Heritage Studies Marie Louise Stig Sørensen,John Carman,2009-09-18 This is the first volume specifically dedicated to the consolidation and clarification of Heritage Studies as a distinct field with its own means of investigation It presents the range of methods that can be used and illustrates their application through case studies from different parts of the world including the UK and USA The challenge that the collection makes explicit is that Heritage Studies must develop a stronger recognition of the scope and nature of its data and a concise yet explorative understanding of its analytical methods The methods considered fall within three broad categories textual discourse analysis methods for investigating people s attitudes and behaviour and methods for exploring the material qualities of heritage The methods discussed and illustrated range from techniques such as text analysis interviews participant observation to semiotic analysis of heritage sites and the use of GIS

Each paper discusses the ways in which methods used in social analysis generally are explored and adapted to the specific demands that arise when applied to the investigation of heritage in its many forms. *Heritage Studies* is a seminal volume that will help to define the field. The global perspective and the shared focus upon the development of reflexive methodologies ensure that the volume explores these central issues in a manner that is simultaneously case specific and of general relevance.

Backs to the Wall D. Peter MacLeod, 2016-09-24 The Battle of the Plains of Abraham in 1759 and the subsequent capitulation of Quebec set the stage for an equally significant French-British engagement in the struggle for northeastern North America: the Battle of Sainte-Foy. In the spring of 1760, after having suffered a brutal winter, Quebec garrison commander James Murray's troops were vulnerable and reduced to an army of skeletal invalids due to malnutrition and scurvy. Trapped in hostile territory and lacking confidence in the fortifications of Quebec, Murray planned to confront French attackers outside the walls. Instead of waiting at Montreal for the British to attack, Montcalm's successor François Gaston de Lévis returned to the plains for a rematch accompanied by every combatant available: French regulars, Canadian militia, and First Peoples warriors. The ensuing Battle of Sainte-Foy was less a battle for territory than a struggle for survival between two equally desperate adversaries. If the British lost the battle, they would lose Quebec. If the French lost the battle, they would very likely lose Canada. Both the French and the British had their backs to the wall. MacLeod presents this historical event in riveting detail from the preparation and day-by-day actions during the engagement to the compelling siege of Quebec by land and ship. *Backs to the Wall* is an accessible and engaging account of an important episode in Canadian history.

Champlain's Dream David Hackett Fischer, 2008 In this sweeping, enthralling biography, an acclaimed historian brings to life the remarkable story of Samuel de Champlain: soldier, spy, artist, and Father of New France.
