HUMANISTIC SOCIAL WORK - The THIRD WAY / FORCE in Theory, Practice and Politics. Core Qualities, Skills and Conducts of the Practitioner, 2023-11-10 This book is a new appearance of the author Petru Stefanoi within The HUMANISTIC SOCIAL WORK Project In particular in this work the author affirms and supports the thesis according to which as in psychology and psychotherapy the idea thesis and formula Humanistic Psychology Psychotherapy as the Third Way or Force is regularly promoted and used it is the case and the time as in the field of social work to operate with the formula Humanistic Social Work The Third Way or Force in Social Work The third way in practice as a method and the third force in theory as a doctrine If in psychology and psychotherapy the third way force was established by reference to psychoanalysis and behaviorism in social work the third way is established by reference to Traditional social work and Critical social work This third way in social work is imposed in the author's opinion by prioritizing the concept of personality bringing this doctrine method and practice of social work closer to psychology and psychotherapy to humanistic psychology and psychotherapy But the author specifies in the paper that humanistic psychology and humanistic psychotherapy on the one hand and humanistic social work

as theory and practice on the other hand are distinct scientific and practical fields not only by the object of intervention but also by methodology and specifics of practice. The aspect is well highlighted in the way it is structured and formulated here. The HUMANISTIC SOCIAL WORK Project established as an initiative with the assumed aim to enhance the effective presence of the humanistic and personalistic values theories and practices in social work which usually are stated as fundamental and essential in different programs strategies and policies but less present in fact in the specialized literature in the faculties curricula or in the practice of the professionals and services. To this end the project is designed as a philosophical theoretical axiological and methodological framework a heuristic laboratory a philosophical scientific and professional forum where it can be set what might be called the theory axiology and methodology of humanistic social work. The project's concept starts from the idea that humanistic social work is not however a distinctive form of social work welfare but rather an ontology epistemology that generates a reaffirmation restatement of the fundamental constitutional humanistic values of social work incorporating in the same time in a relative new coherent and unitary theory all what penetrated in social work in the last decades from humanistic psychology and psychotherapy microsociology and humanistic sociology human rights philosophy movement and especially what was established as humanistic method in the contemporary social work practice and literature. The core aspect of the humanistic social work paradigm theory and practice is determined by the way mode humanistic are represented the client and professional considering the humanequalities resources of the client and professional the critical epistemological and methodological value of the this type of social work. One can say that the specific theory of humanistic social work is a conglomerate of theories paradigms orientations but which have some crucial ideas as vectors the person client as personality as human being with sentiments soul desires sufferings needs of love needs of happiness and accomplishments emphasis on personality and compathetical micro community as basic resources of practice positive optimistic and appreciative expectation in practice person centered and microcommunity centered approach in evaluation and intervention concentration on the future and not on the past the human rights social justice a humanistic perspective on the practitioner and his conducts in practice.
