The Piednoirs 1960-2000 A Case Study In The Persistence Of Subcultural Distinctiveness:

France's Lost Empires Kate Marsh, Nicola Frith, 2011-01-01 This collection of essays investigates the fundamental role that the loss of colonial territories at the end of the Ancient Regime and post World War II has played in shaping French memories and colonial discourses In identifying loss and nostalgia as key tropes in cultural representations these essays call for a re evaluation of French colonialism as a discourse informed not just by narratives of conquest but equally by its histories of defeat

From empire to exile Claire Eldridge, 2016-07-22 This book explores the commemorative afterlives of the Algerian War of Independence 1954-62 one of the world's most iconic wars of decolonisation It focuses on the million French settlers *pieds noirs* and the tens of thousands of *harkis* the French army's native auxiliaries who felt compelled to migrate to France when colonial rule ended Challenging the idea that Algeria was a forgotten war that only returned to French public attention in the 1990s this study reveals a dynamic picture of memory activism undertaken continuously since 1962 by grassroots communities connected to this conflict Reconceptualising the ways in which the Algerian War has been debated evaluated and commemorated in the subsequent five decades *From empire to exile* makes an original contribution to important discussions surrounding the contentious issues of memory migration and empire in contemporary France that will appeal to students and scholars of history and cultural studies

Coming Home? Vol. 2 Sharif Gemie, 2014-07-18 The wars of the twentieth century uprooted people on a previously unimaginable scale to the extent that being a refugee became an increasingly widespread experience With the arrival of refugees governments of host countries had to mediate between divided national populations some wished to welcome those arriving in search of refuge others preferred a strategy of exclusion or even expulsion At the same time refugees had to manage conflicts of the self as they responded to the loss of nationhood families socio-political networks material goods and arguably also a sense of belonging or home While return migration was usually perceived by governments and refugees alike as the best solution to the dilemmas of forced displacement consensus about the timing and dynamics of how this would actually occur was very difficult to achieve In practice the return of refugees to their countries of origin rarely if ever produced a wholly satisfactory outcome Conflicts clearly resulted in forced displacement but it is equally true that forced displacement created conflicts The complex inter-relationship of conflict return migration and the sometimes chimerical but still compelling search for a sense of home is the central preoccupation of the contributors to the two volumes of the *Coming Home* series Scholars from history literature cultural studies and sociology explore the tensions between nation states and migrants as they have anticipated implemented or challenged the process of return migration during the twentieth and twenty-first centuries The first volume *Coming Home: Conflict and Return Migration in the Aftermath of Europe's Twentieth Century Civil Wars* covers the period of the Spanish Civil War to the Cold War with a focus on Western Central and Eastern Europe This book shifts attention to the colonial and post-colonial framework of the French North African nexus

Historicizing Colonial Nostalgia P. Lorcin, 2011-12-15

Comparative study of the writings and strategies of European women in two colonies French Algeria and British Kenya during the twentieth century Its central theme is women s discursive contribution to the construction of colonial nostalgia

Contesting Views Edward Welch, Joseph McGonagle, 2013 This study investigates how relations between France and Algeria have been represented and contested through visual means since the outbreak of the Algerian War in 1954 The Pieds-noirs Rosemary Averell Manes, 2005 The French of Algeria as they are commonly called today remain a distinct yet waning subculture Aspects of their lives continue to provide fertile ground for the media including most recently a widely published discussion of the use of torture and murder by French generals during the Algerian War 1955 1962 Publications continue to proliferate on all aspects and from all sides of the French Algerian experience as the time passed permits unprecedented examination of this controversial period in history from 1830 when European colonization began until today The Pied noirs continue to contribute to the rich multi cultural world of contemporary France but their actual experiences remain a largely taboo topic in a country like that of the U S in Vietnam hasn t fully come to terms with the scars left by colonization settlement and ultimate defeat This work shows the tremendous influence of Pied noir on French local and regional elections and discusses the profound effect that the first waves of French Algerians had on the political and economic cultures of Southern France and on the civil service particularly the gendarmarie and local administration this group portended Also discussed is the relationship of Algerian French to the harkis or Algerian Arab supporters of Algerie Francais Finally the research examines the political fabric of the community and its suprising influence on both the French Left and Right **Books in Print** , 1991 Books In Print 2004-2005 Ed Bowker Staff, Staff Bowker, Ed, 2004 **Books in Print, 2006-2007** , 2006
