The Pioneers 1825-1900 The Early British Tea And Coffee Planters And Their Way Of Life:

The Pioneers, 1825-1900 John Weatherstone, 1986 *The British Takeover of Assam* Caroline Keen, 2024-11-15 This book goes beyond the famous tea and reveals the true impact of Britain's takeover of Assam India in the nineteenth century. Blending social and economic history, this is an illuminating work that will fascinate anybody with an interest in the history of India or Britain's colonial past.

Tea and empire Angela McCarthy, T M Devine, 2017-07-21 This book brings to life for the first time the remarkable story of James Taylor, father of the Ceylon tea enterprise in the nineteenth century. Publicly celebrated in Sri Lanka for his efforts in transforming the country's economy and shaping the world's drinking habits, Taylor died in disgrace and remains unknown to the present day in his native Scotland. Using a unique archive of Taylor's letters written over a forty-year period, Angela McCarthy and Tom Devine provide an unusually detailed reconstruction of a British planter's life in Asia at the high noon of empire. As well as charting the development of Ceylon's key commodities in the nineteenth century, the book examines the dark side of planting life, including violence and conflict, oppression and despair. A range of other fascinating themes are evocatively examined, including graphic depictions of the Indian Mutiny, race and ethnicity, migration, environmental transformation, cross-cultural contact, and emotional ties to home.

Coolies of Capitalism Nitin Varma, 2018-05-07 Coolie is a generic category for the unskilled manual labour. The offering of services for hire had various pre-colonial lineages. In the nineteenth century, there was an attempt to recast the term in discursive constructions and material practices for mobilized and immobilized labour. Coolie labour was often proclaimed as a deliberate compromise straddling the regimes of the past slave labour and the future free labour. It was portrayed as a stage in a promised transition. The tea plantations of Assam, like many other tropical plantations in South Asia, were inaugurated and formalized during this period. They were initially worked by the locals. In the late 1850s, the locals were replaced by labourers imported from outside the province who were unquestioningly designated coolies in the historical literature. Qualifying this framework of transition, local to coolie labour and introduction of coolie labour, this study makes a case for the production of coolie labour in the history of the colonial capitalist plantations in Assam. The intention of the research is not to suggest an unfettered agency of colonial capitalism in defining and producing coolies, with an emphasis on the attendant contingencies, negotiations, contestations, and crises. The study intervenes in the narratives of an abrupt appearance of the archetypal coolie of the tea gardens, i.e. imported and indentured, and situates this archetype's emergence, sustenance, and shifts in the context of material and discursive processes.

The True History of Tea Erling Hoh, Victor H. Mair, 2009-03-24 A lively and beautifully illustrated history of one of the world's favorite beverages and its uses through the ages. World-renowned sinologist Victor H. Mair teams up with journalist Erling Hoh to tell the story of this remarkable beverage and its uses from ancient times to the present, from East to West. For the first time in a popular history of tea, the Chinese, Japanese, Tibetan, and Mongolian annals have been thoroughly consulted and carefully sifted. The resulting narrative takes the reader from the

jungles of Southeast Asia to the splendor of the Tang and Song Dynasties from the tea ceremony politics of medieval Japan to the fabled tea and horse trade of Central Asia and the arrival of the first European vessels in Far Eastern waters Through the centuries tea has inspired artists enhanced religious experience played a pivotal role in the emergence of world trade and triggered cataclysmic events that altered the course of humankind How did green tea become the national beverage of Morocco And who was the beautiful Emma Hart immortalized by George Romney in his painting The Tea maker of Edgware Road No other drink has touched the daily lives of so many people in so many different ways The True History of Tea brings these disparate aspects together in an entertaining tale that combines solid scholarship with an eye for the quirky offbeat paths that tea has strayed upon during its long voyage It celebrates the common heritage of a beverage we have all come to love and plays a crucial part in the work of dismantling that obsolete dictum East is East and West is West and never the twain shall meet

Empire's Garden Jayeeta Sharma,2011-08 A history of the colonial tea plantation regime in Assam which brought more than one million migrants to the region in northeast India irrevocably changing the social landscape

The Beast in the Mosquito ,2016-10-11 The correspondence between Sir Ronald Ross 1857-1932 and Sir Patrick Manson 1844-1922 is rich in both scientific and human terms It records in great detail Ross's research in India between 1895 and 1899 which elucidated the role of mosquitoes in the transmission of malaria work for which Ross was awarded the 1902 Nobel Prize for Medicine or Physiology Ross described the mosquito transmission theory as Manson's Grand Induction and he had returned to India where he was an officer in the Indian Medical Service having been primed by Manson Ross's regular letters to his mentor document the frustrations and false trails as well as the excitement of discovery Manson in turn acted as a kind of agent in London publicising his findings offering advice and seeking to use his influence to secure for Ross the working conditions he so desired These 173 letters plus 85 from the two decades after Ross's return to Britain also record the rise and fall of a relationship as Ross's preoccupation with his place in the history of malariology led to a breach between the two men Themes of priority nationalism and personal vanity punctuate this latter correspondence which also reveals new insights about the golden years of tropical medicine Ross included some of the correspondence in his Memoirs but most of it appears here fully annotated for the first time

Kandahar in the Nineteenth Century William B. Trousdale,2021-03-08 This comprehensive history of nineteenth century Kandahar Afghanistan's second largest city uses not only traditional historical sources but unpublished diaries archived military reports contemporary photographs drawings paintings and maps of the city drawn by British soldiers other European visitors and Asian sources In addition to its detailed expansion on familiar political history he addresses the social structure tribal and ethnic composition religious institutions and economic activity during this century Central to his work is an often street by street description of the geographical layout of Kandahar its key features and how they changed over time Both for historians and those seeking the context of contemporary issues in Central Asia Trousdale's work is an essential read

[A Thirst for Empire](#) Erika Rappaport,2019-03-05 Tea has been one of the most

popular commodities in the world Over centuries profits from its growth and sales funded wars and fueled colonization and its cultivation brought about massive changes in land use labor systems market practices and social hierarchies the effects of which are with us even today A Thirst for Empire takes a vast and in depth historical look at how men and women through the tea industry in Europe Asia North America and Africa transformed global tastes and habits and in the process created our modern consumer society As Erika Rappaport shows between the seventeenth and twentieth centuries the boundaries of the tea industry and the British Empire overlapped but were never identical and she highlights the economic political and cultural forces that enabled the British Empire to dominate but never entirely control the worldwide production trade and consumption of tea Rappaport delves into how Europeans adopted appropriated and altered Chinese tea culture to build a widespread demand for tea in Britain and other global markets and a plantation based economy in South Asia and Africa Tea was among the earliest colonial industries in which merchants planters promoters and retailers used imperial resources to pay for global advertising and political lobbying The commercial model that tea inspired still exists and is vital for understanding how politics and publicity influence the international economy Jacket The Pioneers, 1825-1900 John Weatherstone, 1986
