as ever with this fascinating look at how it has been made and remade from the first decades of the century to today Being First Robert Klein,2010 Robert Klein one of the initial Peace Corps volunteers who served in Ghana from 1961-1963 describes the creation of the Peace Corps and the experiences of the first cohort of volunteer teachers serving in Ghana *Musical West, Music and the Dance*,1927 Curriculum Windows Redux Thomas S. Poetter,Kelly Waldrop,Syed Hassan Raza,2022-08-01 Curriculum Windows Redux What Curriculum Theorists Can Teach Us about Schools and Society Today is an effort by students of curriculum studies along with their professor to interpret and understand curriculum texts and theorists in contemporary terms The authors explore how key books authors from the curriculum field illuminate new possibilities forward for us as scholar educators today How might the theories practices and ideas wrapped up in these curriculum texts still resonate with us allow us to see backward in time and forward in time all at the same time How might these figurative windows of insight thought ideas fantasy and fancy make us think differently about curriculum teaching learning students education leadership and schools Further how might they help us see more clearly even perhaps put us on a path to correct the mistakes and missteps of intervening decades and of today The authors complete the Curriculum Windows series with this 7th book Redux providing a scholarly view of 33 books that should have been treated in the first 6 books based on the decades of the 1950s 2000s The book's Foreword is by renowned curriculum theorist William H Schubert **Laughter in the Air** Barry Took,1981 The Nassau Herald,1897 **The Saturday Evening Post**,1926 Natural History Dioramas - Traditional Exhibits for Current Educational Themes Annette Scheersoi,Sue Dale Tunnicliffe,2018-11-14 This book presents the history of natural history dioramas in museums their building and science learning aspects as well as current developments and their place in the visitor experience From the early 1900s with the passage of time and changes in cultural norms in societies this genre of exhibits evolved in response to the changes in entertainment expectations and expressed needs of museum visitors The challenge has always been to provide meaningful relevant experiences to visitors and this is still the aim today Dioramas are also increasingly valued as learning tools Contributions in this book specifically focus on their educational potential In practice dioramas are used by a wide range of educational practitioners to assist learners in developing and understanding specific concepts such as climate change evolution or conservation issues In this learning process dioramas not only contribute to scientific understanding and cultural awareness but also reconnect wide audiences to the natural world and thereby contribute to the well being of societies In the simultaneously published book Natural History Dioramas Traditional Exhibits for Current Educational
