Talking About China:

A Series of Ten Radio Talks on China Today (with Select Bibliography) Frederick Mortimer Clapp, Lloyd Patzlaff Horsfall, Lloyd P. Horsfall, Benjamin Harrison Williams, William L. Nunn, 1928 **China-US Trade War and Trade Talk** Miaojie Yu, 2020-05-26 This book focuses on the current tension between China and the US on trade imbalance and discusses China's opening up strategy in the context of this trade conflict. The book is divided into two parts. In the first part, the author presents a detailed analysis of the current state of the China-US trade relationship and describes the potential impacts of China-US trade conflicts. The topics covered in this section include the re-estimate of US trade deficit with China, China's non-market economy status, the impact of China-US bilateral investment treaties on China's manufacturing sectors, and the estimated welfare losses and gains resulting from the China-US trade war. Part II explores China's possible response and development strategy in the context of de-globalization. Based on an overview of China's three stages of economic reform and opening up policy in the past four decades, the author discusses the future tasks that would move the country into a new stage of all-round opening up. Lastly, the book comprehensively reviews the role of processing trade, trade liberalization, and firm performance in promoting China's miraculous economic growth, so as to foster a better understanding of China's experience of opening up over the past 4 decades. *China's BRI in Different Regions of the World* Sanjeev Kumar, 2023-06-02 China's Belt and Road Initiative (BRI) is completing a decade. There have been varied responses to the Initiative from countries and regions besides the emergence of alternative initiatives and narratives. This sets the stage for evaluating the robustness of the Initiative, its implementation, as well as its implications from the perspective of individual countries and regions across the globe. This book begins by examining China's domestic economic, maritime, and strategic interests as drivers for the Initiative. BRI has been analysed in country-specific, regional, and continental contexts. It brings out the experiences and responses from South Asia, Eurasia, East Asia, Southeast Asia, the Arab world, Latin America, the Caribbean, as well as from Europe and Africa. Further, BRI has been studied in the larger context of the US-China competition. The final section explores BRI in the context of the twin challenges of recent times, i.e. the pandemic and Russia-Ukraine conflict. The book concludes with an epilogue which outlines the broad trends related to BRI that have emerged from this study of ICWA.

Normalization of U.S.-China Relations William C. Kirby, Robert S. Ross, Gong Li, 2020-03-17 Relations between China and the United States have been of central importance to both countries over the past half century, as well as to all states affected by that relationship. Taiwan and the Soviet Union foremost among them. Only recently, however, has the opening of archives made it possible to research this history dispassionately. The eight chapters in this volume offer the first multinational, multi-archival review of the history of Chinese-American conflict and cooperation in the 1970s. On the Chinese side, normalization of relations was instrumental to Beijing's effort to enhance its security vis-à-vis the Soviet Union and was seen as a tactical necessity to promote Chinese military and economic interests. The United States was equally motivated by national security

concerns In the wake of Vietnam policymakers saw normalization as a means of forestalling Soviet power As the essays in this volume show normalization was far from a foregone conclusion *Apple in China* Patrick McGee,2025-05-13 Absolutely riveting Peter Frankopan author of *The Silk Roads* Disturbing and enlightening Chris Miller author of *Chip War* Hugely important Rana Foroohar author of *Makers and Takers* A once in a generation read Robert D Kaplan author of *Waste Land* As Trump wages a tariff war with China seeking to boost domestic electronics manufacturing this book offers an unparalleled insight into why his strategy is embarrassingly naïve Apple isn't just a brand it's the world's most valuable company and creator of the 21st century's defining product The iPhone has revolutionized the way we live work and connect But Apple is now a victim of its own success caught in the middle of a new Cold War between two superpowers On the brink of bankruptcy in 1996 Apple adopted an outsourcing strategy By 2003 it was lured to China by the promise of affordable ubiquitous labour As the iPod and iPhone transformed Apple's fortunes their sophisticated production played a seminal role in financing training supervising and supplying Chinese manufacturers skills Beijing is now weaponizing against the West Investigative journalist Patrick McGee draws on 200 interviews with former Apple executives and engineers to reveal how Cupertino's choice to anchor its supply chain in China has increasingly made it vulnerable to the regime's whims Both an insider's historical account and a cautionary tale *Apple in China* is the first history of Apple to go beyond the biographies of its top executives and set the iPhone's global domination within an increasingly fraught geopolitical context *The U.S. - China Economic Relationship* United States. Congress. House. Committee on Ways and Means,2012 *China's Climate Change Policies* Wang Weiguang,Guoguang Zheng,Jiahua Pan,2013-03-05 China is becoming a rising star in global economical and political affairs Both internationally and within China itself people have great expectations of its future role This book aims to clarify many aspects of China's key position in the climate change situation and policy debates However limited by its development stage natural resource endowment and other unbalanced developing issues China is still a developing country This book shows the reader the real China which can provide more comprehensive solutions for future global climate regimes This book includes research into China's twelfth Five Year Plan low carbon city pilot schemes policies and pathways for China's nationally appropriate mitigation actions China's forestry management China's NGOs and climate change the low carbon 2010 Expo in Shanghai carbon budget proposals China's green economy and green jobs China's reaction to carbon tariffs China's actions in approaching adaptation China's cumulative carbon emissions and more China's *Climate Change Policies* brings together experienced experts with in depth understanding of the scientific assessment of climate change and relevant social and economic policies and senior experts who have participated directly in international climate negotiations This will help the reader to better understand the 2011 Durban climate change conference as well as China's long term strategy in response to climate change **China's Global Reach** George Zhibin Gu,Zhibin Gu,Andre Gunder Frank,2006 China's new economic surge is a surprise to all but this ancient land remains a myth to both foreigners

and Chinese Get the inside story from a Chinese journalist consultant about China's business society and politics under globalization and capitalism This revised volume gives an insider's analysis on what's behind China's surge and its implications to the world It covers key global issues such as manufacturing and job transfers Chinese multinationals vs global giants and changing production trade and investment trends as well as evolving international relations China's Global Reach explores The ever increasing influence of foreign multinationals 15 plus case studies National and business competition The ever expanding power of Chinese multinationals 15 plus case studies Global job and manufacturing transfers The rise of Chinese consumers vs opportunities China's political economic reform Changing global production and economic map Comparative studies on China US Europe Japan and India Evolving international relations Convergent movement of global civilizations and And more including an afterword by Andre Gunder Frank China's Global Reach Markets Multinationals and Globalization is a straightforward and timely analysis of a changing world in relation to a fast developing China It is a book perfect for professionals investors policy makers educators and students as well as for anyone who questions how the world will move ahead to the next stages Reviews James Borton China Venture News Must read for all businessmen going to China William Ratliff Hoover Fellow at Stanford University Five Stars Dr Paul Close Centre for the Study of Globalization and Regionalization University of Warwick UK Very insightful valuable information analysis and argument of interest for readers of whatever kind should be on all bookshelves Ronald Hilton Hoover Fellow at Stanford University President World Association of International Studies It takes up history of globalization together with Afterword by Andre Gunder Frank fits our Learning History Project Contemporary History Association This book suggests that a new global power balance will emerge gradually and most likely indirectly China's Thought Management Anne-Marie Brady, 2012-02-06 China's Thought Management argues that by re-emphasizing and modernizing propaganda and thought work since 1989 the CCP has managed to overcome a succession of local and national level crises the Tiananmen Square protests of 1989 the impact of the collapse Socialism in the Eastern bloc SARS ethnic clashes in Tibet and Xinjiang to name but a few emerging re-strengthened and as dominant in Chinese society as ever The contributors to this book address such crucial issues as the new emphasis on economic propaganda the continued importance of the PLA propaganda system in China's overall propaganda work and political stability how the CCP uses Confucius talk in its foreign and domestic propaganda and new approaches to mass persuasion such as campaigns of mass distraction Each chapter is a case study of the multiple ways in which the CCP has modified and adjusted its propaganda to reflect China's changed economic and political environment Challenging readers to reconceptualise mainstream understandings of the CCP's hold on power and the means the CCP government adopts to maintain its authority to rule this book will be invaluable reading for anyone interested in the Chinese media and Chinese politics United States-China Economic Relations and China's Role in the World Economy United States. Congress. House. Committee on Ways and Means, 2005 **Future of Uk-China Relations** BROWN, 2025-07-17 China's Millions, 1889

Conflict Prevention and Management in Northeast Asia Alec Forss, Sofia Ledberg, Niklas Swanström, 2010-03-08

Two of the world's most dangerous flashpoints this edited volume with contributions by leading scholars offers a comprehensive evaluation and comparison of approaches to conflict management and prevention on the Korean Peninsula and in the Taiwan Strait. The consequences of any escalation of these two conflicts and the difficulties in resolving them necessitate a fresh look at designing new strategies to prevent and contain conflict as well as highlighting the limitations of existing measures. Presenting both a theoretical and practical examination of conflict prevention and management the volume provides a comparative analysis of the Korean Peninsula and the Taiwan Strait identifying lessons that could be transferred between the two cases but also the obstacles to this. The experiences of other regions and the role of third parties are also examined. This is a valuable addition to the literature for students of peace and conflict studies as well as policy makers with an interest in Northeast Asia.

Asian Security Jasjit Singh, 1991 *Anti-Cartel Enforcement in a Contemporary Age*

Caron Beaton-Wells, Christopher Tran, 2015-09-24. Leniency policies are seen as a revolution in contemporary anti cartel law enforcement. Unique to competition law these policies are regarded as essential to detecting punishing and deterring business collusion conduct that subverts competition at national and global levels. Featuring contributions from leading scholars practitioners and enforcers from around the world this book probes the almost universal adoption and zealous defence of leniency policies by many competition authorities and others. It charts the origins of and impetuses for the leniency movement captures key insights from academic research and practical experience relating to the operation and effectiveness of leniency policies and examines leniency from the perspectives of corporate and individual applicants advisers and authorities. The book also explores debates surrounding the intersections between leniency and other crucial elements of the enforcement system such as compensation compliance and criminalisation. The rich critical analysis in the book draws on the disciplines of law regulation economics and criminology. It makes a substantial and distinctive contribution to the literature on a topic that is highly significant to a wide range of actors in the field of competition law and business regulation generally. From the Foreword by Professor Frédéric Jenny fundamental questions are raised and thoroughly discussed in this book which is undoubtedly the most comprehensive scholarly work on leniency policies produced so far the book should be required reading for all seeking to acquire a deeper insight into the issues related to leniency policy. It is a priceless contribution.

The Costs of Conversation Oriana Skylar Mastro Consulting LLC, 2019-03-15

After a war breaks out what factors influence the warring parties decisions about whether to talk to their enemy and when may their position on wartime diplomacy change? How do we get from only fighting to also talking? In *The Costs of Conversation* Oriana Skylar Mastro argues that states are primarily concerned with the strategic costs of conversation and these costs need to be low before combatants are willing to engage in direct talks with their enemy. Specifically Mastro writes leaders look to two factors when determining the probable strategic costs of demonstrating a willingness to talk: the likelihood the enemy will interpret

openness to diplomacy as a sign of weakness and how the enemy may change its strategy in response to such an interpretation Only if a state thinks it has demonstrated adequate strength and resiliency to avoid the inference of weakness and believes that its enemy has limited capacity to escalate or intensify the war will it be open to talking with the enemy Through four primary case studies North Vietnamese diplomatic decisions during the Vietnam War those of China in the Korean War and Sino Indian War and Indian diplomatic decision making in the latter conflict *The Costs of Conversation* demonstrates that the costly conversations thesis best explains the timing and nature of countries approach to wartime talks and therefore when peace talks begin As a result Mastro s findings have significant theoretical and practical implications for war duration and termination as well as for military strategy diplomacy and mediation *Understanding China's Growth* C. Lo,2007-07-03 Using rigorous economic analysis backed by solid data and accounts of real life experiences this book twists conventional wisdom to drive the thinking about China outside the box It dispels China s economic myths and probes deep into the hidden forces that drive China s economic future *Fodor's Shanghai* Inc. Fodor's Travel Publications,2009-04-07 Fodor s For Choice Travel Experiences Fodor s helps you unleash the possibilities of travel by providing the insightful tools you need to experience the trips you want Although you re at the helm Fodor s offers the assurance of our expertise the guarantee of selectivity and the choice details that truly define a destination It s like having a friend in Shanghai Updated frequently Fodor s Shanghai provides the most accurate and up to date information available in a guidebook Fodor s Shanghai features options for a variety of budgets interests and tastes so you make the choices to plan your trip of a lifetime If it s not worth your time it s not in this book Fodor s discriminating ratings including our top tier Fodor s Choice designations ensure that you ll know about the most interesting and enjoyable places in Shanghai Experience Shanghai like a local Fodor s Shanghai includes unique photo features that impart the city s culture covering world class shopping the thriving art scene easy side trips to China s water villages and much more Indispensable customized trip planning tools include Top Reasons to Go Word of Mouth advice from other travelers and tips to help save money bypass lines and avoid common travel pitfalls Visit Fodors.com for more ideas and information travel deals vacation planning tips reviews and to exchange travel advice with other travelers **Law and Policy for China's Market Socialism** John Garrick,2012-05-04 This edited volume presents fresh empirical research on the emerging outcomes of China s law reforms The chapters examine China s going out policy by addressing the ways in which the underpinning legal reforms enable China to pursue its core interests and broad international responsibilities as a rising power The contributors consider China s civil and commercial law reforms against the economic backdrop of an outflow of Chinese capital into strategic assets outside her own borders This movement of capital has become an intriguing phenomenon for both ongoing economic reform and its largely unheralded underpinning law reforms The contributors ask probing questions about doing business with China and highlight the astonishing escalation of China s outbound foreign direct investment OFDI *Law and Policy for China's Market Socialism*

includes contributions from leading China law scholars and specialist practitioners from the People's Republic of China Hong Kong the United States the United Kingdom and other countries who all extend the examination of powerful influences on China's law reforms into new areas Given the forecast for the growth of China's domestic market those wishing to gain a better understanding and seeking success in the world's most dynamic marketplace will benefit greatly from reading this book This book is essential reading for anyone interested in Chinese economics and business Chinese Law Chinese politics and commercial law
