The Poison Conspiracy:

Dismantling Conspiracy Theories Katie Greer, Stephanie Beene, 2024-08-15 This book will explore the issue of information disorder in our society explore how conspiracy theories are shaping citizen engagement with information and reality and weave throughout how metaliteracy and information literacy can be utilized to produce a more democratic civil discourse It provides a desperately needed look at the problems of our information disordered society and the rise of superconspiracies like QAnon and how information professionals can help shape societal engagement with information *Doctoring the Black Death* John Aberth, 2021-09-15 The Black Death of the late Middle Ages is often described as the greatest natural disaster in the history of humankind More than fifty million people half of Europe s population died during the first outbreak alone from 1347 to 1353 Plague then returned fifteen more times through to the end of the medieval period in 1500 posing the greatest challenge to physicians ever recorded in the history of the medical profession This engrossing book provides the only comprehensive history of the medical response to the Black Death over time Leading historian John Aberth has translated many unknown plague treatises from nine different languages that vividly illustrate the human dimensions of the horrific scourge He includes doctors remarkable personal anecdotes showing how their battles to combat the disease which often afflicted them personally and the scale and scope of the plague led many to question ancient authorities Dispelling many myths and misconceptions about medicine during the Middle Ages Aberth shows that plague doctors formulated a unique and far reaching response as they began to treat plague as a poison a conception that had far reaching implications both in terms of medical treatment and social and cultural responses to the disease in society as a whole **The Affair of the Poisons** Anne Somerset, 2004-10-12 From the acclaimed author of Elizabeth I comes a look into the glittering court of France s Sun King Louis XIV and one of the most sensational crimes of all time 12 page full color insert **Taking Conspiracy Theories Seriously** Matthew R. X. Dentith, 2018-11-16 The contributors to this volume argue that whilst there is a commonplace superstition conspiracy theories are examples of bad beliefs and that the kind of people who believe conspiracy theories are typically irrational many conspiracy theories are rational to believe the members of the Dewey Commission were right to say that the Moscow Trials of the 1930s were a sham Woodward and Bernstein were correct to think that Nixon was complicit in the conspiracy to deny any wrongdoing in the Watergate Hotel break in and if we either accept the terrorist events of 9 11 were committed by Al Qaeda or that the Bush Administration was responsible then it seems we are endorsing some theory about a conspiracy to commit an act of terror on American soil As such there is no reason to reject conspiracy theories sui generis This volume challenges the prima facie that conspiracy theories are irrational beliefs arguing that we should treat conspiracy theories and the phenomena of conspiracy theories seriously It presents fresh perspectives from the wider philosophical sociological and psychological community on what is becoming an issue of increasing relevance in our time *Voodoo Practice. Handbook for Witchcraft. Rituals Conspiracies* Emma Koh, 2024-02-29 A one of a kind book on practical
