The Philosophy Of Symbolic Forms Vol Ii Mythical Thought

Ernst Cassirer

The Philosophy of Symbolic Forms Vol II Mythical Thought:

The Philosophy of Symbolic Forms Ernst Cassirer, 1955-01-01 The Symbolic Forms has long been considered the greatest of Cassirer's works. Into it he poured all the resources of his vast learning about language and myth, religion, art, and science, the various creative symbolizing activities and constructions through which man has expressed himself and given intelligible objective form to this experience. These three volumes alone, apart from Cassirer's other papers and books, make an outstanding contribution to epistemology and to the human power of abstraction. It is rather as if The Golden Bough had been written in philosophical rather than in historical terms. F. I. G. Rawlins, *Nature*

The Philosophy of Symbolic Forms, Volume 2 Ernst Cassirer, 2020-09-24 The Philosophy of Symbolic Forms is one of the landmarks of twentieth-century philosophy. Drawing from the influential work of Wilhelm Dilthey, it transformed neo-Kantianism into a new, robust philosophy of culture. The second volume on Mythical Thinking analyzes the fundamental layers of perception and expression, as well as the articulations with religion and the dialectic with other forms, essentially language and art. The intellectual breadth of the volume is remarkable. It initiated the debate with Martin Heidegger and prompted a long-lasting meditation by Hans Blumenberg. We are only beginning to recognize its importance for our understanding of the power of images in the construction of aesthetics, the self, and the socio-political world. It initiated a discussion within French sociology, mile Durkheim, Marcel Mauss, that ultimately resurfaced in Pierre Bourdieu, while today it is considered as a resourceful path for cultural and critical theory. Drucilla Cornell and Kenneth M. Panfilio. Finally, this volume also offers solid grounds for a political critique of Nazism, specifically Alfred Rosenberg's *Myth of the 20th Century* and Adolf Hitler's *Mein Kampf*, as well as the new emerging totalitarian ideologies. Fabien Capeilleres, Professor of Philosophy, editor of the French edition of Cassirer's Works. This new translation makes Cassirer's seminal work available to a new generation of scholars. Each volume includes a translator's introduction by Steve G. Lofts, a foreword by Peter E. Gordon, a glossary of key terms, and an index.

The Philosophy of Symbolic Forms Ernst Cassirer, 1955 The Philosophy of Symbolic Forms, Volume 2 Ernst Cassirer, 2019-07-01 Ernst Cassirer occupies a unique space in Twentieth-century philosophy. A great liberal humanist, his multi-faceted work spans the history of philosophy, the philosophy of science, intellectual history, aesthetics, epistemology, the study of language and myth, and more. The Philosophy of Symbolic Forms is Cassirer's most important work. It was first published in German in 1923, the third and final volume appearing in 1929. In it, Cassirer presents a radical new philosophical worldview at once rich, creative, and controversial of human beings as fundamentally symbolic animals placing signs and systems of expression between themselves and the world. This major new translation, the first for over fifty years, brings Cassirer's magnum opus to a new generation of students and scholars. Volume 2, *Mythical Thought*, considers the role of myth in human thought and expression. Cassirer examines the main features of morphology of myth before tackling the relationship between myth and self-consciousness. He argues that human beings' experience of the world around them is charged with

affective and emotional significance as desirable or hateful comforting or threatening It is this type of meaning which underlies mythical consciousness and explains its disregard for the distinction between appearance and reality From mythical thought religion and art develop Cassirer argues making the mythical view of the world the earliest form of philosophical expression Correcting important errors in previous English editions this translation reflects the contributions of significant advances in Cassirer scholarship over the last twenty to thirty years Each volume includes a new introduction and translator's notes by S G Lofts a foreword by Peter Gordon a glossary of key terms and a thorough index

The Philosophy of Symbolic Forms, Volume 2 Ernst Cassirer, 2020-09-24 The Philosophy of Symbolic Forms is one of the landmarks of twentieth century philosophy Drawing from the influential work of Wilhelm Dilthey it transformed neo Kantianism into a new robust philosophy of culture The second volume on Mythical Thinking analyzes the fundamental layers of perception and expression as well as the articulations with religion and the dialectic with other forms essentially language and art The intellectual breadth of the volume is remarkable It initiated the debate with Martin Heidegger and prompted a long lasting meditation by Hans Blumenberg We are only beginning to recognize its importance for our understanding of the power of images in the construction of aesthetics the self and the socio political world It initiated a discussion within French sociology mile Durkheim Marcel Mauss that ultimately resurfaced in Pierre Bourdieu while today it is considered as a resourceful path for cultural and critical theory Drucilla Cornell and Kenneth M Panfilio Finally this volume also offers solid grounds for a political critique of Nazism specifically Alfred Rosenberg's Myth of the 20th Century and Adolf Hitler's Mein Kampf as well as the new emerging totalitarian ideologies Fabien Capeilleres Professor of Philosophy editor of the French edition of Cassirer's Works This new translation makes Cassirer's seminal work available to a new generation of scholars Each volume includes a translator's introduction by Steve G Lofts a foreword by Peter E Gordon a glossary of key terms and an index

The Philosophy of Symbolic Forms Ernst Cassirer, 1960 *The Philosophy of Symbolic Forms* Ernst Cassirer, 1966 [The Philosophy of Symbolic Forms](#) Ernst Cassirer, 1965-09-10 The Symbolic Forms has long been considered the greatest of Cassirer's works Into it he poured all the resources of his vast learning about language and myth religion art and science the various creative symbolizing activities and constructions through which man has expressed himself and given intelligible objective form to this experience These three volumes alone apart from Cassirer's other papers and books make an outstanding contribution to epistemology and to the human power of abstraction It is rather as if The Golden Bough had been written in philosophical rather than in historical terms F I G Rawlins Nature

The Philosophy of Symbolic Forms Ernst Cassirer, 2021-03-11 Ernst Cassirer occupies a unique space in twentieth century philosophy A great liberal humanist his multi faceted work spans the history of philosophy the philosophy of science intellectual history aesthetics epistemology the study of language and myth and more Cassirer's thought also anticipates the renewed interest in the origins of analytic and continental philosophy in the Twentieth Century and the divergent paths taken by the logicist and existential traditions

epitomised by his now legendary debate in 1929 with the philosopher Martin Heidegger over the question What is the Human Being The Philosophy of Symbolic Forms is Cassirer s most important work It was first published in German in 1923 the third and final volume appearing in 1929 In it Cassirer presents a radical new philosophical worldview at once rich creative and controversial of human beings as fundamentally symbolic animals placing signs and systems of expression between themselves and the world This major new translation of all three volumes the first for over fifty years brings Cassirer s magnum opus to a new generation of students and scholars Taken together the three volumes of The Philosophy of Symbolic Forms are a vital treatise on human beings as symbolic animals and a monumental expression of neo Kantian thought Correcting important errors in previous English editions this translation reflects the contributions of significant advances in Cassirer scholarship over the last twenty to thirty years Each volume includes a new introduction and translator s notes by Steve G Lofts a foreword by Peter E Gordon a glossary of key terms and a thorough index

A Jungian Understanding of Symbolic Function and Forms Dominique Boukhabza, 2023-08-11 The purpose of this book is to clarify the function of the symbol and its place at the juncture of psychoanalysis and other social sciences where the singular and the collective intersect and whose laws are identical The debate between Freud and Jung about the symbol is well known by examining the points of contradiction between their respective approaches this book seeks to place them in fruitful tension rather than categorical opposition and explore their similarities and differences In later chapters the author further analyses the function of the symbol in relation to the topics of myth anthropology and dreams This thoughtful book will appeal to those interested and involved in analytical psychology and psychoanalysis as well as psychiatrists and psychologists
